

UBS Prime Reserves Fund

August 31, 2024 | UBS Money Market Fund

UBS Prime Reserves Fund (the "Fund")

Professionally managed money market fund for high-net-worth individuals seeking:

- Maximum current income
- Liquidity
- Preservation of capital

ESG Integration

The Fund is classified by UBS AM as an "ESG-integrated" fund. The Fund's process integrates material sustainability and/or environmental, social and governance ("ESG") considerations into the research process for all portfolio investments and portfolio holdings, except repurchase agreements with certain counterparties. ESG integration is driven by taking into account material sustainability and/or ESG risks which could impact investment returns, rather than being driven by specific ethical principles or norms. The analysis of material sustainability and/or ESG considerations can include many different aspects, including, for example, the carbon footprint, employee health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Fund's portfolio managers may still invest in securities without respect to sustainability and/or ESG considerations or in securities which present sustainability and/or ESG risks, including where the portfolio managers believe the potential compensation outweighs the risks identified.

In addition to the Fund's investment policies and restrictions, UBS AM may adopt certain additional internal investment criteria which may further restrict fund investments, such as internal UBS AM policies limiting or prohibiting investments in businesses that engage in certain types of weapons manufacturing, natural resource activities or are identified as failing to meet certain criteria put forth by the United Nations or other global organizations (including "sanctions" lists).

Experienced management team

A team of money market specialists under the direction of Robert Sabatino, Managing Director, is responsible for the day-to-day investment management. UBS Asset Management's experienced and knowledgeable portfolio managers select and evaluate investments to develop a diversified portfolio that seeks to achieve the Fund's objective.

Investment approach

While seeking to maximize current income, our investment management team emphasizes credit quality, liquidity and appropriate diversification. The Fund is a "feeder fund" that invests in securities through an underlying "master fund." The master fund invests in a diversified portfolio of high-quality, short-term, US dollar-denominated money market instruments. Our credit and portfolio management teams continually monitor individual issuers in an attempt to assure maintenance of credit quality, and partner closely with the global Sustainable and Impact Investing Research team to maintain ESG integration in the research process.

Prior to October 2, 2023, the Fund may be subject to the possible imposition of a liquidity fee and/or temporary redemption gate should certain triggering events occur. Effective October 2, 2023, the Fund may no longer impose a redemption gate (except under extraordinary circumstances as part of a liquidation), and the Fund may be subject to a liquidity fee if the Fund's board believes such fee is in the best interests of the Fund.

1. The minimum investment level for initial purchases generally is \$1,000,000. Initial purchases made through UBS Financial Services Inc. brokerage accounts, subsequent purchases, and purchases through exchanges are not subject to a minimum investment level. UBS Financial Services Inc. fee-based advisory programs are not eligible to make investments in the fund (with an exception for the normal month-end automatic reinvestment of dividends by existing shareholders).

2. The master fund is actively managed and its composition will differ over time. Portfolio composition may exceed 100% due to rounding.

3. Data is for related master portfolio.

4. Unsubsidized yield refers to the yield before waivers/reimbursements.
