Annual Report | April 30, 2018

UBS Liquid Assets Government Fund

June 15, 2018

Dear Shareholder,

We present you with the annual report for UBS Liquid Assets Government Fund (the "Fund") for the 12 months ended April 30, 2018 (the "reporting period").

Performance

The US Federal Reserve Board (the "Fed") raised the federal funds rate three times during the 12 months ended April 30, 2018 and ended the reporting period with that rate in a range between 1.50% and 1.75%. The federal funds rate or the "fed funds rate," is the rate US banks charge one another for funds they borrow on an overnight basis. (For more details on the Fed's actions, see below.) The yields on a wide range of short-term investments moved higher over the period, but yields still remained low by historical comparison. As a result, the Fund's yield remained relatively low during the reporting period.

The seven-day current yield for the Fund as of April 30, 2018 was 1.66%, compared to 0.73% on April 30, 2017. (For more information on the Fund's performance, refer to "Yields and characteristics at a glance" on page 4.)

An interview with Portfolio Manager Robert Sabatino

Q. How would you describe the economic environment during the reporting period?

A. The US economy continued to expand during the reporting period. Looking back, the US Commerce Department reported that gross domestic product ("GDP") grew at a 3.1% and 3.2% seasonally adjusted annualized rate during the second and third quarters of 2017, respectively. The latter reading represented the strongest pace since the first quarter of 2015. Fourth quarter 2017 GDP grew at a 2.9% rate. Finally, based on the US Commerce Department's initial reading, first quarter 2018 GDP growth was 2.3%.

Q. How did the Fed react to the economic environment?

A. The Fed raised interest rates three times during the reporting period as it sought to gradually normalize monetary policy. After raising rates in June 2017, the Fed again raised rates in December 2017, bringing the federal funds rate to a range between 1.25% and 1.50%. In addition, starting in October 2017, the Fed began reducing its sizable balance sheet. Finally, in March 2018, the Fed raised rates to a range between 1.50% and 1.75%. This marked the Fed's sixth rate hike since December 2015 and the first for new Fed Chairman Jerome Powell.

Q. How did you position the Fund over the fiscal year?

A. We tactically adjusted the Fund's weighted average maturity (WAM)—which is the weighted average maturity of the securities in the portfolio—throughout the 12-month review period. When the reporting period began, the Fund had a WAM of 57 days. By the end of the period the Fund's WAM was 22 days.

Q. What level of portfolio diversification did you maintain during the reporting period?

A. At the issuer level, we continued to invest heavily in US government agency securities along with repurchase agreements backed by these securities.

Q. What types of securities did you emphasize over the period?

A. Several adjustments were made to the Fund's sector positioning during the 12-month period. We decreased the Fund's exposures to direct US government and agency obligations. Conversely, we increased the Fund's allocation to repurchase agreements backed by those types of securities. (Repurchase agreements are transactions in which the seller of a security agrees to buy it back at a predetermined time and price or upon demand.)

Q. What factors do you believe will affect the Fund over the coming months?

A. We believe the US economy will continue to expand, albeit at a relatively modest pace. In our view, inflation may tick higher, but generally be well behaved. Against this backdrop, we believe the Fed will take a measured approach in terms of raising interest rates and reducing its balance sheet. We anticipate continuing to manage the Fund focusing on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the UBS family of funds,* please contact your financial advisor, or visit us at www.ubs.com/am-us.

Understanding your Fund's expenses (unaudited)

As a shareholder of the Fund, you incur ongoing costs, including management fees (unless waived) and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2017 to April 30, 2018.

Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

The example does not reflect any program fees (e.g., ACCESSSM program fees, Resource Management Account® (RMA®) Program fees) as these are external to the Fund and relate to the particular program chosen by the investor.

	Beginning account value November 1, 2017	Ending account value¹ April 30, 2018	Expenses paid during period² 11/01/17 to 04/30/18	Expense ratio during the period
Actual	\$1,000.00	\$1,006.60	\$0.25	0.05%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.55	0.25	0.05

¹ "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

² Expenses are equal to the Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Fund's investments. In the event a Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

¹ Amount represents less than \$0.0005 per share.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

³ Effective April 15, 2016, the fund changed from being a "prime" money market fund able to invest in a wide range of governmental and nongovernmental debt securities to being a "government" money market fund focusing its investments in US government securities and related repurchase agreements backed by such securities; therefore, performance for prior periods reflects a different investment focus.

⁴ In August 2013, UBS Asset Management (Americas) Inc. made a voluntary cash payment of \$57,843 to the fund in order to address a differential between the number of shares outstanding and the fund's net assets. The differential was attributed to historical, embedded capital losses that were experienced by the fund over several years prior to the credit crisis of 2008. Payment from investment advisor had no impact on the Fund's total investment return and represents less than \$0.0005 per share.

UBS Liquid Assets Government Fund

Notes to financial statements

Organization and significant accounting policies

UBS Liquid Assets Government Fund (the "Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust") (formerly UBS Money Series), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with twenty-one series. The financial statements for the other series of the Trust are not included herein.

UBS Asset Management (Americas) Inc. ("UBS AM") is the investment advisor and administrator for the Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In October 2016, the SEC adopted new rules and forms, and amendments to certain current rules and forms, to modernize reporting and disclosure of information by registered investment companies. The amendments to Regulation S-X require standardized, enhanced disclosure about derivatives in investment company financial statements, and change the rules governing the form and content of such financial statements. The amendments to Regulation S-X took effect on August 1, 2017. Management has assessed the impact of these regulatory developments, and the changes are incorporated within the financial statements.

The following is a summary of significant accounting policies:

Valuation of investments: Under Rule 2a-7 under the 1940 Act, as amended ("Rule 2a-7"), the Fund has adopted a policy to operate as a "government money market fund". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (*i.e.*, collateralized by cash and/or government securities). As a "government money market fund", the Fund values its investments at amortized cost unless the Fund's Board of Trustees (the "Board") determines that this does not represent fair value. Periodic review and monitoring of the valuation of the securities held by the Fund is performed in an effort to ensure that amortized cost approximates market value.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

UBS Liquid Assets Government Fund

Notes to financial statements

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Fund's Portfolio of investments.

Constant net asset value per share: The Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund has adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable it to do so. The Fund has adopted a policy to operate as a "government money market fund" and as such the Fund is permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates: By operating as a "government money market fund", the Fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject the Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements: The Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Fund and its counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or the Fund's investment strategies and limitations may require the Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. The Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risks.

The Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Under certain circumstances, the Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income: Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

UBS Liquid Assets Government Fund

Notes to financial statements

Dividends and distributions: Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions is determined in accordance with federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk: The ability of the issuers of the debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment advisor and administrator and other transactions with affiliates

The Fund’s Board of Trustees has approved an investment advisory and administration contract (the “Advisory Contract”) with UBS AM, under which UBS AM serves as investment advisor and administrator of the Fund. In accordance with the Advisory Contract, the Fund pays UBS AM an investment advisory and administration fee, which is accrued daily and paid monthly. Where the services are provided directly by UBS AM or an affiliate, the fee will be limited to reimbursement of UBS AM’s direct advisory/administrative costs and expenses and will exclude any profit or overhead charges. Where UBS AM arranges for an unaffiliated person to provide services, the Fund will reimburse UBS AM for the cost of the services provided by the unaffiliated person, but no additional profit or overhead charge will be included or the Fund will pay the service provider directly. UBS AM has advised the Fund that for the year ended April 30, 2018 its direct advisory/administrative costs and expenses approximate an annual rate of 0.05% of the average daily net assets of the Fund. These expenses are estimated amounts in addition to other expenses of the Fund. To the extent such fees are not waived, UBS AM periodically will review Fund expenses in an effort to confirm that only direct costs and expenses are paid to UBS AM by the Fund.

For the year ended April 30, 2018, UBS AM waived its entire fee for its direct advisory/administrative costs and expenses; such amount is not subject to future recoupment.

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Fund may conduct transactions, resulting in him being an interested trustee of the Fund. The Fund has been informed that Professor Feldberg’s role at Morgan Stanley does not involve matters directly affecting any UBS funds. Portfolio transactions are executed through Morgan Stanley based on that firm’s ability to provide best execution of the transactions. During the year ended April 30, 2018, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley, having an aggregate value of \$14,946,538. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a “mark-up” or “mark-down” of the price of the securities, a fee from the issuer, or some other form of compensation. Although the precise amount of this compensation is not generally known by the Fund’s investment advisor, it is believed that under normal circumstances it represents a small portion of the total value of the transactions.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

	For the years ended April 30,	
	2018	2017
Shares sold	8,581,720,416	8,134,821,381
Shares repurchased	(8,769,866,157)	(7,492,341,775)
Dividends reinvested	12,460,403	4,187,824
Net increase (decrease) in shares outstanding	(175,685,338)	646,667,430

UBS Liquid Assets Government Fund

Notes to financial statements

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Fund during the fiscal years ended April 30, 2018 and April 30, 2017 was ordinary income in the amount of \$13,079,042 and \$4,510,242, respectively.

At April 30, 2018, the components of accumulated earnings on a tax basis were undistributed ordinary income of \$346,140.

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized by a Fund after December 22, 2010 may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. The Act requires that post-enactment net capital losses be used before pre-enactment net capital losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. At April 30, 2018, the Fund had no capital loss carryforwards.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2018, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. It is the Fund's policy to record any significant foreign tax exposures on the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2018, the Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2018, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of UBS Liquid Assets Government Fund

Opinion on the financial statements

We have audited the accompanying statement of assets and liabilities of UBS Liquid Assets Government Fund (the "Fund") (one of the funds constituting the UBS Series Funds (the "Trust")), including the portfolio of investments, as of April 30, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2018, the results of its operations for the year then ended, the changes in net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2018, by correspondence with the custodians and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more UBS investment companies since 1978.
