

UBS Select Capital Funds

Annual Report | April 30, 2018

Includes:

- UBS Select Government Capital Fund
- UBS Select Treasury Capital Fund

UBS Select Capital Funds

June 15, 2018

Dear Shareholder,

We present you with the annual report for the UBS Select Capital Series of Funds, namely the UBS Select Government Capital Fund and UBS Select Treasury Capital Fund (the “Funds”) for the 12 months ended April 30, 2018 (the “reporting period”).

Performance

The US Federal Reserve Board (the “Fed”) raised the federal funds rate three times during the 12 months ended April 30, 2018 and ended the reporting period with that rate in a range between 1.50% and 1.75%. The federal funds rate or the “fed funds rate,” is the rate US banks charge one another for funds they borrow on an overnight basis. (For more details on the Fed’s actions, see below.) The yields on a wide range of short-term investments moved higher over the period, but yields still remained low by historical comparison. As a result, the Funds’ yields remained relatively low during the reporting period.

The seven-day current yields for the Funds (after fee waivers/expense reimbursements) were as follows:

- **UBS Select Government Capital Fund:** 1.54% as of April 30, 2018, versus 0.60% as of April 30, 2017.
- **UBS Select Treasury Capital Fund:** 1.48% as of April 30, 2018, versus 0.60% as of April 30, 2017.

For detailed information on the Funds’ performance, refer to “Yields and characteristics at a glance” on page 5.

An interview with Portfolio Manager Robert Sabatino

Q. How would you describe the economic environment during the reporting period?

A. The US economy continued to expand during the reporting period. Looking back, the US Commerce Department reported that gross domestic product (“GDP”) grew at a 3.1% and 3.2% seasonally adjusted annualized rate during the second and third quarters of 2017, respectively. The latter reading represented the strongest pace since the first quarter of 2015. Fourth quarter 2017 GDP grew at a 2.9% rate. Finally, based on the US Commerce Department’s initial reading, first quarter 2018 GDP growth was 2.3%.

Q. How did the Fed react to the economic environment?

A. The Fed raised interest rates three times during the reporting period as it sought to gradually normalize monetary policy. After raising rates in June 2017, the Fed again raised rates in December 2017, bringing the federal funds rate to a range between 1.25% and 1.50%. In addition, starting in October 2017, the Fed began reducing its sizable balance sheet. Finally, in March 2018, the Fed raised rates to a range between 1.50% and 1.75%. This marked the Fed’s sixth rate hike since December 2015 and the first for new Fed Chairman Jerome Powell.

Q. Given that the Funds are “feeder funds,” how were the portfolios in which they invest managed during the reporting period?

- A. Each fund is a “feeder fund,” investing all of its assets in “Master Funds”—the Government Master Fund and the Treasury Master Fund, respectively. As always, quality and liquidity remained paramount in our management process for the Master Funds.
- The weighted average maturity (WAM)—which is the weighted average maturity of the securities in its portfolio—for the Master Fund in which **UBS Select Government Capital Fund** invests was 56 days when the

UBS Select Government Capital Fund

UBS Select Treasury Capital Fund

Investment goals (both Funds):

Maximum current income consistent with liquidity and the preservation of capital

Dividend payments:

Monthly

UBS Select Capital Funds

reporting period began. Over the review period, the WAM was adjusted, and at period-end on April 30, 2018, it was 24 days. At the security level, we increased the Master Fund's exposures to direct US government and agency obligations and reduced its exposure to repurchase agreements. (Repurchase agreements are transactions that require the seller of a security to buy it back at a predetermined time and price, or upon demand.)

- The WAM for the Master Fund in which **UBS Select Treasury Capital Fund** invests was 49 days when the reporting period began. Over the review period, the WAM was adjusted, and at period-end it was 25 days. At the security level, we increased the Master Fund's exposure to US government obligations and reduced its exposure to repurchase agreements.

Q. What factors do you believe will affect the Funds over the coming months?

A. We believe the US economy will continue to expand, albeit at a relatively modest pace. In our view, inflation may tick higher, but generally be well behaved. Against this backdrop, we believe the Fed will take a measured approach in terms of raising interest rates and reducing its balance sheet. We anticipate continuing to manage the Funds focusing on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the UBS family of funds,* please contact your financial advisor, or visit us at www.ubs.com/am-us.

Sincerely,

This letter is intended to assist shareholders in understanding how the Funds performed during the 12-month period ended April 30, 2018. The views and opinions in the letter were current as of June 15, 2018. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

* Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. Prospectuses for most of our funds can be obtained from your financial advisor, by calling UBS Funds at 800-647 1568 or by visiting our Web site at www.ubs.com/am-us.

UBS Select Capital Funds

Understanding your Fund's expenses¹ (unaudited)

As a shareholder of a Fund, you incur ongoing costs, including management fees, shareholder servicing fees and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Since each Fund is a "feeder fund" that invests in a corresponding "master fund," the expense information below reflects the combined effect of the two levels of expenses and not just those imposed directly at the feeder fund level.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2017 to April 30, 2018.

Actual expenses

The first line in the table below for each Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Fund provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

UBS Select Capital Funds

Understanding your Fund's expenses¹ (unaudited) (concluded)

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2017	Ending account value ² April 30, 2018	Expenses paid during period ³ 11/01/17 to 04/30/18	Expense ratio during the period
UBS Select Government Capital Fund				
Actual	\$1,000.00	\$1,005.90	\$0.99	0.20%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.80	1.00	0.20

	Beginning account value November 1, 2017	Ending account value ² April 30, 2018	Expenses paid during period ³ 11/01/17 to 04/30/18	Expense ratio during the period
UBS Select Treasury Capital Fund				
Actual	\$1,000.00	\$1,005.90	\$0.99	0.20%
Hypothetical (5% annual return before expenses)	1,000.00	1,023.80	1.00	0.20

¹ The expenses for the Funds reflect the expenses of the corresponding master funds in which they invest in addition to their own direct expenses.

² "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

³ Expenses are equal to the Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

UBS Select Capital Funds

Notes to financial statements

Organization and significant accounting policies

UBS Select Government Capital Fund (“Government Capital Fund”) and UBS Select Treasury Capital Fund (“Treasury Capital Fund”) (each a “Fund”, collectively, the “Funds”) are each registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of UBS Series Funds (the “Trust”) (formerly UBS Money Series), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with twenty-one series. The financial statements for the other series of the Trust are not included herein.

Government Capital Fund and Treasury Capital Fund are “feeder funds” that invest substantially all of their assets in “master funds”—Government Master Fund and Treasury Master Fund, respectively (each a “Master Fund”, collectively, the “Master Funds” and each a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder funds and their respective Master Funds have the same investment objectives.

Treasury Capital Fund commenced operations on July 16, 2012, and Government Capital Fund commenced operations on June 24, 2016.

UBS AM is the investment advisor and administrator for the Master Funds and the administrator for the feeder funds. UBS Asset Management (US) Inc. (“UBS AM—US”) serves as principal underwriter for the Funds. UBS AM and UBS AM—US are indirect wholly owned subsidiaries of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of each Fund is directly affected by the performance of the corresponding Master Fund. The value of such investment reflects each Fund’s proportionate interest in the net assets of its corresponding Master Fund (28.32% for Government Capital Fund and 5.69% for Treasury Capital Fund at April 30, 2018).

All of the net investment income and realized and unrealized gains and losses from investment activities of each Master Fund are allocated pro rata, based on respective ownership interests, among the corresponding Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Funds, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Funds’ financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Funds’ financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In October 2016, the SEC adopted new rules and forms, and amendments to certain current rules and forms, to modernize reporting and disclosure of information by registered investment companies. The amendments to Regulation S-X require standardized, enhanced disclosure about derivatives in investment company financial statements,

UBS Select Capital Funds

Notes to financial statements

and change the rules governing the form and content of such financial statements. The amendments to Regulation S-X took effect on August 1, 2017. Management has assessed the impact of these regulatory developments, and the changes are incorporated within the financial statements.

The following is a summary of significant accounting policies:

Valuation of investments—Each Fund records its investment in its corresponding Master Fund at fair value. Securities held by the Master Funds are valued as indicated in the Master Funds' Notes to financial statements, which are included elsewhere in this report.

Constant net asset value per share funds—Government Capital Fund and Treasury Capital Fund attempt to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Funds will be able to maintain a stable net asset value of \$1.00 per share. The Funds have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable each to do so. Government Capital Fund and Treasury Capital Fund have adopted a policy to operate as "government money market funds". Under Rule 2a-7 under the 1940 Act, as amended, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (*i.e.*, collateralized by cash and/or government securities). As "government money market funds", Government Capital Fund and Treasury Capital Fund are permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates—By operating as "government money market funds", Government Capital Fund and Treasury Capital Fund are exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject Government Capital Fund and Treasury Capital Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions is determined in accordance with federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as administrator to each Fund pursuant to an Administration Agreement approved by the Trust's board. In accordance with the Administration Agreement, each Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of each Fund's average daily net assets:

Fund	Administration fee
Government Capital Fund	0.10%
Treasury Capital Fund	0.10

At April 30, 2018, each Fund owed UBS AM for administrative services as follows:

Fund	Amounts owed UBS AM
Government Capital Fund	\$382,420
Treasury Capital Fund	95,156

UBS Select Capital Funds

Notes to financial statements

The Funds and UBS AM have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its administration fees and/or reimburse the Funds, and to cause its affiliate UBS AM—US to waive its shareholder servicing fee, so that each Fund's total annual operating expenses through August 31, 2018 (excluding interest expense, if any, and extraordinary items) would not exceed 0.20%. (Information regarding waiver of the shareholder servicing fees payable to UBS AM—US appears further below.) At April 30, 2018, UBS AM owed the Funds, and for the year ended April 30, 2018, UBS AM was contractually obligated to waive fees and/or reimburse certain operating expenses, as follows:

Fund	Amounts owed by UBS AM	Amounts waived by UBS AM
Government Capital Fund	\$30,711	\$568,413
Treasury Capital Fund	20,008	286,247

Each Fund has agreed to repay UBS AM for any such waived fees/reimbursed expenses to the extent that it can do so over the three years following such waived fees/reimbursed expenses without causing each Fund's expenses in any of those three years to exceed such expense cap. The fee waiver/expense reimbursement agreement may be terminated by the Funds' Board at any time and also will terminate automatically upon the expiration or termination of the Funds' contract with UBS AM. Upon termination of the agreement, however, UBS AM's three year recoupment rights will survive. At April 30, 2018, the following Funds had remaining fee waivers and/or expense reimbursements subject to repayment to UBS AM and respective dates of expiration as follows:

Fund	Fee waivers/ expense reimbursements subject to recoupment	Expires April 30, 2019	Expires April 30, 2020	Expires April 30, 2021
Government Capital Fund	\$11,349,751	\$ —	\$5,130,440	\$6,219,311
Treasury Capital Fund	6,674,456	2,242,185	2,450,134	1,982,137

UBS AM may voluntarily undertake to waive fees and/or reimburse expenses in the event that Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2018, and for the year ended April 30, 2018, UBS AM did not owe and/or waive fees/reimburse expenses under this additional undertaking.

Shareholder services plan

UBS AM—US is the principal underwriter and distributor of the Funds' shares. Under the shareholder services plans, UBS AM—US is entitled to a monthly shareholder servicing fee, payable by each Fund, at the below annual rate, as a percentage of each Fund's average daily net assets:

Fund	Shareholder servicing fee
Government Capital Fund	0.15%
Treasury Capital Fund	0.15

UBS AM—US has undertaken to waive all or a portion of its fees, in accordance with the contractual fee waiver arrangement that continues until August 31, 2018, as explained in the Administrator section above. To the extent that expenses are to be reimbursed, UBS AM will reimburse the Funds. For the year ended April 30, 2018, UBS AM—US waived its shareholder servicing fees, otherwise payable to it, as follows:

Fund	Amounts waived by UBS AM—US
Government Capital Fund	\$5,650,898
Treasury Capital Fund	1,695,890

UBS Select Capital Funds

Notes to financial statements

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

Government Capital Fund

	For the year ended April 30, 2018	For the period from June 24, 2016 ¹ to April 30, 2017
Shares sold	55,732,201,263	34,778,553,582
Shares repurchased	(54,706,197,091)	(31,408,776,166)
Dividends reinvested	30,457,663	7,567,856
Net increase in shares outstanding	1,056,461,835	3,377,345,272

¹ Commencement of operations.

Treasury Capital Fund

	For the years ended April 30,	
	2018	2017
Shares sold	12,236,984,584	12,604,955,739
Shares repurchased	(12,427,331,465)	(12,731,442,382)
Dividends reinvested	9,769,722	3,288,040
Net decrease in shares outstanding	(180,577,159)	(123,198,603)

Federal tax status

Each Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of their net investment income, net realized capital gains and certain other amounts, if any, each Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Funds during the fiscal years ended April 30, 2018 and April 30, 2017 were as follows:

Fund	2018				2017			
	Tax- exempt income	Ordinary income	Long term realized capital gains	Return of capital	Tax- exempt income	Ordinary income	Long term realized capital gains	Return of capital
Government Capital Fund	\$—	\$37,289,880	\$—	\$—	\$—	\$9,830,200	\$—	\$—
Treasury Capital Fund	—	11,061,823	—	—	—	3,906,924	83	—

At April 30, 2018, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed tax exempt income	Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Total
Government Capital Fund	\$—	\$5,668,524	\$ —	\$—	\$—	\$5,668,524
Treasury Capital Fund	—	1,399,008	1,847	—	—	1,400,855

UBS Select Capital Funds

Notes to financial statements

Under the Regulated Investment Company Modernization Act of 2010 (the "Act"), net capital losses recognized by the Funds after December 22, 2010, may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. The act requires that post-enactment net capital losses be used before pre-enactment net capital losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2018, Government Capital Fund had post-enactment short-term capital loss carryforwards of \$(26,117).

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded as of April 30, 2018, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2018, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2018, and since inception for the Government Capital Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

UBS Select Capital Funds

Report of Independent Registered Public Accounting Firm

To the Shareholders of UBS Select Government Capital Fund and UBS Select Treasury Capital Fund and the Board of Trustees of UBS Series Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of UBS Select Government Capital Fund and UBS Select Treasury Capital Fund (collectively referred to as the "Funds"), (two of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2018, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (two of the funds constituting UBS Series Funds) at April 30, 2018, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting the UBS Series Funds	Statement of operations	Statements of changes in net assets	Financial highlights
UBS Select Government Capital Fund	For the year ended April 30, 2018	For the year ended April 30, 2018 and the period from June 24, 2016 (commencement of operations) through April 30, 2017	
UBS Select Treasury Capital Fund	For the year ended April 30, 2018	For each of the two years in the period ended April 30, 2018	For each of the five years in the period ended April 30, 2018

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York

UBS Select Capital Funds

General information (unaudited)

Monthly and quarterly portfolio holdings disclosure

The Funds and Master Funds will file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Funds' and Master Funds' Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Funds' and Master Funds' Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC 0330. Additionally, you may obtain copies of Forms N-Q from the Funds and Master Funds upon request by calling 1-800-647 1568.

In addition, each Fund discloses, on a monthly basis: (a) a complete schedule of the related Master Fund's portfolio holdings; and (b) information regarding each Master Fund's weighted average maturity and weighted average life on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. In addition, at this location, you will find a link to more detailed Fund information appearing in filings with the SEC on Form N-MFP. Investors also may find additional information about the Funds at the above referenced UBS Web site internet address.

Proxy voting policies, procedures and record

You may obtain a description of each Fund's (and corresponding Master Fund's) (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting a fund directly at 1-800-647 1568, online on UBS's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

Other tax information

Pursuant to Sections 871(k)(1)(C)(i) and 871(k)(2)(C)(i) of the Internal Revenue Code, the Funds designate the following ordinary income distributions paid as qualified interest income and qualified short term capital gains:

Fund	Qualified Interest Income	Qualified Short Term Capital Gains
Government Capital Fund	\$37,212,475	\$77,405
Treasury Capital Fund	11,049,640	12,183

Master Trust

Annual Report | April 30, 2018

- Treasury Master Fund

Master Trust

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Funds. Investors in the related "feeder funds" should instead focus on separate expense examples relevant to the particular feeder funds; the expense examples for the feeder funds will reflect their proportionate share of the corresponding Master Funds' expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. These examples are intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2017 to April 30, 2018.

Actual expenses

The first line in the table below for each Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Master Trust

Understanding a Master Fund's expenses (unaudited) (concluded)

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2017	Ending account value April 30, 2018	Expenses paid during period ¹ 11/01/17 to 04/30/18	Expense ratio during the period
Government Master Fund				
Actual	\$1,000.00	\$1,006.40	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

	Beginning account value November 1, 2017	Ending account value April 30, 2018	Expenses paid during period ¹ 11/01/17 to 04/30/18	Expense ratio during the period
Treasury Master Fund				
Actual	\$1,000.00	\$1,006.40	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

¹ The Master Fund's portfolio is actively managed and its weighted average maturity will differ over time.

² Weightings represent percentages of the Master Fund's net assets as of the date indicated. The Master Fund's portfolio is actively managed, and its composition will vary over time.

You could lose money by investing in a money market fund. Although Government Master Fund seeks to preserve the value of your investment so that the shares of each related feeder fund are at \$1.00 per share, Government Master Fund cannot guarantee it will do so. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

Not FDIC insured. May lose value. No bank guarantee.

Government Master Fund

Portfolio of investments—April 30, 2018

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
US government and agency obligations	\$—	\$ 11,433,469,154	\$—	\$ 11,433,469,154
Repurchase agreements	—	4,233,000,000	—	4,233,000,000
Total	\$—	\$15,666,469,154	\$—	\$15,666,469,154

At April 30, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

¹ Rate shown is the discount rate at the date of purchase unless otherwise noted.

² Variable or floating rate security. The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects earlier of reset date or stated maturity date.

³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate (the Federal Reserve Overnight Reverse Repo Facility Rate + 0.07%). The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The investment pays interest monthly. The maturity date reflects early put date and the proceeds represent the face amount of the repurchase agreement plus accrued interest from the date of the last interest payment to the maturity date shown.

⁴ Illiquid investment at the period end. Illiquid assets, in the amount of \$500,000,000, represented 3.19% of net assets at the end of the period.

Treasury Master Fund

Portfolio of investments—April 30, 2018

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2018 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
US government obligations	\$—	\$ 10,500,208,453	\$—	\$ 10,500,208,453
Repurchase agreements	—	7,667,000,000	—	7,667,000,000
Total	\$—	\$18,167,208,453	\$—	\$18,167,208,453

At April 30, 2018, there were no transfers between Level 1 and Level 2.

Portfolio footnotes

¹ Rate shown is the discount rate at date of purchase unless otherwise noted.

² Variable or floating rate security. The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The maturity date reflects earlier of reset date or stated maturity date.

³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate (the Federal Reserve Overnight Reverse Repo Facility Rate + 0.04%). The interest rate shown is the current rate as of April 30, 2018 and changes periodically. The investment pays interest monthly. The maturity date reflects early put date and the proceeds represent the face amount of the repurchase agreement plus accrued interest from the date of the last interest payment to the maturity date shown.

Master Trust

Notes to financial statements

Organization and significant accounting policies

Government Master Fund and Treasury Master Fund (each a “Master Fund”, collectively, the “Master Funds”) are each registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. Treasury Master Fund commenced operations on August 28, 2007, and Government Master Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) Inc. (“UBS AM”) is the investment advisor and administrator for the Master Funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Master Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Funds that have not yet occurred. However, the Master Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Funds’ financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

In October 2016, the SEC adopted new rules and forms, and amendments to certain current rules and forms, to modernize reporting and disclosure of information by registered investment companies. The amendments to Regulation S-X require standardized, enhanced disclosure about derivatives in investment company financial statements, and change the rules governing the form and content of such financial statements. The amendments to Regulation S-X took effect on August 1, 2017. Management has assessed the impact of these regulatory developments, and the changes are incorporated within the financial statements.

The following is a summary of significant accounting policies:

Valuation of investments—Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), Government Master Fund and Treasury Master Fund have adopted a policy to operate as “government money market funds”. Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (*i.e.*, collateralized by cash and/or government securities). As “government money market funds”, Government Master Fund and Treasury Master Fund value their investments at amortized cost unless the Master Trust’s Board of Trustees (the “Board”) determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund and Treasury Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has delegated to the Equities, Fixed Income, and Multi-Asset Valuation Committee (“VC”) the responsibility for making fair value determinations with respect to the Master Funds’ portfolio investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an

Master Trust

Notes to financial statements

issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Master Fund's portfolio investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

Each Master Fund's portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund's beneficial interests are priced. Pursuant to each Master Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company's prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of each of the Master Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of each Master Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of each Master Fund's Portfolio of investments.

Liquidity fee and/or redemption gates—By operating as “government money market funds”, Government Master Fund and Treasury Master Fund are exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject Government Master Fund and Treasury Master Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Master Funds may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Master Funds maintain custody of the underlying obligations prior to their repurchase, either through their regular custodian or through a special “tri-party” custodian or sub-custodian that maintains a separate account for both the Master Funds and their counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Funds generally have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under

Master Trust

Notes to financial statements

Rule 2a-7 or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Master Funds may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. Each Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Master Funds may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Government Master Fund and Treasury Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, a Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to each Master Fund pursuant to an investment advisory and administration contract ("Management Contract") approved by the Board. In accordance with the Management Contract, each Master Fund pays UBS AM an investment advisory and administration fee ("management fee"), which is accrued daily and paid monthly, at the below annual rates, as a percentage of each Master Fund's average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

At April 30, 2018, each Master Fund owed UBS AM for investment advisory and administration services as follows:

Fund	Amounts owed to UBS AM
Government Master Fund	\$1,313,021
Treasury Master Fund	1,556,923

In exchange for these fees, UBS AM has agreed to bear all of the Master Funds' expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Funds' independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM

Master Trust

Notes to financial statements

estimates that these fees and expenses will be 0.01% or less of each Master Fund's average daily net assets. At April 30, 2018, UBS AM did not owe the Master Funds any additional reductions in management fees for independent trustees' fees and expenses.

In addition, UBS AM may voluntarily undertake to waive fees in the event that Master Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2018, and during the year ended April 30, 2018, UBS AM did not owe and/or waive fees under such an additional fee waiver undertaking. Such waived fees are not subject to future recoupment.

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Master Funds may conduct transactions, resulting in him being considered an interested trustee of the Master Funds. The Master Funds have been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. Portfolio transactions are executed through Morgan Stanley based on that firm's ability to provide best execution of the transactions.

During the year ended April 30, 2018, the Master Funds purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley, having aggregate values as follows:

Government Master Fund	\$168,194,571
Treasury Master Fund	—

Morgan Stanley received compensation in connection with these trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this compensation is not generally known by the Master Funds' investment manager, it is believed that under normal circumstances it represents a small portion of the total value of the transactions.

¹ Commencement of operations.

Master Trust

Notes to financial statements

Federal tax status

Each Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in a Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that each Master Fund's assets, income and distributions will be managed in such a way that an investor in a Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded, as of April 30, 2018, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2018, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2018, and since inception for Government Master Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Master Trust

Report of Independent Registered Public Accounting Firm

To the Shareholders of Government Master Fund and Treasury Master Fund and the Board of Trustees of Master Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Government Master Fund and Treasury Master Fund (collectively referred to as the "Funds"), (two of the funds constituting Master Trust (the "Trust")), including the portfolios of investments, as of April 30, 2018, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (two of the funds constituting Master Trust) at April 30, 2018, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Funds comprising the Master Trust	Statement of operations	Statement of changes in net assets	Financial highlights
Government Master Fund	For the year ended April 30, 2018	For the year ended April 30, 2018 and the period from June 24, 2016 (commencement of operations) through April 30, 2017	
Treasury Master Fund	For the year ended April 30, 2018	For each of the two years in the period ended April 30, 2018	For each of the five years in the period ended April 30, 2018

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2018, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York

Master Trust

General information (unaudited)

Monthly and quarterly portfolio holdings disclosure

The Master Funds will file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Master Funds' Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Master Funds' Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-800-SEC 0330. Additionally, you may obtain copies of Forms N-Q from the Master Funds upon request by calling 1-800-647 1568.

In addition, the Master Funds disclose, on a monthly basis: (a) a complete schedule of their portfolio holdings; and (b) information regarding their weighted average maturity and weighted average life on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. In addition, at this location, you will find a link to more detailed Fund information appearing in filings with the SEC on Form N-MFP.

Proxy voting policies, procedures and record

You may obtain a description of each Master Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a Master Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting a Master Fund directly at 1-800-647 1568, online on UBS's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

UBS Select Capital Funds

Supplemental information (unaudited)

Board of Trustees & Officers

The Funds are governed by a Board of Trustees which oversees each Fund's operations. Each trustee serves an indefinite term of office. Officers are appointed by the trustees and serve at the pleasure of the Board. The table below shows, for each trustee and officer, his or her name, address and age, the position held with the Trust, the length of time served as a trustee or officer of the Trust, the trustee's or officer's principal occupations during the last five years, the number of funds in the UBS fund complex overseen by the trustee or for which a person served as an officer, and other directorships held by the trustee.

The Funds' Statement of Additional Information contains additional information about the trustees and is available, without charge, upon request by calling 1-800-647 1568.

Interested Trustee

Name, address, and age	Position(s) held with Trust	Term of office ¹ and length of time served	Principal occupation(s) during past 5 years	Number of portfolios in fund complex overseen by trustee	Other directorships held by trustee
Meyer Feldberg ² ; 76 Morgan Stanley 1585 Broadway 36th Floor New York, NY 10036	Trustee and Chairman of the Board of Trustees	Since 1998 (Trustee); Since November 2017 (Chairman of the Board of Trustees)	Professor Feldberg is Dean Emeritus and Professor of Leadership and Ethics at Columbia Business School, although on an extended leave of absence.
