Experienced management team

A team of money market specialists under the direction of Robert Sabatino is responsible for the day-to-day investment management. UBS Asset Management's experienced and knowledgeable portfolio managers select and evaluate investments to develop a diversified portfolio to achieve the Fund's objective.

Investment approach

While seeking to maximize current income, our investment management team emphasizes credit quality, liquidity and appropriate diversification. The Fund is a "feeder fund" that invests in securities through an underlying "master fund." The master fund invests in a diversified portfolio of high-quality, short-term, US dollar-denominated money market instruments. Our credit and portfolio management teams continually monitor individual issuers in an attempt to assure maintenance of credit quality.

Minimum initial investment

\$10,000 on initial purchase. (Please see the Fund's prospectus for more information about the minimum.)

UBS Asset Management (Americas) Inc. short-term cash assets under management

¹ The fund and UBS Asset Management (Americas) Inc. ("UBS AM") have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its management fees and/or reimburse the fund so that the total operating expenses of the fund through August 31, 2019 would not exceed 0.50%. The fund has agreed to repay UBS AM for any waived fees/reimbursed expenses to the extent that it can do so over the following three years without causing the fund's expenses in any of those three years to exceed this expense cap. In addition, in connection with voluntary agreements with the financial intermediaries that are selling fund shares, the fund's principal underwriter has agreed to voluntarily waive fees or reimburse fund expenses so that total fund expenses do not exceed 0.45%. UBS AM may voluntarily undertake to waive additional fees and/or reimburse expenses in the event that fund yields drop below a certain level. Once started, there is no guarantee that voluntary waivers/reimbursements would continue. Waivers/reimbursements impact the fund's performance.

² The master fund is actively managed and its composition will differ over time. Portfolio composition may exceed 100% due to rounding.

³ Data are for the related master portfolio.

⁴ Unsubsidized yield refers to the yield before waivers/reimbursements.
