

UBS Liquid Assets Government Fund

Semiannual Report | October 31, 2018

UBS Liquid Assets Government Fund

December 19, 2018

Dear Shareholder,

We present you with the semiannual report for UBS Liquid Assets Government Fund (the "Fund") for the six months ended October 31, 2018 (the "reporting period").

Performance

The US Federal Reserve Board (the "Fed") raised the federal funds rate twice during the six months ended October 31, 2018 and ended the reporting period in a range between 2.00% and 2.25%. The federal funds rate or the "fed funds rate," is the rate US banks charge one another for funds they borrow on an overnight basis. (For more details on the Fed's actions, see below.) The yields on a wide range of short-term investments moved higher over the period.

The seven-day current yield for the Fund as of October 31, 2018 was 2.18%, compared to 1.66% on April 30, 2018. (For more information on the Fund's performance, refer to "Yields and characteristics at a glance" on page 4.)

An interview with Portfolio Manager Robert Sabatino

Q. How would you describe the economic environment during the reporting period?

A. The lengthy US economic expansion continued during the reporting period. Looking back, the US Commerce Department reported that gross domestic product ("GDP") grew at a 2.2% seasonally adjusted annualized rate during the first quarter of 2018. Second quarter 2018 GDP grew at a 4.2% rate. This represented the strongest pace since the third quarter of 2014. The initial estimate for third quarter 2018 GDP growth was 3.5%.

Q. How did the Fed react to the economic environment?

A. As expected, the US Federal Reserve Board (the "Fed") continued to normalize monetary policy during the reporting period. Starting in October 2017, the Fed began reducing its sizable balance sheet. In addition, the Fed raised rates in June and September 2018. The September move pushed the federal funds rate to a range between 2.00% and 2.25%. After the close of the reporting period, the Fed made one additional 0.25% rate hike on December 19, 2018, while continuing to pare its balance sheet.

Q. How did you position the Fund over the fiscal year?

A. We tactically adjusted the Fund's weighted average maturity (WAM)—which is the weighted average maturity of the securities in the portfolio—throughout the six-month review period. When the reporting period began, the Fund had a WAM of 22 days. By the end of the period the Fund's WAM was 25 days.

Q. What level of portfolio diversification did you maintain during the reporting period?

A. At the issuer level, we maintained a high level of diversification over the six-month period, and kept the Fund in excess of regulatory daily and weekly liquid minimums.

UBS Liquid Assets Government Fund

Investment goal:

Provide as high a level of current interest income as is consistent with maintaining liquidity and principal stability

Dividend payments:

Monthly

UBS Liquid Assets Government Fund

Q. What types of securities did you emphasize over the period?

A. Several adjustments were made to the Fund's sector positioning during the six-month period. We decreased the Fund's exposure to direct US government obligations. Conversely, we increased the Fund's allocation to repurchase agreements backed by those securities. (Repurchase agreements are transactions in which the seller of a security agrees to buy it back at a predetermined time and price or upon demand.)

Q. What factors do you believe will affect the Fund over the coming months?

A. In our view, the US economy has the momentum to continue expanding heading into 2019. While inflation may edge higher, we expect it to be generally well behaved. Against this backdrop, we believe the Fed will take a measured approach in terms of raising interest rates and reducing its balance sheet. We anticipate continuing to manage the Fund focusing on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the UBS family of funds,* please contact your financial advisor, or visit us at www.ubs.com/am-us.

Sincerely,

This letter is intended to assist shareholders in understanding how the Funds performed during the six-month period ended October 31, 2018. The views and opinions in the letter were current as of December 19, 2018. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

* Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. Prospectuses for most of our funds can be obtained from your financial advisor, by calling UBS Funds at 800-647 1568 or by visiting our Website at www.ubs.com/am-us.

UBS Liquid Assets Government Fund

Understanding your Fund's expenses (unaudited)

As a shareholder of the Fund, you incur ongoing costs, including management fees (unless waived) and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, May 1, 2018 to October 31, 2018.

Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

The example does not reflect any investment program fees (e.g., ACCESSSM program fees, Resource Management Account[®] (RMA[®]) program fees) as these are external to the Fund and relate to the particular program chosen by the investor.

	Beginning account value May 1, 2018	Ending account value ¹ October 31, 2018	Expenses paid during period ² 05/01/18 to 10/31/18	Expense ratio during the period
Actual	\$1,000.00	\$1,009.70	\$0.15	0.03%
Hypothetical (5% annual return before expenses)	1,000.00	1,025.05	0.15	0.03

¹ "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

² Expenses are equal to the Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 184 divided by 365 (to reflect the one-half year period).

UBS Liquid Assets Government Fund

Portfolio of investments—October 31, 2018 (unaudited)

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of October 31, 2018 in valuing the Fund's investments. In the event a Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
US government and agency obligations	\$—	\$ 1,540,712,814	\$—	\$ 1,540,712,814
Repurchase agreements	—	641,645,000	—	641,645,000
Total	\$—	\$2,182,357,814	\$—	\$2,182,357,814

At October 31, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

¹ Variable or floating rate security. The interest rate shown is the rate in effect as of period end and changes periodically. The maturity date reflects earlier of reset date or stated maturity date.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

Portfolio acronyms

Total investment return²	0.97%	1.14%	0.42%	0.18% ³	0.08%	0.11% ⁴
Ratios to average net assets:						
Expenses before fee waivers	0.08% ⁵	0.10%	0.11%	0.13%	0.12%	0.11%
Expenses after fee waivers	0.03% ⁵	0.05%	0.05%	0.07%	0.07%	0.07%
Net investment income	1.96% ⁵	1.13%	0.45%	0.19%	0.08%	0.10%
Supplemental data:						
Net assets, end of period (000's)	\$2,157,094	\$1,099,902	\$1,275,587	\$628,919	\$427,172	\$501,483

¹ Amount represents less than \$0.0005 per share.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each period reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each period reported. Total investment return for the period of less than one year has not been annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

³ Effective April 15, 2016, the fund changed from being a "prime" money market fund able to invest in a wide range of governmental and nongovernmental debt securities to being a "government" money market fund focusing its investments in US government securities and related repurchase agreements backed by such securities; therefore, performance for prior periods reflects a different investment focus.

⁴ In August 2013, UBS Asset Management (Americas) Inc. made a voluntary cash payment of \$57,843 to the fund in order to address a differential between the number of shares outstanding and the fund's net assets. The differential was attributed to historical, embedded capital losses that were experienced by the fund over several years prior to the credit crisis of 2008. Payment from investment advisor had no impact on the Fund's total investment return and represents less than \$0.0005 per share.

⁵ Annualized.

See accompanying notes to financial statements.

UBS Liquid Assets Government Fund

Notes to financial statements (unaudited)

Organization and significant accounting policies

UBS Liquid Assets Government Fund (the "Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust") (formerly UBS Money Series), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with twenty-one series. The financial statements for the other series of the Trust are not included herein.

UBS Asset Management (Americas) Inc. ("UBS AM") is the investment advisor and administrator for the Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Funds' financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In March 2017, the FASB issued Accounting Standards Update 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): "Premium Amortization On Purchased Callable Debt Securities" ("ASU 2017-08"). The update provides guidance related to the amortization period for certain purchased callable debt securities held at a premium. ASU 2017-08 will be effective for annual periods beginning after December 15, 2018. Management is currently assessing the potential impact of these changes to future financial statements.

In August 2018, the FASB issued Accounting Standards Update 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement ("ASU 2018-13"). The update introduces new fair value disclosure requirements, eliminates some prior fair value disclosure requirements, and modifies certain existing fair value disclosure requirements. ASU 2018-13 will be effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Management is currently assessing the potential impact of these changes to future financial statements.

The following is a summary of significant accounting policies:

Valuation of investments: Under Rule 2a-7 under the 1940 Act, as amended ("Rule 2a-7"), the Fund has adopted a policy to operate as a "government money market fund". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (*i.e.*, collateralized by cash and/or government securities). As a "government money market fund", the Fund values its investments at amortized cost unless the Fund's Board of Trustees (the "Board") determines that this does not represent fair value. Periodic review and monitoring of the valuation of the securities held by the Fund is performed in an effort to ensure that amortized cost approximates market value.

UBS Liquid Assets Government Fund

Notes to financial statements (unaudited)

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Fund's Portfolio of investments.

Constant net asset value per share: The Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund has adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable it to do so. The Fund has adopted a policy to operate as a "government money market fund" and as such the Fund is permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates: By operating as a "government money market fund", the Fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject the Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements: The Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Fund and its counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or the Fund's investment strategies and limitations may require the Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. The Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risks.

The Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Under certain circumstances, the Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

UBS Liquid Assets Government Fund

Notes to financial statements (unaudited)

Investment transactions and investment income: Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Dividends and distributions: Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions is determined in accordance with federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk: The ability of the issuers of debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment advisor and administrator and other transactions with affiliates

The Fund’s Board of Trustees has approved an investment advisory and administration contract (the “Advisory Contract”) with UBS AM, under which UBS AM serves as investment advisor and administrator of the Fund. In accordance with the Advisory Contract, the Fund pays UBS AM an investment advisory and administration fee, which is accrued daily and paid monthly. Where the services are provided directly by UBS AM or an affiliate, the fee will be limited to reimbursement of UBS AM’s direct advisory/administrative costs and expenses and will exclude any profit or overhead charges. Where UBS AM arranges for an unaffiliated person to provide services, the Fund will reimburse UBS AM for the cost of the services provided by the unaffiliated person, but no additional profit or overhead charge will be included or the Fund will pay the service provider directly. UBS AM has advised the Fund that for the period ended October 31, 2018 its direct advisory/administrative costs and expenses approximate an annual rate of 0.05% of the average daily net assets of the Fund. These expenses are estimated amounts in addition to other expenses of the Fund. To the extent such fees are not waived, UBS AM periodically will review Fund expenses in an effort to confirm that only direct costs and expenses are paid to UBS AM by the Fund.

For the period ended October 31, 2018, UBS AM waived its entire fee for its direct advisory/administrative costs and expenses; such amount is not subject to future recoupment.

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Fund may conduct transactions, resulting in him being an interested trustee of the Fund. The Fund has been informed that Professor Feldberg’s role at Morgan Stanley does not involve matters directly affecting any UBS funds. Portfolio transactions are executed through Morgan Stanley based on that firm’s ability to provide best execution of the transactions. During the period ended October 31, 2018, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley, having an aggregate value of \$49,924,826. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a “mark-up” or “mark-down” of the price of the securities, a fee from the issuer, or some other form of compensation. Although the precise amount of this compensation is not generally known by the Fund’s investment advisor, it is believed that under normal circumstances it represents a small portion of the total value of the transactions.

UBS Liquid Assets Government Fund

Notes to financial statements (unaudited)

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

	For the six months ended October 31, 2018	For the year ended April 30, 2018
Shares sold	6,878,456,344	8,581,720,416
Shares repurchased	(5,831,895,170)	(8,769,866,157)
Dividends reinvested	10,631,111	12,460,403
Net increase (decrease) in shares outstanding	1,057,192,285	(175,685,338)

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Fund during the fiscal year ended April 30, 2018 was ordinary income in the amount of \$13,079,042.

The components of accumulated earnings (deficit) on a tax basis for the current fiscal year will be determined after the Fund's fiscal year ending April 30, 2019.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of October 31, 2018, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. It is the Fund's policy to record any significant foreign tax exposures on the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended October 31, 2018, the Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2018, remains subject to examination by the Internal Revenue Service and state taxing authorities.

UBS Liquid Assets Government Fund

General information (unaudited)

Monthly and quarterly portfolio holdings disclosure

The Fund will file its complete schedule of portfolio holdings with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. The Fund’s Forms N-Q are available on the SEC’s Web site at <http://www.sec.gov>. The Fund’s Forms N-Q may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the SEC’s Public Reference Room may be obtained by calling 1-800-SEC 0330. Additionally, you may obtain copies of Forms N-Q from the Fund upon request by calling 1-800-647 1568.

In addition, the Fund discloses, on a monthly basis: (a) a complete schedule of its portfolio holdings; and (b) information regarding its weighted average maturity and weighted average life on UBS’s Web site at the following internet address: www.ubs.com/usmoneymarketfunds. In addition, at this location, you will find a link to more detailed Fund information appearing in filings with the SEC on Form N-MFP. Investors also may find additional information about the Fund at the above referenced UBS Web site internet address.

Proxy voting policies, procedures and record

You may obtain a description of the Fund’s (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund’s Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC’s Web site (<http://www.sec.gov>).

UBS Liquid Assets Government Fund

Board approval of advisory agreements (unaudited)

Background—At a meeting of the board of UBS Series Funds (the “Trust”) on July 17-18, 2018, the members of the board, including the trustees who are not “interested persons” of the Trust (“Independent Trustees”), as defined in the Investment Company Act of 1940, as amended (the “1940 Act”), considered and approved the continuance of the investment advisory and administration contract (the “Investment Advisory and Administration Contract”) of the Trust with respect to its series, UBS Liquid Assets Government Fund (the “Fund”), with UBS Asset Management (Americas) Inc. (“UBS AM”). In preparing for the meeting, the Independent Trustees had requested and received extensive information from UBS AM to assist them, including information about UBS AM, as well as the advisory, administrative and distribution arrangements for the Fund. The board reviewed and discussed with management the materials initially provided by UBS AM prior to the scheduled board meeting. The Independent Trustees also met in executive session to review the disclosure that had been made to them. At these sessions the Independent Trustees were joined by their independent legal counsel. The Independent Trustees also received a memorandum from their independent legal counsel discussing the duties of board members in considering the approval of advisory, administration and distribution agreements.

In its consideration of the approval of the Investment Advisory and Administration Contract, the board reviewed the following factors:

Nature, extent and quality of the services under the Investment Advisory and Administration Contract—

The board received and considered information regarding the nature, extent and quality of advisory services provided to the Fund by UBS AM under the Investment Advisory and Administration Contract during the past year. The board also considered the nature, extent and quality of administrative, distribution and shareholder services performed by UBS AM and its affiliates for the Fund and the resources devoted to, and the record of compliance with, the Fund’s compliance policies and procedures. The board noted that it received information at regular meetings throughout the year regarding the services rendered by UBS AM concerning the management of the Fund’s affairs and UBS AM’s role in coordinating and overseeing providers of other services to the Fund. The board’s evaluation of the services provided by UBS AM took into account the board’s knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of UBS AM’s investment advisory and other capabilities and the quality of its administrative and other services. The board observed that the scope of services provided by UBS AM had expanded over time as a result of regulatory and other developments, including maintaining and monitoring its own and the Fund’s expanded compliance programs.

The board had available to it the qualifications, backgrounds and responsibilities of the senior personnel at UBS AM responsible for the Fund and had previously met with and received information regarding the persons primarily responsible for the day-to-day management of the Fund. The board recognized that several senior personnel at UBS AM report to the board regularly and that at each regular meeting the board receives a detailed report from UBS AM on the Fund’s performance. The board also considered, based on its knowledge of UBS AM and its affiliates, the financial resources available to UBS AM and its parent organization, UBS Group AG. In that regard, the board received extensive financial information regarding UBS AM and noted that it was a wholly owned, indirect subsidiary of one of the largest financial services firms in the world. It also was noted that UBS AM had approximately \$174 billion in assets under management as of March 31, 2018 and was part of the UBS Asset Management Division, which had approximately \$831 billion in assets under management worldwide as of March 31, 2018. The board also was cognizant of, and considered, the regulatory and litigation actions and investigations occurring in the past few years involving UBS Group AG, UBS AM and certain of their affiliates.

The board concluded that, overall, it was satisfied with the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Investment Advisory and Administration Contract.

Advisory fees and expense ratios—The board reviewed and considered the contractual advisory and administration fee (the “Contractual Management Fee”) payable by the Fund to UBS AM in light of the nature, extent and quality of the advisory and administrative services provided by UBS AM. The board also reviewed and considered the

UBS Liquid Assets Government Fund

Board approval of advisory agreements (unaudited)

fee waiver and/or expense reimbursement arrangement implemented for the Fund and considered the actual fee rate (after taking any waivers and/or reimbursements into account) (the “Actual Management Fee”).

The board noted that UBS AM currently voluntarily waives its entire management/administrative fees due from the Fund. The board also noted that UBS AM could change or terminate this voluntary waiver at any time in the future. Additionally, the board received and considered information comparing the Fund’s Contractual Management Fee, Actual Management Fee and total expenses with those of funds in a group of funds selected and provided by Broadridge, an independent provider of investment company data (the “Expense Group”).

In connection with its consideration of the Fund’s management fees, the board also received information from UBS AM with respect to fees paid by institutional or separate accounts; however, in management’s view, such fee information was not very relevant to the Fund because, among other reasons, separately managed and institutional accounts with a “cash” mandate (a) were not subject to all of the constraints of Rule 2a-7 under the 1940 Act to which the Fund is subject and (b) do not involve the management responsibilities attendant to the operation of a 1940 Act regulated fund, and, therefore, were not totally comparable. The board also received information on fees charged to other mutual funds managed by UBS AM.

The comparative Broadridge information showed that the Fund’s Contractual Management Fee, Actual Management Fee and total expenses were below the respective medians in the Fund’s Expense Group (Contractual Management Fee, Actual Management Fee and total expenses were lowest in the Expense Group) for the comparison periods utilized in the Broadridge report. (Below median fees or expenses represent fees or expenses that are lower relative to the median, and above median fees or expenses represent fees or expenses that are higher relative to the median of the funds in the Expense Group.)

In light of the foregoing, the board determined that the management fee was reasonable in light of the nature, extent and quality of services provided to the Fund under the Investment Advisory and Administration Contract.

Fund performance—The board received and considered (a) annualized total return information of the Fund compared to other funds (the “Performance Universe”) selected by Broadridge over the one-, three-, five-, ten-year and since inception periods ended April 30, 2018 and (b) annualized performance information for each year in the ten-year period ended April 30, 2018. Although the board received information for the ten-year and since inception periods, in its analysis, it generally placed greater emphasis on the one-, three- and five-year periods. The board was provided with a description of the methodology Broadridge used to determine the similarity of the Fund with the funds included in its Performance Universe. The board also noted that it had received information throughout the year at periodic intervals with respect to the Fund’s performance.

The comparative Broadridge information showed that the Fund’s performance was above the median for all comparative periods, ranking first in the Performance Universe for the three-, five- and ten-year periods and since inception. (Below median performance represents performance that is worse relative to the median, and above median performance represents performance that is better relative to the median.) Based on its review, the board concluded that the Fund’s investment performance was acceptable.

Advisor profitability—The board received and considered a profitability analysis of UBS AM and its affiliates in providing services to the Fund. The board also received profitability information with respect to the UBS New York fund complex as a whole. UBS AM’s profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Fund.

Economies of scale—The board received and considered information from management regarding whether UBS AM realized economies of scale as the Fund’s assets grew, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale for the

UBS Liquid Assets Government Fund

Board approval of advisory agreements (unaudited)

Fund. The board considered whether economies of scale in the provision of services to the Fund were being passed along to the shareholders.

The board noted that because UBS AM currently voluntarily waives its entire management/administrative fees due from the Fund, a discussion regarding breakpoints was not necessary.

Generally, in light of UBS AM's profitability data, the Contractual Management Fee and Actual Management Fee, and the voluntary fee waiver currently in effect, the board believed that UBS AM's sharing of current economies of scale with the Fund was acceptable.

Other benefits to UBS AM—The board considered other benefits received by UBS AM and its affiliates as a result of its relationship with the Fund, including the opportunity to offer additional products and services to Fund shareholders. In light of the costs of providing investment advisory, administrative and other services to the Fund and UBS AM's ongoing commitment to the Fund, the profits and other ancillary benefits that UBS AM and its affiliates received were considered reasonable.

In light of all of the foregoing, the board, including a majority of the Independent Trustees, approved the Investment Advisory and Administration Contract. No single factor reviewed by the board was identified by the board as the principal factor in determining whether to approve the Investment Advisory and Administration Contract. The Independent Trustees were advised by separate independent legal counsel throughout the process. The board discussed the proposed continuance of the Investment Advisory and Administration Contract in private sessions with its independent legal counsel at which no representatives of UBS AM were present.
