

PACE[®] Government Money Market Investments

Annual Report | July 31, 2019

PACE Government Money Market Investments

Performance

The seven-day current yield for the Fund as of July 31, 2019 was 1.74% (after fee waivers/expense reimbursements).¹ For more information on the Fund's performance, refer to "Yields and characteristics at a glance" on page 6. Please remember that the PACE program fee is assessed outside the Portfolio at the PACE program account level. The program fee does not impact the determination of the Portfolio's net asset value per share.

Advisor's Comments

The Federal Reserve Board (Fed) initially continued to normalize monetary policy during the reporting period. For example, the Fed raised rates at its meetings in September and December 2018, for a total of four rate hikes in 2018. With its December 2018 increase, the federal funds rate moved to a range between 2.25% and 2.50%. In addition, the Fed continued reducing its balance sheet. However, at its meeting in January 2019, the Fed announced that it would take a less aggressive stance on future rate hikes. Then, as expected, the Fed lowered rates at its meeting in July 2019—the first cut since 2008. While the yields on a wide

PACE Select Advisors Trust—PACE Government Money Market Investments

Investment Advisor:
UBS Asset Management (Americas) Inc.

Portfolio Manager:
Robert Sabatino

Objective:
Current income consistent with preservation of capital and liquidity

Investment process:
The Portfolio is a money market mutual fund and seeks to maintain a stable price of \$1.00 per share, although it may be possible to lose money by investing in this Portfolio. The Portfolio invests in a diversified portfolio of high-quality money market instruments of governmental issuers. Security selection is based on the assessment of relative values and changes in market and economic conditions.

¹ Class P shares held through the PACE Select Advisors Program are subject to a maximum Program fee of 2.50%, which, if included, would have reduced performance. Class P shares held through other advisory programs also may be subject to a program fee, which, if included, would have reduced performance.

PACE Government Money Market Investments

range of short-term investments moved higher over the period, yields still remain low by historical comparison. As a result, the Portfolio's yield remained low during the reporting period.

We tactically adjusted the Portfolio's weighted average maturity ("WAM") throughout the 12-month review period. When the reporting period began, the Portfolio had a WAM of 22 days. This was increased to 34 days at the end of the reporting period.

A number of adjustments were made to the Portfolio's sector and issuer positioning during the 12-month period. We modestly reduced the Portfolio's exposure to US government and agency obligations and slightly pared its allocation to repurchase agreements. (Repurchase agreements are transactions in which the seller of a security agrees to buy it back at a predetermined time and price or upon demand.)

Sincerely,

Igor Lasun

PACE Government Money Market Investments

This letter is intended to assist shareholders in understanding how the Fund performed during the 12 month period ended July 31, 2019. The views and opinions in the letter were current as of September 18, 2019. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. Prospectuses for most of our funds can be obtained from your financial advisor, by calling UBS Funds at 800-647 1568 or by visiting our Website at www.ubs.com/am-us.

PACE Government Money Market Investments

Understanding your Portfolio's expenses (unaudited)

As a shareholder of the Portfolio, you incur two types of costs: (1) ongoing program fees; and (2) ongoing Portfolio costs, including management fees and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, February 1, 2019 to July 31, 2019.

Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Portfolio's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Portfolio's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

PACE Government Money Market Investments

Understanding your Portfolio's expenses (unaudited) (concluded)

Please note that the expenses shown in the table are meant to highlight your ongoing Portfolio costs only and do not reflect any program fees. Therefore, the second line in the table is useful in comparing ongoing Portfolio costs only, and will not help you determine the relative total costs of owning different funds. In addition, if program fees were included, your costs would have been higher.

	Beginning account value February 1, 2019	Ending account value July 31, 2019	Expenses paid during period¹ 02/01/19 to 07/31/19	Expense ratio during the period
Actual	\$1,000.00	\$1,009.10	\$2.99	0.60%
Hypothetical (5% annual return before expenses)	1,000.00	1,021.82	3.01	0.60

¹ Expenses are equal to the Portfolio's annualized net expense ratios, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

Portfolio of investments—July 31, 2019

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of July 31, 2019 in valuing the Portfolio's investments. In the event a Portfolio holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
US government and agency obligations	\$—	\$146,145,295	\$—	\$146,145,295
Repurchase agreement	—	39,700,000	—	39,700,000
Total	\$—	\$185,845,295	\$—	\$185,845,295

At July 31, 2019, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

¹ Rate shown is the discount rate at the date of purchase unless otherwise noted.

² Variable or floating rate security. The interest rate shown is the rate in effect as of period end and changes periodically.

Net assets, end of year (000's)	\$184,602	\$188,794	\$199,585	\$182,977	\$168,503

¹ Amount represents less than \$0.0005 per share.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. The figures do not include program fees; results would be lower if these fees were included. Returns do not reflect the deduction of taxes that a shareholder would pay on Portfolio distributions.

PACE Government Money Market Investments

Notes to financial statements

Organization and significant accounting policies

PACE Government Money Market Investments (the “Portfolio”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (the “1940 Act”), as a diversified series of PACE Select Advisors Trust (the “Trust”), an open-end management investment company organized as a Delaware statutory trust under the laws of the State of Delaware by Certificate of Trust dated September 9, 1994, as amended June 9, 1995 and thereafter. The trustees of the Trust have authority to issue an unlimited number of shares of beneficial interest, par value \$0.001 per share.

The Trust has fifteen series available for investment, each having its own investment objectives and policies. The financial statements for the other series of the Trust are not included herein. Shares of the Portfolio currently are available only to participants in the PACESM Select Advisors Program and the PACESM Multi Advisor Program.

UBS Asset Management (Americas) Inc. (“UBS AM”) serves as the investment manager, investment advisor and administrator for the Portfolio. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Trust accounts separately for the assets, liabilities and operations of each Portfolio. Expenses directly attributable to each Portfolio are charged to that Portfolio’s operations; expenses which are applicable to all Portfolios are allocated among them on a pro rata basis.

In the normal course of business, the Portfolio may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Portfolio’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Portfolio that have not yet occurred. However, the Portfolio has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

PACE Government Money Market Investments

Notes to financial statements

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Portfolio’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In March 2017, the FASB issued Accounting Standards Update 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): “Premium Amortization On Purchased Callable Debt Securities” (“ASU 2017-08”). The update provides guidance related to the amortization period for certain purchased callable debt securities held at a premium. ASU 2017-08 will be effective for annual periods beginning after December 15, 2018. Management is currently assessing the potential impact of these changes to future financial statements.

In August 2018, the FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement (“ASU 2018-13”). The update introduces new fair value disclosure requirements, eliminates some prior fair value disclosure requirements, and modifies certain existing fair value disclosure requirements. ASU 2018-13 will be effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Management is currently assessing the potential impact of these changes to future financial statements.

The following is a summary of significant accounting policies:

Valuation of investments—Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”) the Portfolio has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a

PACE Government Money Market Investments

Notes to financial statements

“government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market fund”, the Portfolio values its investments at amortized cost unless the Portfolio’s Board of Trustees (the “Board”) determines that this does not represent fair value. Periodic review and monitoring of the valuation of the securities held by the Portfolio is performed in an effort to ensure that amortized cost approximates market value.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Portfolio’s investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Portfolio’s own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Portfolio’s Portfolio of investments.

Constant net asset value per share—The Portfolio attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Portfolio will be able to maintain a stable net asset value of \$1.00 per share. The Portfolio has adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable it to do so. The Portfolio has adopted a policy to operate as a “government money market fund” and as such the Portfolio is permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates—By operating as a “government money market fund,” the Portfolio is exempt from requirements that permit the imposition of a liquidity fee and/or

PACE Government Money Market Investments

Notes to financial statements

temporary redemption gates. While the Board may elect to subject the Portfolio to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Portfolio may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Portfolio maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Portfolio and its counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a Portfolio upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Portfolio generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 of the 1940 Act or a Portfolio's investment strategies and limitations may require the Portfolio to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Portfolio may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. The Portfolio intends to enter into

PACE Government Money Market Investments

Notes to financial statements

repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risks.

The Portfolio may participate in joint repurchase agreement transactions with other Portfolios managed, advised or subadvised by UBS AM. Under certain circumstances, the Portfolio may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Portfolio potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of debt securities held by the Portfolio to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment management and administration fees and other transactions with affiliates

The Portfolio’s Board has approved an investment management and administration contract (“Management Contract”) with UBS AM. In

PACE Government Money Market Investments

Notes to financial statements

accordance with the Management Contract, the Portfolio pays UBS AM an investment management and administration fee, which is accrued daily and paid monthly, at an annual rate of 0.35% of the Portfolio's average daily net assets. At July 31, 2019, UBS AM owes \$3,724 to the Portfolio, representing investment management and administration fees net of fee waivers/expense reimbursements.

UBS AM has contractually undertaken to waive a portion of the Portfolio's investment management and administration fees and/or reimburse a portion of the Portfolio's other expenses, when necessary, to maintain the total ordinary annual operating expenses (excluding borrowing costs and interest expense, if any) through November 30, 2019 at a level not to exceed 0.60%. For the period ended July 31, 2019, UBS AM waived \$404,306 in investment management and administration fees. The Portfolio will make a payment to UBS AM for any previously waived fees/reimbursed expenses during the following three fiscal years to the extent that operating expenses are otherwise below the expense cap.

At July 31, 2019, the Portfolio had remaining fee waivers/expense reimbursements subject to repayment to UBS AM and respective dates of expiration as follows:

Fee waivers/expense reimbursements subject to repayment	Expires July 31, 2020	Expires July 31, 2021	Expires July 31, 2022
\$1,484,423	\$670,937	\$409,180	\$404,306

No amount was repaid back to UBS AM in the past year.

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Portfolio may conduct transactions, resulting in him being an interested trustee of the Portfolio. The Portfolio has been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. Portfolio transactions are executed through Morgan

PACE Government Money Market Investments

Notes to financial statements

Stanley based on that firm's ability to provide best execution of the transactions.

During the year ended July 31, 2019, the Portfolio did not purchase or sell certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley. If any such transactions had occurred, Morgan Stanley would have received compensation in connection with such trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities or some other form of compensation. Although the precise amount of this compensation is not generally known by the Portfolio's investment manager, it is believed that under normal circumstances it represents a small portion of the total value of the transactions.

Transfer agency and related services fees

UBS Financial Services Inc. provides certain services to the Portfolio pursuant to a delegation of authority from BNY Mellon Investment Servicing (US) Inc. ("BNY Mellon"), the Portfolio's transfer agent, and is compensated for these services by BNY Mellon, not the Portfolio.

UBS Financial Services Inc. has voluntarily agreed to waive a portion of the fee that it would otherwise have received from BNY Mellon with respect to PACE Government Money Market Investments so that BNY Mellon would correspondingly reduce the fees it would have charged to that Portfolio. For the year ended July 31, 2019, the amount of the reduction in transfer agency and related services fees charged by BNY Mellon to the Portfolio was \$201,698, which reflected an equal amount of compensation that was voluntarily waived by UBS Financial Services Inc. Voluntary fee waiver/expense reimbursement arrangements may end at any time.

For the period ended July 31, 2019, UBS Financial Services Inc. received from BNY Mellon, not the Portfolio, \$312,420 of the total transfer agency and related services fees paid by the Portfolio to BNY Mellon.

PACE Government Money Market Investments

Notes to financial statements

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

	Years ended July 31,	
	2019	2018
Shares sold	241,670,811	153,320,074
Shares repurchased	(248,947,713)	(165,625,042)
Dividends reinvested	3,084,709	1,513,589
Net decrease in shares outstanding	(4,192,193)	(10,791,379)

Federal tax status

The Portfolio intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Portfolio intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Portfolio during the fiscal years ended July 31, 2019 and July 31, 2018 was ordinary income in the amount of \$3,456,399 and \$1,702,668, respectively.

At July 31, 2019, the components of accumulated earnings on a tax basis were undistributed ordinary income of \$145,535, accumulated realized capital and other losses of \$(971), and other temporary differences of \$(146,127).

There were no reclassifications arising from permanent "book/tax" differences for the fiscal year ended July 31, 2019.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized by the Portfolio after

PACE Government Money Market Investments

Notes to financial statements

December 22, 2010, may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. The Act requires that post-enactment net capital losses be used before pre-enactment net capital losses. At July 31, 2019, the Portfolio had post-enactment short-term capital loss carryforwards of \$971. During the current fiscal year, the portfolio utilized \$135 of capital loss carryforwards to offset current year realized gains.

ASC 740-10 "Income Taxes-Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Portfolio has analyzed and concluded as of July 31, 2019, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Portfolio recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of Operations. During the period ended July 31, 2019, the Portfolio did not incur any interest or penalties.

Each of the tax years in the four year period ended July 31, 2019, remains subject to examination by the Internal Revenue Service and state taxing authorities.

PACE Government Money Market Investments Report of Ernst & Young LLP, independent registered public accounting firm

To the Shareholders and the Board of
Trustees of PACE Government Money Market Investments

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of PACE Government Money Market Investments (the “Fund”) (one of the funds constituting PACE Select Advisors Trust), including the portfolio of investments, as of July 31, 2019 and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting PACE Select Advisors Trust) at July 31, 2019, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over

PACE Government Money Market Investments
Report of Ernst & Young LLP, independent
registered public accounting firm

financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of July 31, 2019, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The logo for Ernst & Young LLP is written in a black, cursive script. The words "Ernst & Young" are connected together, and "LLP" is written in a smaller, more upright font at the end of the line.

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York

PACE Government Money Market Investments

General information (unaudited)

Monthly and quarterly portfolio holdings disclosure

The Portfolio has filed its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year through August 1, 2019 on Form N-Q. Effective August 1, 2019, the Form N-Q has been rescinded, and therefore is no longer required to be filed. The Portfolio's historical Forms N-Q are available on the SEC's Web site at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC 0330.

In addition, the Portfolio discloses, on a monthly basis: (a) a complete schedule of its portfolio holdings; and (b) information regarding its weighted average maturity and weighted average life on UBS's Web site at the following internet address:

www.ubs.com/usmoneymarketfunds. In addition, at this location, you will find a link to more detailed Portfolio information appearing in filings with the SEC on Form N-MFP.

Proxy voting policies, procedures and record

You may obtain a description of the Portfolio's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Portfolio voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Portfolio directly at 1-800-647 1568, online on the Portfolio's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on SEC's Web site (<http://www.sec.gov>).

Other tax information

Pursuant to sections 871(k)(1)(C)(i) and 871(k)(2)(C)(i) of the Internal Revenue Code, the Portfolio designates \$3,456,399 of ordinary income distributions paid as qualified interest income.

PACE Government Money Market Investments Board approval of investment management and administration agreement (unaudited)

Background—At a meeting of the board of PACE Select Advisors Trust (the “Trust”) on July 23-24, 2019, the members of the board, including the trustees who are not “interested persons,” as defined in the Investment Company Act of 1940, as amended, of the Trust (the “Independent Trustees”), considered and approved the continuance of the investment management and administration agreement (the “Investment Management and Administration Agreement”) between UBS Asset Management (Americas) Inc. (“UBS AM”) and the Trust, on behalf of PACE Government Money Market Investments (the “Portfolio”). In preparing for the meeting, the Independent Trustees had requested and received extensive information from UBS AM to assist them, including information about UBS AM, as well as the management, administrative and distribution arrangements for the Portfolio. The board reviewed and discussed with management the materials initially provided by UBS AM prior to the scheduled board meeting. The Independent Trustees also met in executive session to review the disclosure that had been made to them. At these sessions the Independent Trustees were joined by their independent legal counsel. The Independent Trustees also received a memorandum from their independent legal counsel discussing the duties of board members in considering the approval of management, administration and distribution agreements.

In its consideration of the approval of the Investment Management and Administration Agreement, the board considered the following factors:

Nature, extent and quality of the services under the Investment Management and Administration Agreement—The board received and considered information regarding the nature, extent and quality of management services provided to the Portfolio by UBS AM. The board also considered the nature, extent and quality of administrative, distribution and shareholder services performed by UBS AM and its affiliates for the Portfolio and the resources devoted to, and the record of compliance with, the Portfolio’s compliance policies and procedures. The board noted that it received information at regular meetings throughout the year regarding the services rendered

PACE Government Money Market Investments Board approval of investment management and administration agreement (unaudited)

by UBS AM concerning the management of the Portfolio's affairs and UBS AM's role in coordinating and overseeing providers of other services to the Portfolio. The board's evaluation of the services provided by UBS AM took into account the board's knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of UBS AM's investment management and other capabilities and the quality of its administrative and other services. The board observed that the scope of services provided by UBS AM had expanded over time as a result of regulatory and other developments, including maintaining and monitoring its own and the Portfolio's expanded compliance programs.

The board had available to it the qualifications, backgrounds and responsibilities of the senior personnel at UBS AM responsible for the Portfolio and had previously met with and received information regarding the persons primarily responsible for the day-to-day management of the Portfolio. The board recognized that several senior personnel at UBS AM report to the board regularly, and that at each regular meeting the board receives a detailed report from UBS AM on the Portfolio's performance. The board also considered, based on its knowledge of UBS AM and its affiliates, the financial resources available to UBS AM and its parent organization, UBS Group AG. In that regard, the board received extensive financial information regarding UBS AM and noted that it was a wholly owned, indirect subsidiary of one of the largest financial services firms in the world. It also was noted that UBS AM had approximately \$183 billion in assets under management as of March 31, 2019 and was part of the UBS Asset Management Division, which had approximately \$824 billion in assets under management worldwide as of March 31, 2019. The board also was cognizant of, and considered, the regulatory and litigation actions and investigations occurring in the past few years involving UBS Group AG, UBS AM and certain of their affiliates.

The board concluded that, overall, it was satisfied with the nature, extent and quality of services provided (and expected to be provided)

PACE Government Money Market Investments Board approval of investment management and administration agreement (unaudited)

to the Portfolio under the Investment Management and Administration Agreement.

Management fees and expense ratios—The board reviewed and considered the contractual management fee (the “Contractual Management Fee”) payable by the Portfolio to UBS AM in light of the nature, extent and quality of the services provided by UBS AM pursuant to the Investment Management and Administration Agreement. The board also reviewed and considered the fee waiver and/or expense reimbursement arrangement for the Portfolio and considered the actual fee rate (after taking any waivers and reimbursements into account) (the “Actual Management Fee”) payable by the Portfolio. The board considered that UBS AM had entered into a fee waiver and/or expense reimbursement agreement with the Portfolio under which UBS AM was contractually obligated to waive its management fees and/or reimburse the Portfolio so that the total ordinary operating expenses of the Portfolio through November 30, 2019 (excluding certain miscellaneous items) would not exceed a specified limit. The board also considered that the Portfolio had agreed to repay UBS AM for those waived fees and/or reimbursed expenses if the Portfolio can do so over the following three fiscal years without causing its expenses in any of those years to exceed the expense cap. Additionally, the board received and considered information comparing the Portfolio’s Contractual Management Fee, Actual Management Fee and overall expenses with those of funds in a group of funds selected and provided by Broadridge, an independent provider of investment company data (the “Expense Group”).

In connection with its consideration of the Portfolio’s management fees, the board also received information on UBS AM with respect to fees paid by institutional or separate accounts; however, in management’s view, such fee information was not very relevant to the Portfolio because, among other reasons, separately managed and institutional accounts with a “cash” mandate (a) were not subject to all of the constraints of Rule 2a-7 under the 1940 Act to which the Portfolio is subject and (b) do not involve the management responsibilities attendant to the operation of a 1940 Act regulated

PACE Government Money Market Investments Board approval of investment management and administration agreement (unaudited)

fund, and, therefore, were not totally comparable. The board also received information on fees charged to other mutual funds managed by UBS AM.

The comparative Broadridge information showed that the Portfolio's Actual Management Fee was below the median, and its Contractual Management Fee and total expenses were at the median in the Portfolio's Expense Group for the comparison periods utilized in the Broadridge report. (Below median fees or expenses represent fees or expenses that are lower relative to the median, and above median fees or expenses represent fees or expenses that are higher relative to the median of the funds in the Expense Group.)

Portfolio performance—The board received and considered (a) annualized total return information of the Portfolio compared to other funds (the "Performance Universe") selected by Broadridge over the one-, three-, five-, ten-year and since inception periods ended April 30, 2019, and (b) annualized performance information for each year in the ten-year period ended April 30, 2019. Although the board received information for the ten-year and since inception periods, in its analysis, it generally placed greater emphasis on the one-, three- and five-year periods. The board was provided with a description of the methodology Broadridge used to determine the similarity of the Portfolio with the funds included in its Performance Universe. The board also noted that it had received information throughout the year at periodic intervals with respect to the Portfolio's performance.

The comparative Broadridge information showed that the Portfolio's performance was at or slightly above the Performance Universe median for the five- and ten-year periods and since inception, but slightly below the Performance Universe median for the one- and three-year periods. (Below median performance represents performance that is worse relative to the median, and above median performance represents performance that is better relative to the median.) The board noted that the Portfolio's above median performance included periods during which the Portfolio was managed as a prime money market fund, in contrast to the

PACE Government Money Market Investments Board approval of investment management and administration agreement (unaudited)

government money market funds in the Portfolio's Performance Universe.

Based on its review and management's explanations, the board concluded that the Portfolio's investment performance was acceptable and that the management fee as proposed by management continued to be appropriate under the circumstances and in light of the nature, extent and quality of the services provided to the Portfolio under the Investment Management and Administration Agreement.

Advisor profitability—The board received and considered a profitability analysis of UBS AM and its affiliates in providing services to the Portfolio and was provided information on UBS AM's expense allocation methodology. The board also received profitability information with respect to the UBS New York fund complex as a whole. The board observed that the profitability and expense analyses are substantially similar to those used by UBS AM for many internal purposes, and are subject to regular review with respect to how certain revenue and expenses should be allocated. UBS AM's profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Portfolio.

Economies of scale—The board received and considered information from management regarding whether UBS AM realized economies of scale as the Portfolio's assets grew, whether the Portfolio has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale for the Portfolio. The board considered whether economies of scale in the provision of services to the Portfolio were being passed along to the shareholders. The board noted that the Portfolio's Contractual Management Fee did not contain breakpoints. However, the board also noted that to the extent the Portfolio's assets increase over time, it will realize economies of scale as certain expenses, such as fees for trustees, auditor and legal fees and printing and postage, become a smaller percentage of overall assets.

PACE Government Money Market Investments Board approval of investment management and administration agreement (unaudited)

In light of UBS AM's profitability data, the Actual Management Fee, the Contractual Management Fee and the current assets of the Portfolio, the board believed that UBS AM's sharing of potential and current economies of scale with the Portfolio was acceptable.

Other benefits to UBS AM—The board considered other benefits received by UBS AM and its affiliates as a result of its relationship with the Portfolio, including the opportunity to offer additional products and services to Portfolio shareholders. In light of the costs of providing investment management, administrative and other services to the Portfolio and UBS AM's ongoing commitment to the Portfolio, the profits and other ancillary benefits that UBS AM and its affiliates received were considered reasonable.

In light of all of the foregoing, the board, including a majority of the Independent Trustees, approved the Investment Management and Administration Agreement for the Portfolio. No single factor reviewed by the board was identified by the board as the principal factor in determining whether to approve the Investment Management and Administration Agreement. The Independent Trustees were advised by separate independent legal counsel throughout the process. The board discussed the proposed continuance of the Investment Management and Administration Agreement in private sessions with their independent legal counsel at which no representatives of UBS AM were present.
