Annual Report | April 30, 2018

Includes:

- UBS Select Prime Institutional Fund
- UBS Select Government Institutional Fund
- UBS Select Treasury Institutional Fund
- UBS Prime Reserves Fund
- UBS Tax-Free Reserves Fund

UBS Institutional/Reserves Funds

June 15, 2018

Dear Shareholder,

We present you with the annual report for the UBS Institutional/Reserves Series of Funds, namely UBS Select Prime Institutional Fund, UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund and UBS Tax-Free Reserves Fund (the “Funds”) for the 12 months ended April 30, 2018 (the “reporting period”).

Performance

The US Federal Reserve Board (the “Fed”) raised the federal funds rate three times during the 12 months ended April 30, 2018 and ended the reporting period with that rate in a range between 1.50% and 1.75%. The federal funds rate or the “fed funds rate,” is the rate US banks charge one another for funds they borrow on an overnight basis. (For more details on the Fed’s actions, see below.) The yields on a wide range of short-term investments moved higher over the period, but yields still remained low by historical comparison. As a result, the Funds’ yields remained relatively low during the reporting period.

The seven-day current yields for the Funds (after fee waivers/expense reimbursements, in any) were as follows:

- **UBS Select Prime Institutional Fund:** 1.86% as of April 30, 2018, versus 1.01% on April 30, 2017.
- **UBS Select Government Institutional Fund:** 1.56% as of April 30, 2018, versus 0.62% as of April 30, 2017.
- **UBS Select Treasury Institutional Fund:** 1.50% as of April 30, 2018, versus 0.62% on April 30, 2017.
- **UBS Prime Reserves Fund:** 1.76% as of April 30, 2018, versus 0.89% on April 30, 2017.
- **UBS Tax-Free Reserves Fund:** 1.48% as of April 30, 2018, versus 0.71% on April 30, 2017.

For detailed information on the Funds’ performance, refer to “Yields and characteristics at a glance” on pages 6 and 7.

An interview with the Portfolio Managers

Q. How would you describe the economic environment during the reporting period?

A. The US economy continued to expand during the reporting period. Looking back, the US Commerce Department reported that gross domestic product (“GDP”) grew at a 3.1% and 3.2% seasonally adjusted annualized rate during the second and third quarters of 2017, respectively. The latter reading represented the strongest pace since the first quarter of 2015. Fourth quarter 2017 GDP grew at a 2.9% rate. Finally, based on the US Commerce Department’s initial reading, first quarter 2018 GDP growth was 2.3%.

Lisa M. DiPaolo
UBS Asset Management (Americas) Inc.

Commencement:

August 28, 2007

Dividend payments:

Monthly

UBS Institutional/Reserves Funds

Q. How did the Fed react to the economic environment?

A. The Fed raised interest rates three times during the reporting period as it sought to gradually normalize monetary policy. After raising rates in June 2017, the Fed again raised rates in December 2017, bringing the federal funds rate to a range between 1.25% and 1.50%. In addition, starting in October 2017, the Fed began reducing its sizable balance sheet. Finally, in March 2018, the Fed raised rates to a range between 1.50% and 1.75%. This marked the Fed's sixth rate hike since December 2015 and the first for new Fed Chairman Jerome Powell.

Q. Given that the Funds are "feeder funds," how were the portfolios in which they invest managed during the reporting period?

A. Each fund is a "feeder fund," investing all of its assets in "Master Funds"—the Prime Master Fund, the Government Master Fund, the Treasury Master Fund, the Prime CNAV Master Fund the Tax-Free Master Fund, respectively. As always, quality and liquidity remained paramount in our management process for the Master Funds.

- For the Prime Master Fund in which **UBS Select Prime Institutional Fund** invests, we tactically adjusted its weighted average maturity (WAM)—which is the weighted average maturity of the securities in the portfolio—throughout the 12-month review period. When the reporting period began, the Master Fund had a WAM of 25 days. By the end of the period on April 30, 2018, the Master Fund's WAM was 21 days.

At the issuer level, we maintained a high level of diversification with the goal of reducing risk and keeping the Master Fund highly liquid. To that end, we typically purchased up to 3% in single nongovernment issuers for securities with maturities past overnight throughout the reporting period. (The Master Fund is generally able to hold up to 5% in any one issuer, subject to certain exceptions.)

At the security level, we increased the Master Fund's exposures to certificates of deposit and commercial paper. Conversely, we decreased its exposures to repurchase agreements and time deposits. (Repurchase agreements are transactions that require the seller of a security to buy it back at a predetermined time and price, or upon demand.)

- The WAM for the Master Fund in which **UBS Select Government Institutional Fund** invests was 56 days when the reporting period began. Over the review period, the WAM was adjusted, and at period-end on April 30, 2018, it was 24 days. At the security level, we increased the Master Fund's exposures to direct US government and agency obligations and reduced its exposure to repurchase agreements.
- The WAM for the Master Fund in which **UBS Select Treasury Institutional Fund** invests was 49 days when the reporting period began. Over the review period, the WAM was adjusted, and at period-end it was 25 days. At the security level, we increased the Master Fund's exposure to US government obligations and reduced its exposure to repurchase agreements.
- The WAM for the Prime CNAV Master Fund in which **UBS Prime Reserves Fund** invests was 26 days when the reporting period began. We tactically adjusted its WAM, and at the end of the reporting period the Master Fund's WAM was 17 days. Over the review period, we increased the Master Fund's allocations to repurchase agreements and commercial paper. Conversely, we reduced its allocations to direct US government and agency obligations, certificates of deposit and time deposits.
- The WAM for the Master Fund in which **UBS Tax-Free Reserves Fund** invests was six days when the reporting period began. We tactically adjusted the Master Fund's WAM based on market conditions and seasonality factors within the tax-exempt market. At the end of the reporting period its WAM again was six days. Over the review period, we modestly increased the Master Fund's allocation to municipal bonds and notes and slightly reduced its exposure to tax-exempt commercial paper.

Q. What factors do you believe will affect the Funds over the coming months?

A. We believe the US economy will continue to expand, albeit at a relatively modest pace. In our view, inflation may tick higher, but generally be well behaved. Against this backdrop, we believe the Fed will take a measured

UBS Institutional/Reserves Funds

approach in terms of raising interest rates and reducing its balance sheet. We anticipate continuing to manage the Funds focusing on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the UBS family of funds,* please contact your financial advisor, or visit us at www.ubs.com/am-us.

Sincerely,

This letter is intended to assist shareholders in understanding how the Funds performed during the 12 month period ended April 30, 2018. The views and opinions in the letter were current as of June 15, 2018. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

* Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. Prospectuses for most of our funds can be obtained from your financial advisor, by calling UBS Funds at 800-647 1568 or by visiting our Web site at www.ubs.com/am-us.

UBS Institutional/Reserves Funds

Understanding your Fund's expenses¹ (unaudited)

As a shareholder of a Fund, you incur ongoing costs, including management fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Since each Fund is a "feeder fund" that invests in a corresponding "master fund," the expense information below reflects the combined effect of the two levels of expenses and not just those imposed directly at the feeder fund level.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2017 to April 30, 2018.

Actual expenses

The first line in the table below for each Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Fund provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

UBS Institutional/Reserves Funds

Understanding your Fund's expenses¹ (unaudited) (concluded)

	Beginning account value November 1, 2017	Ending account value ² April 30, 2018	Expenses paid during period ³ 11/01/17 to 04/30/18	Expense ratio during the period
UBS Select Prime Institutional Fund				
Actual	\$1,000.00	\$1,007.50	\$0.65	0.13%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.15	0.65	0.13
UBS Select Government Institutional Fund				
Actual	\$1,000.00	\$1,006.00	\$0.90	0.18%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.90	0.90	0.18
UBS Select Treasury Institutional Fund				
Actual	\$1,000.00	\$1,006.00	\$0.90	0.18%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.90	0.90	0.18
UBS Prime Reserves Fund

Hypothetical (5% annual return before expenses)	1,000.00	1,023.90	0.90	0.18
UBS Tax-Free Reserves Fund				
Actual	\$1,000.00	\$1,005.10	\$0.89	0.18%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.90	0.90	0.18

¹ The expenses for the Funds reflect the expenses of the corresponding master funds in which they invest in addition to their own direct expenses.

² "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

³ Expenses are equal to the Fund's annualized net expense ratios, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

UBS Institutional/Reserves Funds

Notes to financial statements

Organization and significant accounting policies

UBS Select Prime Institutional Fund (“Prime Institutional Fund”), UBS Select Government Institutional Fund (“Government Institutional Fund”), UBS Select Treasury Institutional Fund (“Treasury Institutional Fund”), UBS Prime Reserves Fund (“Prime Reserves Fund”), and UBS Tax-Free Reserves Fund (“Tax-Free Reserves Fund”) (formerly UBS Select Tax-Free Institutional Fund) (each a “Fund”, collectively, the “Funds”) are each registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of UBS Series Funds (the “Trust”) (formerly UBS Money Series), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with twenty-one series. The financial statements for the other series of the Trust are not included herein.

Prime Institutional Fund, Government Institutional Fund, Treasury Institutional Fund, Prime Reserves Fund, and Tax-Free Reserves Fund are “feeder funds” that invest substantially all of their assets in “master funds”—Prime Master Fund, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund, respectively (each a “Master Fund”, collectively, the “Master Funds” and each a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder funds and their respective Master Funds have the same investment objectives.

Prior to August 28, 2007, Prime Institutional Fund and Treasury Institutional Fund invested in securities directly. Effective August 28, 2007, Prime Institutional Fund and Treasury Institutional Fund invest substantially all of their assets in Prime Master Fund and Treasury Master Fund, respectively. Tax-Free Reserves Fund commenced operations on August 28, 2007. Prime Reserves fund commenced operations on January 19, 2016 and Government Institutional Fund commenced operations on July 26, 2016.

UBS Asset Management (Americas) Inc. (“UBS AM”) is the investment advisor and administrator for the Master Funds and the administrator for the feeder funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of each Fund is directly affected by the performance of the corresponding Master Fund. The value of such investment reflects each Fund’s proportionate interest in the net assets of its corresponding Master Fund (67.32% for Prime Institutional Fund, 8.99% for Government Institutional Fund, 24.06% for Treasury Institutional Fund, 67.38% for Prime Reserves Fund, and 58.25% for Tax-Free Reserves Fund at April 30, 2018.)

All of the net investment income and realized and unrealized gains and losses from investment activities of each Master Fund are allocated pro rata, based on respective ownership interests, among the corresponding Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Funds, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Funds’ financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Funds’ financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

UBS Institutional/Reserves Funds

Notes to financial statements

In October 2016, the SEC adopted new rules and forms, and amendments to certain current rules and forms, to modernize reporting and disclosure of information by registered investment companies. The amendments to Regulation S-X require standardized, enhanced disclosure about derivatives in investment company financial statements, and change the rules governing the form and content of such financial statements. The amendments to Regulation S-X took effect on August 1, 2017. Management has assessed the impact of these regulatory developments, and the changes are incorporated within the financial statements.

The following is a summary of significant accounting policies:

Valuation of investments—Each Fund records its investment in its corresponding Master Fund at fair value. Securities held by the Master Funds are valued as indicated in the Master Funds' Notes to financial statements, which are included elsewhere in this report.

Floating net asset value per share fund—Until October 11, 2016, Prime Institutional Fund sought to maintain a stable price of \$1.00 per share. Effective October 11, 2016, consistent with Rule 2a-7 under the 1940 Act, as amended ("Rule 2a-7"), Prime Institutional Fund calculates its net asset value to four decimals (e.g., \$1.0000) using market-based pricing and expects that its share price will fluctuate.

On occasion, it is possible that the end of day accounting net asset value ("NAV") per share of a floating NAV fund, such as Prime Institutional Fund, as reported in a shareholder report, for example, may differ from the transactional NAV per share (used for purposes of processing purchases and redemptions); while this is not expected to occur with great frequency, it may happen should certain factors align on a given business day. The final end-of-day NAV per share for accounting and financial statement reporting purposes is designed to reflect all end-of-day accounting activities, which may include, but are not limited to, income and expense accruals, dividend and distribution reinvestments as well as final share activity; such items are factored into the Fund after the last transactional NAV per share is calculated on a given day (normally, the last transactional NAV per share is calculated as of 3 pm, Eastern time, as explained in the Fund's prospectus).

Constant net asset value per share funds—Government Institutional Fund, Treasury Institutional Fund, Prime Reserves Fund, and Tax-Free Reserves Fund (collectively the "Constant NAV Funds") attempt to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Constant NAV Funds will be able to maintain a stable net asset value of \$1.00 per share. The Constant NAV Funds have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable each to do so. Government Institutional Fund and Treasury Institutional Fund have adopted a policy to operate as "government money market funds". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As "government money market funds", Government Institutional Fund and Treasury Institutional Fund are permitted to seek to maintain a stable price per share. Effective October 14, 2016, Prime Reserves Fund and Tax-Free Reserves Fund became "retail money market funds". Under Rule 2a-7, a "retail money market fund" is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As "retail money market funds", Prime Reserves Fund and Tax-Free Reserves Fund are permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates—Effective October 14, 2016, consistent with Rule 2a-7, Prime Institutional Fund, Prime Reserves Fund and Tax-Free Reserves Fund may be subject to the possible imposition of a liquidity fee and/or temporary redemption gate. Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund may impose a fee upon the sale of your shares of each related feeder fund or may temporarily suspend your ability to sell shares of each related feeder fund if Prime Master Fund's liquidity, Prime CNAV Master Fund's liquidity and/or Tax-Free Master Fund's liquidity, respectively, falls below required minimums because of market conditions or other factors. For the year ended April 30, 2018, Prime Institutional Fund, Prime Reserves Fund and Tax-Free Reserves Fund were not subject to any liquidity fees and/or redemption gates.

UBS Institutional/Reserves Funds

Notes to financial statements

By operating as “government money market funds”, Government Institutional Fund and Treasury Institutional Fund are exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Funds’ Board of Trustees (the “Board”) may elect to subject Government Institutional Fund and Treasury Institutional Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions is determined in accordance with federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as administrator to each Fund pursuant to an Administration Agreement approved by the Trust’s board. In accordance with the Administration Agreement, each Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate as a percentage of each Fund’s average daily net assets:

Fund	Administration fee
Prime Institutional Fund	0.08%
Government Institutional Fund	0.08
Treasury Institutional Fund	0.08
Prime Reserves Fund	0.08
Tax-Free Reserves Fund	0.08

At April 30, 2018, each Fund owed UBS AM for administrative services as follows:

Fund	Amounts owed to UBS AM
Prime Institutional Fund	\$351,357
Government Institutional Fund	94,144
Treasury Institutional Fund	296,888
Prime Reserves Fund	105,717
Tax-Free Reserves Fund	123,824

In exchange for these fees, UBS AM has agreed to bear all of the Funds’ expenses other than interest, taxes, extraordinary costs and the cost of securities purchased and sold by the Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Funds’ independent trustees, it is contractually obligated to reduce its fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of each Fund’s average daily net assets. At April 30, 2018, UBS AM did not owe the Funds any additional reductions in administration fees for independent trustees’ fees and expenses.

Effective November 1, 2016 through April 30, 2018, with respect to Prime Institutional Fund only, UBS AM had agreed to voluntarily waive 0.04% of its administrative fees. At April 30, 2018, UBS AM owed Prime Institutional Fund and for the year ended April 30, 2018, UBS AM voluntarily waived the below amounts, which are not subject to future recoupment:

Fund	Amount owed by UBS AM	Amount waived by UBS AM
Prime Institutional Fund	\$175,678	\$1,682,310

UBS Institutional/Reserves Funds

Notes to financial statements

In addition, UBS AM may voluntarily undertake to waive fees and/or reimburse expenses in the event that Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2018, and for the year ended April 30, 2018, UBS AM did not owe and/or waive fees/ reimburse expenses under this additional undertaking.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, for which the NAV per share was at \$1.00 per share until and including October 10, 2016 and for which the NAV per share has fluctuated since October 11, 2016, were as follows:

Prime Institutional Fund

	2018		For the year ended April 30, 2017	
	Shares	Amount	Shares	Amount

¹ Commencement of operations.

Federal tax status

Each Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of their net investment income, net realized capital gains and certain other amounts, if any, each Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Funds during the fiscal years ended April 30, 2018 and April 30, 2017 were as follows:

Fund	2018				2017			
	Tax-exempt income	Ordinary income	Long term realized capital gains	Return of capital	Tax-exempt income	Ordinary income	Long term realized capital gains	Return of capital
Prime Institutional Fund	\$ —	\$57,732,794	\$—	\$—	\$ —	\$15,235,137	\$ —	\$—
Government Institutional Fund	—	13,879,088	—	—	—	2,655,945	—	—
Treasury Institutional Fund	—	50,869,261	—	—	—	13,031,439	226	—
Prime Reserves Fund	—	14,612,420	—	—	—	3,270,515	—	—
Tax-Free Reserves Fund	13,446,324	—	—	—	4,004,646	7,747	2,557	—

At April 30, 2018, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed tax exempt income	Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Total
Prime Institutional Fund	\$ —	\$7,787,396	\$ —	\$—	\$150,906	\$7,938,302
Government Institutional Fund	—	1,781,748	—	—	—	1,781,748
Treasury Institutional Fund	—	5,481,048	10,474	—	—	5,491,522
Prime Reserves Fund	—	2,277,289	—	—	—	2,277,289
Tax-Free Reserves Fund	2,243,060	—	—	—	—	2,243,060

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized by the Funds after December 22, 2010, may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. The Act requires that post-enactment net capital losses be used before pre-enactment net capital losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2018, Government Institutional Fund had post-enactment short-term capital loss carryforwards of \$(9,403).

UBS Institutional/Reserves Funds

Notes to financial statements

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded as of April 30, 2018, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2018, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2018, and since inception for the Government Institutional Fund and Prime Reserves Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

UBS Institutional/Reserves Funds

Report of Independent Registered Public Accounting Firm

To the Shareholders of UBS Select Prime Institutional Fund, UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund and UBS Tax-Free Reserves Fund and the Board of Trustees of UBS Series Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of UBS Select Prime Institutional Fund, UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund and UBS Tax-Free Reserves Fund (collectively referred to as the "Funds"), (five of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2018, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (five of the funds constituting UBS Series Funds) at April 30, 2018, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting the UBS Series Funds	Statement of operations	Statements of changes in net assets	Financial highlights
UBS Select Prime Institutional Fund	For the year ended April 30, 2018	For each of the two years in the period ended April 30, 2018	For each of the five years in the period ended April 30, 2018
UBS Select Treasury Institutional Fund			
UBS Tax-Free Reserves Fund			
UBS Select Government Institutional Fund	For the year ended April 30, 2018	For the year ended April 30, 2018 and the period from July 26, 2016 (commencement of operations) through April 30, 2017	
UBS Prime Reserves Fund	For the year ended April 30, 2018	For each of the two years in the period ended April 30, 2018	For each of the two years in the period ended April 30, 2018 and the period from January 19, 2016 (commencement of operations) through April 30, 2016

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

UBS Institutional/Reserves Funds

Report of Independent Registered Public Accounting Firm

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

UBS Institutional/Reserves Funds

General information (unaudited)

Monthly and quarterly portfolio holdings disclosure

The Funds and Master Funds will file their complete schedules of portfolio holdings with the US Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. The Funds’ and Master Funds’ Forms N-Q are available on the SEC’s Web site at <http://www.sec.gov>. The Funds’ and Master Funds’ Forms N-Q may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the SEC’s Public Reference Room may be obtained by calling 1-800-SEC 0330. Additionally, you may obtain copies of Forms N-Q from the Funds and Master Funds upon request by calling 1-800-647 1568.

In addition, each Fund discloses, on a monthly basis: (a) a complete schedule of the related Master Fund’s portfolio holdings; and (b) information regarding each Master Fund’s weighted average maturity and weighted average life on UBS’s Web site at the following internet address: www.ubs.com/usmoneymarketfunds. In addition, at this location, you will find a link to more detailed Fund information appearing in filings with the SEC on Form N-MFP. A more limited portfolio holdings report for Master Trust—Prime Master Fund (the master fund in which UBS Select Prime Institutional Fund invests) and for Master Trust—Prime CNAV Master Fund (the master fund in which UBS Prime Reserves Fund invests) is available on a weekly basis at the same UBS Web address. Investors also may find additional information about the Funds at the above referenced UBS Website internet address.

Proxy voting policies, procedures and record

You may obtain a description of each Fund’s (and corresponding Master Fund’s) (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting a fund directly at 1-800-647 1568, online on UBS’s Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC’s Web site <http://www.sec.gov>.

Other tax information

Pursuant to Section 871(k)(1)(C)(i) and 871(k)(2)(C)(i) of the Internal Revenue Code, the Funds designate the following ordinary income distributions paid as qualified interest income and qualified short term capital gains:

Fund	Qualified Interest Income	Qualified Short Term Capital Gains
Prime Institutional Fund	\$56,621,178	\$13,441
Government Institutional Fund	13,861,321	17,767
Treasury Institutional Fund	50,831,918	37,343
Prime Reserves Fund	14,611,397	1,023

Master Trust

Annual Report | April 30, 2018

Includes:

- Prime Master Fund
- Government Master Fund
- Treasury Master Fund
- Prime CNAV Master Fund
- Tax-Free Master Fund

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Funds. Investors in the related "feeder funds" should instead focus on separate expense examples relevant to the particular feeder funds; the expense examples for the feeder funds will reflect their proportionate share of the corresponding Master Funds' expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. These examples are intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2017 to April 30, 2018.

Actual expenses

The first line in the table below for each Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

Master Trust

Understanding a Master Fund's expenses (unaudited) (concluded)

	Beginning account value November 1, 2017	Ending account value April 30, 2018	Expenses paid during period ¹ 11/01/17 to 04/30/18	Expense ratio during the period
Prime Master Fund				
Actual	\$1,000.00	\$1,007.70	\$0.45	0.09%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.35	0.45	0.09
Government Master Fund				
Actual	\$1,000.00	\$1,006.40	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Treasury Master Fund				
Actual	\$1,000.00	\$1,006.40	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Prime CNAV Master Fund				
Actual	\$1,000.00	\$1,007.50	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Tax-Free Master Fund				
Actual	\$1,000.00	\$1,005.50	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

² Weightings represent percentages of the Master Fund's net assets as of the date indicated. The Master Fund's portfolio is actively managed, and its composition will vary over time.

You could lose money by investing in a money market fund. Because the price of interests in Prime Master Fund will fluctuate, when you sell your shares of each related feeder fund, your shares of the related feeder fund may be worth more or less than what you originally paid for them. Prime Master Fund may impose a fee upon sale of your shares of each related feeder fund or may temporarily suspend your ability to sell shares of each related feeder fund if Prime Master Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

Not FDIC insured. May lose value. No bank guarantee.

Net assets—100.00%		\$7,775,650,877

For a listing of defined portfolio acronyms that are used throughout the Portfolio of investments, please refer to page 59.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Time deposits	\$—	\$ 933,000,000	\$—	\$ 933,000,000
Certificates of deposit	—	1,774,636,455	—	1,774,636,455
Commercial paper	—	4,288,192,364	—	4,288,192,364
Short-term corporate obligations	—	14,990,253	—	14,990,253
Repurchase agreements	—	760,000,000	—	760,000,000
Total	\$—	\$7,770,819,072	\$—	\$7,770,819,072

At April 30, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

- Variable or floating rate security. The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects earlier of reset date or stated maturity date.
- Rate shown is the discount rate at the date of purchase unless otherwise noted.
- Illiquid investment at the period end. Illiquid assets, in the amount of \$272,009,646, represented 3.50% of net assets at the end of the period.
- Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate (the United States overnight bank funding rate + 0.57%). The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects early put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2018.

See accompanying notes to financial statements.

Government Master Fund

Portfolio of investments—April 30, 2018

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
US government and agency obligations	\$—	\$ 11,433,469,154	\$—	\$ 11,433,469,154
Repurchase agreements	—	4,233,000,000	—	4,233,000,000
Total	\$—	\$15,666,469,154	\$—	\$15,666,469,154

At April 30, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

¹ Rate shown is the discount rate at the date of purchase unless otherwise noted.

² Variable or floating rate security. The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects earlier of reset date or stated maturity date.

³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate (the Federal Reserve Overnight Reverse Repo Facility Rate + 0.07%). The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The investment pays interest monthly. The maturity date reflects early put date and the proceeds represent the face amount of the repurchase agreement plus accrued interest from the date of the last interest payment to the maturity date shown.

⁴ Illiquid investment at the period end. Illiquid assets, in the amount of \$500,000,000, represented 3.19% of net assets at the end of the period.

Prime CNAV Master Fund

Portfolio of investments—April 30, 2018

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
US government and agency obligations	\$—	\$ 4,599,954	\$—	\$ 4,599,954
Time deposits	—	295,000,000	—	295,000,000
Certificates of deposit	—	378,000,000	—	378,000,000
Commercial paper	—	1,229,702,498	—	1,229,702,498
Repurchase agreements	—	460,600,000	—	460,600,000
Total	\$—	\$2,367,902,452	\$—	\$2,367,902,452

At April 30, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

- ¹ Variable or floating rate security. The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects earlier of reset date or stated maturity date.
- ² Rate shown is the discount rate at the date of purchase unless otherwise noted.
- ³ Illiquid investment at the period end. Illiquid assets, in the amount of \$43,000,000, represented 1.81% of net assets at the end of the period.
- ⁴ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate (the United States overnight bank funding rate + 0.57%). The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects early put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2018.

Tax-Free Master Fund

Portfolio of investments—April 30, 2018

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Municipal bonds and notes	\$—	\$ 3,153,001,901	\$—	\$ 3,153,001,901
Tax-exempt commercial paper	—	168,327,000	—	168,327,000
Total	\$—	\$3,321,328,901	\$—	\$3,321,328,901

At April 30, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnote

¹ Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At April 30, 2018, the value of these securities amounted to \$34,900,000, representing 1.05% of net assets.

Portfolio acronyms

AGM	Assured Guaranty Municipal Corporation
FHLMC	Federal Home Loan Mortgage Corporation
FNMA	Federal National Mortgage Association
GNMA	Government National Mortgage Association
LIBOR	London Interbank Offered Rate
STRIP	Separated Trading of Registered Interest and Principal of Securities
VRD	Variable rate demand notes are payable on demand. The interest rates shown are the current rates as of April 30, 2018 and reset periodically.

Master Trust

Notes to financial statements

Organization and significant accounting policies

Prime Master Fund, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund (each a “Master Fund”, collectively, the “Master Funds”) are each registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007.

Prime Master Fund, Treasury Master Fund, and Tax-Free Master Fund commenced operations on August 28, 2007. Prime CNAV Master Fund commenced operations on January 19, 2016 and Government Master Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) Inc. (“UBS AM”) is the investment advisor and administrator for the Master Funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Master Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Funds that have not yet occurred. However, the Master Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Funds’ financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In October 2016, the SEC adopted new rules and forms, and amendments to certain current rules and forms, to modernize reporting and disclosure of information by registered investment companies. The amendments to Regulation S-X require standardized, enhanced disclosure about derivatives in investment company financial statements, and change the rules governing the form and content of such financial statements. The amendments to Regulation S-X took effect on August 1, 2017. Management has assessed the impact of these regulatory developments, and the changes are incorporated within the financial statements.

The following is a summary of significant accounting policies:

Valuation of investments

Until October 11, 2016, Prime Master Fund valued its investments at amortized cost. Effective October 11, 2016, consistent with Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), the net asset value of Prime Master Fund is calculated using market-based values, and the price of its beneficial interests fluctuate.

Under Rule 2a-7, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund have adopted certain policies that enable them to use the amortized cost method of valuation. Government Master Fund and Treasury Master Fund have adopted a policy to operate as “government money market funds”.

Master Trust

Notes to financial statements

Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (*i.e.*, collateralized by cash and/or government securities). Effective October 14, 2016, Prime CNAV Master Fund and Tax-Free Master Fund became “retail money market funds”. Under Rule 2a-7, a “retail money market fund” is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As “government money market funds” and as “retail money market funds”, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund value their investments at amortized cost unless the Master Trust’s Board of Trustees (the “Board”) determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has delegated to the Equities, Fixed Income, and Multi-Asset Valuation Committee (“VC”) the responsibility for making fair value determinations with respect to the Master Funds’ portfolio investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Master Fund’s portfolio investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment’s fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

Each Master Fund’s portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund’s beneficial interests are priced. Pursuant to each Master Fund’s use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company’s prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of each of the Master Fund’s investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of each Master Fund’s own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of each Master Fund’s Portfolio of investments.

Liquidity fee and/or redemption gates—Consistent with Rule 2a-7, the Board is permitted to impose a liquidity fee on redemptions from each of Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund or a redemption gate to temporarily restrict redemptions from those Master Funds in the event that any of Prime Master Fund’s liquidity, Prime CNAV Master Fund’s liquidity and/or Tax-Free Master Fund’s liquidity, respectively, falls below required minimums because of market conditions or other factors. If Prime Master Fund’s, Prime CNAV Master Fund’s or Tax-Free Master Fund’s weekly liquid assets fall below 30% of the Fund’s total assets, the board is

Master Trust

Notes to financial statements

permitted, but not required, to: (i) impose a liquidity fee of no more than 2% of the amount redeemed; and/or (ii) impose a redemption gate to temporarily suspend the right of redemption. If any of Prime Master Fund's, Prime CNAV Master Fund's or Tax-Free Master Fund's weekly liquid assets falls below 10% of the Fund's total assets, the relevant Fund must impose, generally as of the beginning of the next business day, a liquidity fee of 1% of the amount redeemed unless the Board determines that such a fee would not be in the best interest of the Fund or determines that a lower or higher fee (subject to the 2% limit) would be in the best interest of the Fund. Liquidity fees would reduce the amount an interestholder receives upon redemption of its beneficial interests. Each of Prime Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund retains the liquidity fees for the benefit of remaining interest holders. For the year ended April 30, 2018, the Board of Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund did not impose any liquidity fees and/or redemption gates.

By operating as "government money market funds", Government Master Fund and Treasury Master Fund are exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject Government Master Fund and Treasury Master Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Master Funds may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Master Funds maintain custody of the underlying obligations prior to their repurchase, either through their regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Master Funds and their counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Funds generally have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Master Funds may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. Each Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Master Funds may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Prime Master Fund, Government Master Fund, Treasury Master Fund, and Prime CNAV Master Fund may engage in repurchase agreements as part of normal investing strategies; Tax-Free Master Fund generally would only engage in repurchase agreement transactions as temporary or defensive investments.

Under certain circumstances, a Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Master Trust

Notes to financial statements

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to each Master Fund pursuant to an investment advisory and administration contract (“Management Contract”) approved by the Board. In accordance with the Management Contract, each Master Fund pays UBS AM an investment advisory and administration fee (“management fee”), which is accrued daily and paid monthly, at the below annual rates, as a percentage of each Master Fund’s average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

At April 30, 2018, each Master Fund owed UBS AM for investment advisory and administration services as follows:

Fund	Amounts owed to UBS AM
Prime Master Fund	\$ 629,736
Government Master Fund	1,313,021
Treasury Master Fund	1,556,923
Prime CNAV Master Fund	193,506
Tax-Free Master Fund	269,739

In exchange for these fees, UBS AM has agreed to bear all of the Master Funds’ expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Funds’ independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of each Master Fund’s average daily net assets. At April 30, 2018, UBS AM did not owe the Master Funds any additional reductions in management fees for independent trustees’ fees and expenses.

Effective February 1, 2017 through October 31, 2017, with respect to Prime Master Fund only, UBS AM agreed to voluntarily waive 0.04% of its management fee. Effective November 1, 2017 through December 31, 2017, with respect to Prime Master Fund only, UBS AM agreed to voluntarily waive 0.02% of its management fee. Effective January 1, 2018 through January 31, 2018, with respect to Prime Master Fund only, UBS AM agreed to voluntarily waive 0.01% of its management fee. At April 30, 2018, UBS AM owed Prime Master Fund, and for the year ended April 30, 2018, UBS AM voluntarily waived, the below amounts; amounts waived are not subject to future recoupment:

Fund	Amount owed by UBS AM	Amount waived by UBS AM
Prime Master Fund	\$—	\$1,264,504

Master Trust

Notes to financial statements

In addition, UBS AM may voluntarily undertake to waive fees in the event that Master Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2018, and during the year ended April 30, 2018, UBS AM did not owe and/or waive fees under such an additional fee waiver undertaking. Such waived fees are not subject to future recoupment.

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Master Funds may conduct transactions, resulting in him being considered an interested trustee of the Master Funds. The Master Funds have been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. Portfolio transactions are executed through Morgan Stanley based on that firm's ability to provide best execution of the transactions.

During the year ended April 30, 2018, the Master Funds purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley, having aggregate values as follows:

Prime Master Fund	\$ —
Government Master Fund	168,194,571
Treasury Master Fund	—
Prime CNAV Master Fund	—
Tax-Free Master Fund	712,146,000

Morgan Stanley received compensation in connection with these trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this compensation is not generally known by the Master Funds' investment manager, it is believed that under normal circumstances it represents a small portion of the total value of the transactions.

¹ Commencement of operations.

Federal tax status

Each Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in a Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that each Master Fund's assets, income and distributions will be managed in such a way that an investor in a Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

Aggregate cost for federal income tax purposes was substantially the same for book purposes; and net unrealized appreciation consisted of:

Prime Master Fund

Gross unrealized appreciation	\$ 745,460
Gross unrealized depreciation	(485,380)
Net unrealized appreciation	\$ 260,080

Master Trust

Notes to financial statements

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded, as of April 30, 2018, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2018, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2018, and since inception for the Government Master Fund and the Prime CNAV Master Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Master Trust

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of Master Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Master Trust (the "Trust"), (comprising Prime Master Fund, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund (collectively referred to as the "Funds")), including the portfolios of investments, as of April 30, 2018, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Master Trust at April 30, 2018, the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Funds comprising the Master Trust	Statement of operations	Statement of changes in net assets	Financial highlights
Prime Master Fund Treasury Master Fund Tax-Free Master Fund	For the year ended April 30, 2018	For each of the two years in the period ended April 30, 2018	For each of the five years in the period ended April 30, 2018
Government Master Fund	For the year ended April 30, 2018	For the year ended April 30, 2018 and the period from June 24, 2016 (commencement of operations) through April 30, 2017	
Prime CNAV Master Fund	For the year ended April 30, 2018	For each of the two years in the period ended April 30, 2018	For each of the two years in the period ended April 30, 2018 and the period from January 19, 2016 (commencement of operations) through April 30, 2016

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2018, by correspondence with the custodian and

Master Trust

Report of Independent Registered Public Accounting Firm

brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

Master Trust

General information (unaudited)

Monthly and quarterly portfolio holdings disclosure

The Master Funds will file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Master Funds' Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Master Funds' Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC 0330. Additionally, you may obtain copies of Forms N-Q from the Master Funds upon request by calling 1-800-647 1568.

In addition, the Master Funds disclose, on a monthly basis: (a) a complete schedule of their portfolio holdings; and (b) information regarding their weighted average maturity and weighted average life on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. In addition, at this location, you will find a link to more detailed Fund information appearing in filings with the SEC on Form N-MFP. A more limited portfolio holdings report for Prime Master Fund and Prime CNAV Master Fund is available on a weekly basis at the same Web address.

Proxy voting policies, procedures and record

You may obtain a description of each Master Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a Master Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting a Master Fund directly at 1-800-647- 1568, online on UBS's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

UBS Institutional/Reserves Funds

Supplemental information (unaudited)

Board of Trustees & Officers

The Funds are governed by a Board of Trustees which oversees each Fund's operations. Each trustee serves an indefinite term of office. Officers are appointed by the trustees and serve at the pleasure of the Board. The table below shows, for each trustee and officer, his or her name, address and age, the position held with the Trust, the length of time served as a trustee or officer of the Trust, the trustee's or officer's principal occupations during the last five years, the number of funds in the UBS fund complex overseen by the trustee or for which a person served as an officer, and other directorships held by the trustee.

The Funds' Statement of Additional Information contains additional information about the trustees and is available, without charge, upon request by calling 1-800-647 1568.

Interested Trustee
