# PACE Government Money Market Investments Fund Summary

## Investment objective

Current income consistent with preservation of capital and liquidity.

## Fees and expenses of the fund

These tables describe the fees and expenses that you may pay if you buy and hold shares of the fund.

### Shareholder fees *(fees paid directly from your investment)\**

Maximum front-end sales charge (load) imposed on purchases	None
Maximum deferred sales charge (load)	None

\* Class P shares held through the PACE Multi Advisor Program are subject to a maximum Program fee of 2.50%. Class P shares held through other advisory programs also may be subject to a program fee.

### Annual fund operating expenses *(expenses that you pay each year as a percentage of the value of your investment)*

Management fees	0.25%
Distribution and/or service (12b-1) fees	None
Other expenses (includes administration fee of 0.10%)	0.70
Total annual fund operating expenses	0.95
Management fee waiver/expense reimbursements <sup>1</sup>	0.35
Total annual fund operating expenses after fee waiver and/or expense reimbursements <sup>1</sup>	0.60

<sup>1</sup> The fund and UBS Asset Management (Americas) Inc. ("UBS AM") have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its management fees and/or reimburse expenses so that the fund's ordinary total operating expenses through November 30, 2018 (excluding dividend expense, borrowing costs, and interest expense relating to short sales, and expenses attributable to investment in other investment companies, interest, taxes, brokerage commissions and extraordinary expenses) would not exceed 0.60%. The fund has agreed to repay UBS AM for any waived fees/reimbursed expenses to the extent that it can do so over the following three fiscal years without causing the fund's expenses in any of those three years to exceed this expense cap and that UBS AM has not waived the right to do so. The fee waiver/expense reimbursement agreement may be terminated by the fund's board at any time and also will terminate automatically upon the expiration or termination of the fund's advisory contract with UBS AM. Upon termination of the agreement, however, UBS AM's three year recoupment rights will survive.

## Example

This example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods. The example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same.\*

Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 year	3 years	5 years	10 years
\$61	\$268	\$491	\$1,134

\* Except that the expenses reflect the effects of the fund's fee waiver/expense reimbursement agreement for the first year only.

## Principal strategies

### Principal investments

The fund is a money market mutual fund and seeks to maintain a stable price of \$1.00 per share. To do this, the fund invests in a diversified portfolio of high quality, U.S. government money market instruments and in related repurchase agreements.

Money market instruments generally are short-term debt obligations and similar securities. They also may include long-term bonds that have variable interest rates or other special features that give them the financial characteristics of short-term debt. The fund has adopted a policy to invest 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities) in order to qualify as a "government money market fund" under federal regulations. By operating as a government money market fund, the fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the fund's board may elect to subject the fund to liquidity fee and gate requirements in the future, the board has not elected to do so at this

time. Many US government money market instruments pay income that is generally exempt from state and local income tax, although they may be subject to corporate franchise tax in some states. In addition, under normal circumstances, the fund invests at least 80% of its net assets in US government securities, including government securities subject to repurchase agreements.

The fund may invest a significant percentage of its assets in repurchase agreements. Repurchase agreements are transactions in which the fund purchases government securities and simultaneously commits to resell them to the same counterparty at a future time and at a price reflecting a market rate of interest. Income from repurchase agreements may not be exempt from state and local income taxation. Repurchase agreements often offer a higher yield than investments directly in government securities. In deciding whether an investment in a repurchase agreement is more attractive than a direct investment in government securities, the fund considers the possible loss of this tax advantage.

### **Management process**

UBS Asset Management (Americas) Inc. ("UBS AM"), the fund's manager and investment advisor, selects money market instruments for the fund based on its assessment of relative values and changes in market and economic conditions. UBS AM considers safety of principal and liquidity in selecting securities for the fund and thus may not buy securities that pay the highest yield.

### **Principal risks**

All investments carry a certain amount of risk, and the fund cannot guarantee that it will achieve its investment objective.

You could lose money by investing in the fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

Money market instruments generally have a low risk of loss, but they are not risk-free. The principal risks presented by an investment in the fund are:

**Credit risk:** Issuers of money market instruments may fail to make payments when due, or they may become less willing or less able to do so.

**Interest rate risk:** The value of the fund's investments generally will fall when short term interest rates rise, and its yield will tend to lag behind prevailing rates. The risks associated with rising interest rates may be more

pronounced going forward due to the end of an extended period of historically low rates.

**Liquidity risk:** Although the fund invests in a diversified portfolio of high quality instruments, the fund's investments may become less liquid as a result of market developments or adverse investor perception.

**Management risk:** The risk that the investment strategies, techniques and risk analyses employed by UBS AM may not produce the desired results.

**Market risk:** The risk that the market value of the fund's investments may fluctuate, sometimes rapidly or unpredictably, as the markets fluctuate, which may affect the fund's ability to maintain a \$1.00 share price. Market risk may affect a single issuer, industry, or sector of the economy, or it may affect the market as a whole. Moreover, changing market, economic and political conditions in one country or geographic region could adversely impact market, economic and political conditions in other countries or regions.

**US government securities risk:** There are different types of US government securities with different levels of credit risk, including the risk of default, depending on the nature of the particular government support for that security. For example, a US government-sponsored entity, such as Federal National Mortgage Association ("Fannie Mae") or Federal Home Loan Mortgage Corporation ("Freddie Mac"), although chartered or sponsored by an Act of Congress, may issue securities that are neither insured nor guaranteed by the US Treasury and are therefore riskier than those that are.

### **Performance**

#### **Risk/return bar chart and table**

The performance information that follows shows the fund's performance information in a bar chart and an average annual total returns table. The bar chart does not reflect the maximum annual PACE<sup>SM</sup> Multi Advisor Program fee; if it did, the total returns shown would be lower. The information provides some indication of the risks of investing in the fund by showing changes in the fund's performance from year to year. The fund's past performance is not necessarily an indication of how the fund will perform in the future. Prior to November 28, 2015, the fund was named PACE Money Market Investments, and the fund operated under certain different investment policies. The fund's historical performance may not represent its current investment policies. Updated performance information is available by contacting your Financial Advisor or by calling 1-888-793 8637 (Option #1).

## PACE Government Money Market Investments Annual Total Returns of Class P Shares

Total return January 1 - September 30, 2017: 0.18%  
 Best quarter during calendar years shown—2Q 2007: 1.19%  
 Worst quarters during calendar years shown—3Q 2009 & 1Q, 2Q & 3Q 2010 & 1Q, 2011: 0.00%  
 (Actual total return was 0.0024%)

**Average annual total returns** (figures do not reflect the deduction of PACE Multi Advisor Program Fee)  
 (for the periods ended December 31, 2016)

Class (inception date)	1 year	5 years	10 years
Class P (8/24/95)	0.01%	0.01%	0.70%

### Investment manager and advisor

UBS AM serves as the fund's manager and investment advisor.

### Purchase & sale of fund shares

You may purchase, redeem or exchange shares of the fund on any business day, which is any day the New York Stock Exchange is open for business, by contacting

your Financial Advisor. Participants in the PACE<sup>SM</sup> Multi Advisor Program may purchase Class P shares of the fund, through a managed account maintained with UBS Financial Services Inc. In general, the minimum initial investment in the PACE<sup>SM</sup> Multi Advisor Program is \$5,000 and is subject to the minimum investment requirements of the funds in the Program. Any subsequent investment in the Program must be at least \$500 if invested proportionately among the funds.

### Tax information

The dividends and distributions you receive from the fund are taxable and will generally be taxed as ordinary income, capital gains or some combination of both, unless you hold shares through a tax-exempt account or plan, such as an individual retirement account or 401(k) plan, in which case dividends and distributions on your shares generally will be taxed when withdrawn from the tax-exempt account or plan.

### Payments to broker-dealers and other financial intermediaries

If you purchase the fund through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your financial advisor to recommend the fund over another investment. Ask your financial advisor or visit your financial intermediary's Web site for more information.

# More information about the fund—PACE Government Money Market Investments

## **Additional information about the investment objective**

The fund's investment objective is non-fundamental and may be changed by the board of trustees at any time without shareholder approval.

## **Additional information about investment strategies**

The fund is a money market mutual fund and seeks to maintain a stable price of \$1.00 per share. To do this, the fund invests in a diversified portfolio of high quality, U.S. government money market instruments and in related repurchase agreements. Money market instruments generally are short-term debt obligations and similar securities. They also may include longer-term bonds that have variable interest rates or other special features that give them the financial characteristics of short-term debt. Many US government money market instruments pay income that is generally exempt from state and local income tax, although they may be subject to corporate franchise tax in some states. The fund may invest a significant percentage of its assets in repurchase agreements. Repurchase agreements are transactions in which the fund purchases government securities and simultaneously commits to resell them to the same counterparty at a future time and at a price reflecting a market rate of interest. Income from repurchase agreements may not be exempt from state and local income taxation. Repurchase agreements often offer a higher yield than investments directly in government securities. In deciding whether an investment in a repurchase agreement is more attractive than a direct investment in government securities, the fund considers the possible loss of this tax advantage.

The fund's board has determined that the fund will operate as a "government money market fund" pursuant to Rule 2a-7 ("Rule 2a-7") under the Investment Company Act of 1940, as amended ("Investment Company Act"). Therefore, the fund has adopted a policy to invest 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized with cash and/or government securities). As a "government money market fund," the fund (1) is permitted to use the amortized cost method of valuation to seek to maintain a \$1.00 share price and (2) is not subject to a liquidity fee and/or a redemption gate on fund redemptions which might apply to other types of funds should certain triggering events specified in Rule 2a-7 occur. (In

conformance with Rule 2a-7, the fund's board has reserved its ability to change this policy with respect to liquidity fees and/or redemption gates, but such change would only become effective after shareholders were provided with specific advance notice of a change in its policy and have the opportunity to redeem their shares in accordance with Rule 2a-7 before the policy change became effective.)

In addition, under normal circumstances, the fund invests at least 80% of its net assets in US government securities, including government securities subject to repurchase agreements. The fund's 80% policy is a "non-fundamental" policy. This means the investment policy may be changed by the fund's board without shareholder approval. However, the fund has also adopted a policy to provide its shareholders with at least 60 days' prior written notice of any change to the 80% investment policy.

Like all money market funds, the fund is subject to maturity, quality, diversification and liquidity requirements under Rule 2a-7. The fund's investment strategies are designed to comply with these requirements. The fund may invest in high quality, short-term, US dollar-denominated money market instruments paying a fixed, variable or floating interest rate.

UBS AM may use a number of professional money management techniques to respond to changing economic and money market conditions and to shifts in fiscal and monetary policy. These techniques include varying the fund's composition and weighted average maturity based upon UBS AM's assessment of the relative values of various money market instruments and future interest rate patterns. UBS AM also may buy or sell money market instruments to take advantage of yield differences.

Although not a principal strategy of the fund, the fund may invest to a limited extent in shares of similar money market funds. The fund's investments in other money market funds that comply with the definition of a government money market fund under Rule 2a-7 will be treated as investments in the underlying securities held by such money market funds for the purposes of the fund's policy to invest 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities).

# More information about the fund—PACE Government Money Market Investments

## **Additional information about principal risks**

The main risks of investing in the fund are described below.

Other risks of investing in the fund, along with further details about some of the risks described below, are discussed in the fund's Statement of Additional Information ("SAI"). Information on how you can obtain the SAI is on the back cover of this prospectus.

**Credit risk**—Credit risk is the risk that the issuer of a money market instrument will not make principal or interest payments when they are due. Even if an issuer does not default on a payment, a money market instrument's value may decline if the market believes that the issuer has become less able, or less willing, to make payments on time. Even the highest quality money market instruments are subject to some credit risk. The credit quality of an issuer can change rapidly due to market developments and may affect the fund's ability to maintain a \$1.00 share price.

**Interest rate risk**—The value of money market instruments generally can be expected to fall when short-term interest rates rise and to rise when short-term interest rates fall. Interest rate risk is the risk that interest rates will rise, so that the value of the fund's investments in money market instruments will fall. Also, the fund's yield will tend to lag behind changes in prevailing short-term interest rates. This means that the fund's income will tend to rise more slowly than increases in short-term interest rates. Similarly, when short-term interest rates are falling, the fund's income generally will tend to fall more slowly.

The historically low interest rate environment increases the risk associated with rising interest rates, including the potential for periods of volatility and increased redemptions. A fund may face a heightened level of interest rate risk since the US Federal Reserve Board has ended its quantitative easing program and may continue to raise rates.

**Liquidity risk**—The fund's investments may become less liquid due to market developments or adverse investor perception. When there is no willing buyer and investments cannot be readily sold at the desired time or price, the fund may have to accept a lower price or may not be able to sell an instrument at all. The inability to sell an instrument could adversely affect the fund's ability

to maintain a \$1.00 share price or prevent the fund from being able to take advantage of other investment opportunities. This risk may increase during an unusually high volume of redemption requests by even a few large investors or unusual market conditions.

**Management risk**—There is the risk that the investment strategies, techniques and risk analyses employed by the investment advisor, while designed to enhance returns, may not produce the desired results. UBS AM may be incorrect in its assessment of a particular security or assessment of market, interest rate or other trends, which can result in losses to the fund.

**Market risk**—The market value of the fund's investments may fluctuate as the markets fluctuate. Market fluctuation may affect the fund's ability to maintain a \$1.00 share price. Market risk, sometimes dramatically or unpredictably, may affect a single issuer, industry, section of the economy or geographic region, or it may affect the market as a whole. Volatility of financial markets can expose the fund to greater market risk, possibly resulting in greater illiquidity and valuation risks. Moreover, market, economic and political conditions in one country or geographic region could adversely impact market, economic and political conditions in other countries or regions, including countries and regions in which the fund invests, due to increasingly interconnected global economies and financial markets. Additionally, market conditions and legislative, regulatory, or tax developments may affect the investment techniques available to the investment advisor in connection with managing the fund and may result in increased regulation of the fund or its investments, and, in turn, may adversely affect the ability of the fund to achieve its investment objective and the fund's performance.

**US government securities risk**—Credit risk is the risk that the issuer will not make principal or interest payments when they are due. There are different types of US government securities with different relative levels of credit risk depending on the nature of the particular government support for that security. US government securities may be supported by (1) the full faith and credit of the US; (2) the ability of the issuer to borrow from the US Treasury; (3) the credit of the issuing agency, instrumentality or government-sponsored entity; (4) pools of assets (e.g., mortgage-backed securities); or (5) the US in some other way. In some cases, there is even the risk of default. For example, for asset-backed

# More information about the fund—PACE Government Money Market Investments

securities there is the risk those assets will decrease in value below the face value of the security. Similarly, for certain agency-issued securities there is no guarantee the US government will support the agency if it is unable to meet its obligations. Further, the US government and its agencies and instrumentalities do not guarantee the market value of their securities; consequently, the value of such securities will fluctuate. This may be the case especially when there is any controversy or ongoing uncertainty regarding the status of negotiations in the US Congress to increase the statutory debt ceiling. If the US Congress is unable to negotiate an adjustment to the statutory debt ceiling, there is also the risk that the US government may default on payments on certain US government securities, including those held by the funds, which could have a material negative impact on the fund.

## **Additional (non-principal) risks**

**Securities lending risk**—Securities lending involves the lending of portfolio securities owned by the fund to qualified broker-dealers and financial institutions. When lending portfolio securities, the fund initially will require the borrower to provide the fund with collateral, most commonly cash, which the fund will invest. Although the fund invests this collateral in a conservative manner, it is possible that it could lose money from such an investment or fail to earn sufficient income from its investment to cover the fee or rebate that it has agreed to pay the borrower. Loans of securities also involve a risk that the borrower may fail to return the securities or deliver the proper amount of collateral, which may result in a loss to the fund. In addition, in the event of bankruptcy of the borrower, the fund could experience losses or delays in recovering the loaned securities. In some cases, these risks may be mitigated by an indemnification provided by the fund's lending agent.

**Structured security risk**—The fund may purchase securities representing interests in underlying assets, but structured to provide certain advantages not inherent in those assets (e.g., enhanced liquidity and yields linked to short-term interest rates). If those securities behaved in a way that the advisor did not anticipate, or if the security structures encountered unexpected difficulties, the fund could suffer a loss. Structured securities represent a significant portion of the short-term securities markets.

**Temporary defensive positioning**—During adverse market conditions or when the advisor believes there is an insufficient supply of appropriate money market securities in which to invest, the fund may temporarily hold uninvested cash in lieu of such investments. During such periods when such temporary or defensive positions are held, the fund may not be able to fully pursue its investment objective. Such positions may also subject the fund to additional costs and risks, such as increased exposure to cash held at a custodian bank.

## Managing your fund account

### **Buying shares**

If you are a participant in the PACE<sup>SM</sup> Multi Advisor Program, you may buy shares of the fund through a managed account maintained with UBS Financial Services Inc. Payment for investments made through the PACE<sup>SM</sup> Multi Advisor Program is made by debiting this account. Your payment for fund shares is due no later than the first business day after the order is placed. You may place an order only after you have executed the necessary PACE<sup>SM</sup> Multi Advisor Program documentation and made an asset allocation decision. Your Financial Advisor is responsible for promptly forwarding your order to UBS Financial Services Inc. headquarters.

The fund, UBS Financial Services Inc. and UBS Asset Management (US) Inc. ("UBS AM (US)") have the right to reject a purchase order and to suspend the offering of the fund's shares for a period of time or permanently.

### **The PACE<sup>SM</sup> Multi Advisor Program**

The PACE<sup>SM</sup> Multi Advisor Program is described in detail in the PACE<sup>SM</sup> Multi Advisor Form ADV Disclosure Document, the UBS Financial Services Investment Advisory Agreement and other Program documents. The description of the PACE<sup>SM</sup> Multi Advisor Program in this prospectus is only a brief summary of certain features of the Program and is not intended as a complete description.

The PACE<sup>SM</sup> Multi Advisor Program is an advisory program sponsored by UBS Financial Services Inc. that includes comprehensive investment services, including investor profiling, a personalized asset allocation strategy using a combination of shares in no-load, low-load and load-waived funds and a quarterly investment per-

# More information about the fund—PACE Government Money Market Investments

formance review. UBS Financial Services Inc. has no investment discretion over your PACE<sup>SM</sup> Multi Advisor Program account. You will make all the investment decisions.

The fund is one of several funds used as vehicles to implement the long-term asset allocation strategies recommended through the PACE<sup>SM</sup> Multi Advisor Program based on an evaluation of your investment objectives and risk tolerances.

The minimum initial aggregate investment in the PACE<sup>SM</sup> Multi Advisor Program is \$5,000 and is subject to the minimum investment requirements of the funds in the Program. Any subsequent investment in the Program must be at least \$500 if invested proportionately among the funds.

It is possible that UBS Financial Services Inc.'s periodic recommendations for adjustments in the allocation of your assets among different funds may not be successful or may not be developed, transmitted and acted upon quickly enough to avoid market shifts, which can be sudden and substantial. You are urged to consider carefully UBS Financial Services Inc.'s asset allocation recommendations in light of your investment needs and to act promptly upon any recommended reallocation of assets.

## **The PACE<sup>SM</sup> Multi Advisor Program Fee**

For the services provided to you under the PACE<sup>SM</sup> Multi Advisor Program, you will pay UBS Financial Services Inc. a quarterly Program Fee at an annual rate of up to 2.50% of the value of the shares of the funds held in your account under the Program. This quarterly fee is generally charged to your UBS Financial Services Inc. account. Employees of UBS Financial Services Inc. and its affiliates may participate in the PACE<sup>SM</sup> Multi Advisor Program at a reduced fee or for no fee.

Financial Advisors at UBS Financial Services Inc. receive a portion of the PACE<sup>SM</sup> Program Fee for the services they provide to participants.

As a PACE<sup>SM</sup> Multi Advisor Program participant, you may incur greater total fees and expenses than investors purchasing shares of similar funds without the benefit of these professional asset allocation recommendations.

## **Selling shares**

You can sell your fund shares at any time. You may sell your shares by contacting your Financial Advisor in person or by telephone or mail. Your Financial Advisor is responsible for promptly forwarding your request to UBS Financial Services Inc.'s headquarters. After it receives and accepts your request, UBS Financial Services Inc. repurchases your fund shares. You generally will receive the proceeds of the sale within the first business day after UBS Financial Services Inc. receives the order.

UBS Financial Services Inc. reserves the right not to repurchase your shares. In that case, UBS Financial Services Inc. forwards your request to sell your shares to the fund's transfer agent. The transfer agent will sell your shares after you provide it with the following information in writing:

- Your name and address;
- The fund's name;
- Your account number;
- The dollar amount or number of shares you want to sell; and
- A guarantee of each registered owner's signature. A signature guarantee may be obtained from a financial institution, broker, dealer or clearing agency that is a participant in one of the medallion programs recognized by the Securities Transfer Agents Association. These are: Securities Transfer Agents Medallion Program (STAMP), Stock Exchanges Medallion Program (SEMP) and the New York Stock Exchange Medallion Signature Program (MSP). The fund and the transfer agent will not accept signature guarantees that are not a part of these programs.

Sales through the transfer agent may also need to include additional supporting documents for sales by estates, trusts, guardianships, custodianships, partnerships and corporations.

Your sales proceeds will be paid in federal funds ordinarily on the same day. If you sell all the shares you own, dividends accrued for the month to date will be paid in federal funds and wired on the same day.

# More information about the fund—PACE Government Money Market Investments

UBS Financial Services Inc. may terminate your participation in the PACE<sup>SM</sup> Multi Advisor Program if the value of your assets in the Program declines or is reduced to less than \$3,500. If UBS Financial Services Inc. elects to do this with your account, it will notify you that you can increase the amount invested to the account minimum or more. This notice may appear on your account statement. UBS Financial Services Inc. will not terminate your participation in the Program if the value of your account falls below \$3,500 solely as a result of a reduction in net asset value per share of the funds or redemptions to pay Program fees.

Typically, redemptions of fund shares will be made by the fund wiring a cash payment. The fund typically expects to meet redemption requests by using holdings of cash or cash equivalents and/or proceeds from the sale or maturity of portfolio holdings. However, if conditions exist that make cash payments undesirable, the fund reserves the right to honor any request for redemption by making payment in whole or in part in securities to the extent permitted by law.

If you want to sell shares that you purchased recently, the fund may delay payment until it verifies that it has received good payment. If you purchased shares by check, this can take up to 15 days. Additional information is available in the SAI.

**Automatic redemption of fund shares upon termination of participation in the PACE Multi Advisor Program.** Class P shares of the fund are available exclusively to participants in the PACE Select Advisors Program and the PACE<sup>SM</sup> Multi Advisors Program. Accordingly, you may buy and hold Class P shares of the fund only if and for as long as you participate in either Program. Your termination of your participation in either Program (other than, in the case of any investor who is a natural person, termination in either Program as a result of that person's death) will result in automatic redemption of the Class P shares of the fund you hold or that are held on your behalf. For further information on automatic redemption, please refer to the Program Agreement.

## **Additional information about your account**

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an

account. If you do not provide the information requested, the fund may not be able to maintain your account. If the fund is unable to verify your identity (or that of another person(s) authorized to act on your behalf) within a reasonable time, the fund and UBS AM reserve the right to close your account and/or take such other action they deem reasonable or required by law. If we decide to close your account for this reason, your fund shares will be redeemed at the net asset value per share next calculated after the account is closed, less any applicable contingent deferred sales charge or fees. In addition, you will not be entitled to recoup any sales charges paid to the fund in connection with your purchase of fund shares. You may recognize a gain or loss on the redemption of your fund shares and you may incur a tax liability.

Upon receipt of a proper redemption request submitted in a timely manner and otherwise in accordance with the redemption procedures set forth in this prospectus, the fund will redeem the requested shares and make a payment. The fund may postpone and/or suspend redemption and payment beyond one business day (but within seven calendar days) for any period during which there is a non-routine closure of the Fedwire or applicable Federal Reserve Banks. In addition, the fund may also postpone or suspend redemption and payment as follows: (1) for any period (a) during which the New York Stock Exchange ("NYSE") is closed other than customary weekend and holiday closings or (b) during which trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which (a) disposal by the fund of securities owned by it is not reasonably practicable or (b) it is not reasonably practicable for the fund fairly to determine the net asset value of shares of the fund; (3) for any period during which the SEC has, by rule or regulation, deemed that (a) trading shall be restricted or (b) an emergency exists; (4) for any period that the SEC may by order permit for your protection; or (5) for any period during which the fund, as part of a necessary liquidation of the fund, has properly postponed and/or suspended redemption of shares and payment in accordance with federal securities laws.

## **Market timing**

Frequent purchases and redemptions of fund shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which

# More information about the fund—PACE Government Money Market Investments

could impact the fund's performance. However, money market funds are generally used by investors for short-term investments, often in place of bank checking or savings accounts or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. UBS AM anticipates that shareholders will purchase and sell fund shares frequently because the fund is designed to offer investors a liquid cash option. UBS AM also believes that money market funds, such as the fund, are not targets of abusive trading practices. For these reasons, the fund's board of trustees ("board") has not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to discourage excessive or short-term trading of fund shares.

Other UBS funds that are managed by UBS AM that are not money market funds have approved policies and procedures designed to discourage and prevent abusive trading practices. For more information about market timing policies and procedures for these funds, please see the funds' prospectuses.

## Pricing and valuation

The price of fund shares is based on net asset value. The net asset value per share is equal to the value of all the assets of the fund, minus the liabilities of the fund, divided by the number of shares outstanding. In determining net asset value, the fund values its securities at their amortized cost, unless the fund's board (or its delegate) determines that this does not represent fair value. The amortized cost method uses a constant amortization to maturity of the difference between the cost of the instrument to the fund and the amount due at maturity. The fund's net asset value per share is expected to be \$1.00, although this value is not guaranteed.

The price at which you may buy or sell the fund's shares is based on the next net asset value per share calculated after your order is received in good form. The fund generally calculates its net asset value on days that the NYSE is open as of the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern time). The NYSE normally is not open, and the fund does not price its shares, on most national holidays and on Good Friday. If trading on the NYSE is halted for the day before 4:00 p.m., Eastern time, the fund's net asset value per share generally will be calculated as of the time trading was halted.

Your Financial Advisor is responsible for making sure that your order is promptly sent to the fund.

The fund's board has delegated to the Equities, Fixed Income, and Multi-Asset Valuation Committee the responsibility for making fair value determinations with respect to the fund's portfolio securities. The types of securities and other instruments for which such fair value pricing may be necessary include, but are not limited to: securities of an issuer that has entered into a restructuring; fixed-income securities that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; and securities or instruments that are restricted as to transfer or resale. The need to fair value the fund's portfolio securities may also result from low trading volume in foreign markets or thinly traded securities or instruments. Various factors may be reviewed in order to make a good faith determination of a security's or instrument's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the securities or instruments; and the evaluation of forces which influence the market in which the securities or instruments are purchased and sold.

The fund's portfolio holdings may also consist of shares of other investment companies in which the fund invests. The value of each such open-end investment company will generally be its net asset value at the time the fund's shares are priced. Pursuant to the fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies are also valued at the daily net asset value. Each investment company generally values securities and other instruments in a manner as described in that investment company's prospectus or similar document.

## Management

### Investment advisor

UBS Asset Management (Americas) Inc. ("UBS AM") is a Delaware corporation with its principal business offices located at One North Wacker Drive, Chicago, IL 60606 and at 1285 Avenue of the Americas, New York, New York, 10019-6028. UBS AM is an investment advisor registered with the SEC. UBS AM is an indirect asset management subsidiary of UBS Group AG ("UBS"). As

# More information about the fund—PACE Government Money Market Investments

of September 30, 2017, UBS AM had approximately \$166.6 billion in assets under management. UBS AM is a member of the UBS Asset Management Division, which had approximately \$767.9 billion in assets under management worldwide as of September 30, 2017. UBS is an internationally diversified organization headquartered in Zurich, Switzerland with operations in many areas of the financial services group of industries.

UBS AM is the fund's manager and primary provider of investment advisory services. The fund operates under an exemptive order from the SEC to permit UBS AM, subject to the review and approval of the board of PACE Select Advisors Trust (the "Trust"), to select sub-advisors and recommend their hiring, termination and replacement and to enter into and materially amend sub-advisory contracts between UBS AM and the sub-advisors without obtaining shareholder approval.

UBS AM may adjust allocations among multiple sub-advisors of the fund within certain risk limits reviewed and approved by the board.

## **Advisory and administration fees**

UBS AM is the administrator of the fund. The fund pays fees to UBS AM for advisory services and administrative services at the annual contract rates of 0.25% and 0.10%, respectively, of the fund's average daily net assets. During the fiscal year ended July 31, 2017, the fund paid UBS AM at the effective rate of 0.00% because of fee waivers and/or expense reimbursements.

A discussion regarding the basis for the board's approval of the fund's investment management agreement is available in the fund's annual report to shareholders for the fiscal year ended July 31, 2017.

## **Other information**

To the extent authorized by law, the fund reserves the right to discontinue offering shares at anytime, merge, reorganize itself or cease operations and liquidate.

## Dividends and taxes

### **Dividends**

The fund normally declares dividends daily and pays them monthly. Shares of the fund earn dividends on the

day they are sold but do not earn dividends on the day they are purchased.

You will receive dividends in additional shares of the fund unless you elect to receive them in cash. If you prefer to receive dividends in cash contact your Financial Advisor at UBS Financial Services Inc.

While the fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

### **Taxes**

The dividends that you receive from the fund generally are subject to federal income tax regardless of whether you receive them in additional fund shares or in cash. The fund expects that its dividends will be taxed as ordinary income. If you hold fund shares through a tax-exempt account or plan, such as an IRA or 401(k) plan, dividends on your shares generally will not be subject to tax until you receive distributions from the account or plan.

The fund will tell you annually how you should treat its dividends for tax purposes. You will not recognize any gain or loss on the sale of fund shares so long as the fund consistently maintains a share price of \$1.00.

The fund may be required to withhold a 28% federal tax on all dividends payable to you

- if you fail to provide the fund or UBS Financial Services Inc. with your correct taxpayer identification number on Form W-9 (for US citizens and resident aliens) or to make required certifications, or
- if you have been notified by the IRS that you are subject to backup withholding.

An additional 3.8% Medicare tax is imposed on certain net investment income (including ordinary dividends and capital gain distributions received from the fund and net gains from redemptions or other taxable dispositions of fund shares) of U.S. individuals, estates and trusts to the extent that such person's "modified adjusted gross income" (in the case of an individual) or "adjusted gross

# More information about the fund—PACE Government Money Market Investments

income" (in the case of an estate or trust) exceeds certain threshold amounts.

Taxable distributions to non-residents are expected to be subject to a 30% withholding tax (or lower applicable treaty rate). Distributions to non-residents of short-term capital gains and interest income made by the fund to non-residents are expected to be subject to withholding tax because certain detailed information necessary for a possible exemption is not expected to be available.

As noted above, shareholders will pay the PACE<sup>SM</sup> Multi Advisor Program Fee. For individual shareholders, this fee will be treated as a "miscellaneous itemized deduction" for federal income tax purposes, which generally means such amounts are deductible only to the extent that they exceed 2% of a person's "adjusted gross income."

The above is a general and abbreviated discussion of certain tax considerations, and each investor is advised to consult with their own tax advisor. There is additional information on taxes in the SAI.

## Disclosure of portfolio holdings and other information

The fund will file its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The fund's complete schedule of portfolio holdings for the second and fourth quarters of each fiscal year is included in its semiannual and annual reports to shareholders and is filed with the SEC on Form N-CSR. The fund's Forms N-Q and Forms N-CSR are available on the SEC's Web site at <http://www.sec.gov>. The fund's Forms N-Q and Forms N-CSR may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-202-551 8090. Additionally, you may obtain copies of Forms N-Q and annual and semiannual reports to shareholders from the fund upon request by calling 1-800-647 1568. The semiannual and annual reports for the fund will be posted on the fund's Web site at <http://www.ubs.com/usmoneymarketfunds>.

The fund will disclose on UBS AM's Web site, within five business days after the end of each month, a complete schedule of portfolio holdings and information regarding the weighted average maturity and weighted average life of the fund. This information will be posted on the UBS Web site at the following internet address: <https://www.ubs.com/usmoneymarketfunds>. In addition, the fund will file with the SEC on Form N-MFP, within five business days after the end of each month, more detailed portfolio holdings information. The fund's Forms N-MFP will be available on the SEC's Web site; UBS AM's Web site will also contain a link to these filings, when available. The UBS AM Web site will also disclose the following information for the fund as of the end of each business day for the previous six months: (1) the percentage of the fund's total assets invested in daily and weekly liquid assets; (2) the fund's daily net inflows and outflows; and (3) the fund's current market-based net asset value per share to four decimal places, which is calculated using current market quotations (or an appropriate substitute that reflects current market conditions). (For purposes of transactions in shares of the fund, the price for shares will be the net asset value per share, calculated using the amortized cost method to two decimal places as further described in the Prospectus and SAI.) Investors also may find additional information about the fund at the above referenced UBS Web site internet address.

Please consult the fund's SAI for a description of the policies and procedures that govern disclosure of the fund's portfolio holdings.

# Financial highlights

The following financial highlights table is intended to help you understand the fund's financial performance for the past five years. Certain information reflects financial results for a single fund share. In the table, "total investment return" represents the rate that an investor would have earned (or lost) on an investment in the fund (assuming reinvestment of all dividends and distributions).

This information in the financial highlights has been derived from the financial statements audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the fund's financial statements, is included in the fund's annual report to shareholders. The annual report may be obtained without charge by calling toll free 1-800-647 1568.

## PACE Government Money Market Investments

Selected financial data throughout each year is presented below:

	Class P				
	Years ended July 31,				
	2017	2016	2015	2014	2013
<b>Net asset value, beginning of year</b>	\$1.00	\$1.00	\$1.00	\$1.00	\$1.00
Net investment income	0.001	0.000 <sup>1</sup>	0.000 <sup>1</sup>	0.000 <sup>1</sup>	0.000 <sup>1</sup>
Net realized gains (losses)	(0.000) <sup>1</sup>	0.000 <sup>1</sup>	—	0.000 <sup>1</sup>	—
Net increase from operations	0.001	0.000 <sup>1</sup>	0.000 <sup>1</sup>	0.000 <sup>1</sup>	0.000 <sup>1</sup>
Dividends from net investment income	(0.001)	(0.000) <sup>1</sup>	(0.000) <sup>1</sup>	(0.000) <sup>1</sup>	(0.000) <sup>1</sup>
Distributions from net realized gains	—	(0.000) <sup>1</sup>	—	(0.000) <sup>1</sup>	—
Total dividends and distributions	(0.001)	(0.000) <sup>1</sup>	(0.000) <sup>1</sup>	(0.000) <sup>1</sup>	(0.000) <sup>1</sup>
<b>Net asset value, end of year</b>	\$1.00	\$1.00	\$1.00	\$1.00	\$1.00
<b>Total investment return<sup>2</sup></b>	0.11%	0.01%	0.01%	0.01% <sup>3</sup>	0.01%
<b>Ratios to average net assets:</b>					
Expenses before fee waivers and/or expense reimbursements	0.95%	0.96%	0.93%	0.91%	0.88%
Expenses after fee waivers and/or expense reimbursements	0.52%	0.26%	0.14%	0.14%	0.19%
Net investment income	0.12%	0.01%	0.01%	0.01%	0.01%
<b>Supplemental data:</b>					
Net assets, end of year (000's)	\$199,585	\$182,977	\$168,503	\$212,025	\$309,842

<sup>1</sup> Amount represents less than \$0.0005 per share.

<sup>2</sup> Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. The figures do not include program fees; results would be lower if these fees were included. Returns do not reflect the deduction of taxes that a shareholder would pay on fund distributions.

<sup>3</sup> In August 2013, UBS AM made a voluntary cash payment of \$2,340 to the fund in order to address a differential between the number of shares outstanding and the fund's net assets. The differential was attributable to historical embedded capital losses that were experienced by the fund over several years prior to credit crisis of 2008. Payment from investment advisor had no impact on the fund's total investment return and represents less than \$0.0005 per share.

## UBS family of funds privacy notice

This notice describes the privacy policy of the UBS Family of Funds and the PACE® Funds managed by UBS Asset Management (collectively, the “Funds”). The Funds are committed to protecting the personal information that they collect about individuals who are prospective, current or former investors.

The Funds collect personal information in order to process requests and transactions and to provide customer service. Personal information, which is obtained from applications and other forms or correspondence submitted to the Funds, may include name(s), address, e-mail address, telephone number, date of birth, social security number or other tax identification number, bank account information, information about your transactions and experiences with the Funds, and any affiliation a client has with UBS Financial Services Inc. or its affiliates (“Personal Information”).

The Funds limit access to Personal Information to those individuals who need to know that information in order to process transactions and service accounts. These individuals are required to maintain and protect the confidentiality of Personal Information and to follow established procedures. The Funds maintain physical, electronic and procedural safeguards to protect Personal Information and to comply with applicable laws and regulations.

The Funds may share Personal Information with their affiliates to facilitate the servicing of accounts and for other business purposes, or as otherwise required or permitted by applicable law. The Funds may also share Personal Information with non-affiliated third parties that perform services for the Funds, such as vendors that provide data or transaction processing, computer software maintenance and development, and other administrative services. When the Funds share Personal Information with a non-affiliated third party, they will do so pursuant to a contract that includes provisions designed to ensure that the third party will uphold and maintain privacy standards when handling Personal Information. In addition to sharing information with non-affiliated third parties to facilitate the servicing of accounts and for other business purposes, the Funds may disclose Personal Information to nonaffiliated third parties as otherwise required or permitted by applicable law. For example, the Funds may disclose Personal Information to credit bureaus or regulatory authorities to facilitate or comply with investigations; to protect against or prevent actual or potential fraud, unauthorized transactions, claims or other liabilities; or to respond to judicial or legal process, such as subpoena requests.

Except as described in this privacy notice, the Funds will not use Personal Information for any other purpose unless the Funds describe how such Personal Information will be used and clients are given an opportunity to decline approval of such use of Personal Information relating to them (or affirmatively approve the use of Personal Information, if required by applicable law). The Funds endeavor to keep their customer files complete and accurate. The Funds should be notified if any Personal Information needs to be corrected or updated. Please call 1-800-647 1568 with any questions or concerns regarding your Personal Information or this privacy notice.

# Business Continuity Planning Overview

## UBS Asset Management, Americas Region

UBS Asset Management affiliates UBS Asset Management (US) Inc. and UBS Asset Management (Americas) Inc. will protect information assets, processes, and customer data from unpredictable events through preparation and testing of a comprehensive business continuity capability. This capability seeks recovery of the technology infrastructure and information, and prevention of the loss of company or customer information and transactions. In the event of a crisis scenario, we will recover those functions deemed to be critical to our business and our clients, and strive to resume processing within predefined time frames following a disaster declaration (typically 4-6 hours). Business continuity processes provide us the ability to continue critical business functions regardless of the type, scope, or duration of a localized event. However, these processes are dependent upon various external resources, such as regional telecommunications, transportation networks, and other public utilities.

Essential elements of the business continuity plan include:

- **Crisis communication procedures:** Action plans for coordinating essential communications for crisis management leaders, employees, and key business partners
- **Information technology backup and recovery procedures:** Comprehensive technology and data management plans designed to protect the integrity and quick recovery of essential technology infrastructure and data
- **Disaster recovery site:** Alternative dedicated workspace, technology infrastructure, and systems support that is fully operational during a disaster declaration
- **Testing regimen:** The business continuity plan is reviewed on an annual basis, including the disaster recovery facility. In addition, all IT application recovery plans are updated and tested annually.

**This business continuity planning overview is not a part of the prospectus.**
