Annual Report | April 30, 2022

# UBS RMA Government Money Market Fund

June 10, 2022

## Dear Shareholder,

We present you with the annual report for UBS RMA Government Money Market Fund for the 12 months ended April 30, 2022 (the “reporting period”).

## Performance

The US Federal Reserve (the “Fed”) raised the federal funds rate in March 2022 from a range between 0.00% and 0.25% to a range between 0.25% and 0.50%. The federal funds rate or the “fed funds rate,” is the rate US banks charge one another for funds they borrow on an overnight basis. (For more details on the Fed’s actions, see below.) The Fed also anticipates several additional rate hikes during the year. As a result, the yields on a number of short-term investments moved higher—as did the Fund’s yield—during the reporting period.

The seven-day current yield for the Fund as of April 30, 2022 was 0.01%, versus 0.02% on April 30, 2021 (in both cases, after fee waivers/expense reimbursements). (For more information on the Fund’s performance, refer to “Yields and characteristics at a glance” on page 4.)

## UBS RMA Government Money Market Fund

### Investment goal:

Maximum current income consistent with liquidity and the preservation of capital.

### Portfolio Managers:

Robert Sabatino  
David J. Walczak  
UBS Asset Management  
(Americas) Inc.

### Commencement:

June 24, 2016

### Dividend payments:

Monthly

## An interview with Portfolio Manager Robert Sabatino

### Q. How would you describe the economic environment during the reporting period?

A. The US economy faced a number of headwinds, including COVID-19 and its variants, sharply rising inflation and interest rates, supply chain issues, and central bank monetary policy tightening. Later in the reporting period the war in Ukraine also impacted the economy. Looking back, second, third and fourth quarter 2021 US annualized gross domestic product (“GDP”) growth was 6.7%, 2.3% and 6.9%, respectively. The economy then contracted in the first quarter of 2022. According to the Commerce Department’s initial estimate, first quarter 2022 annualized GDP growth was –1.4%. This was attributed to decreases in private inventory investment, exports, federal government spending, and state and local government spending.

### Q. How did the Fed react to the economic environment?

A. After several years of highly accommodative monetary policy, toward the end of 2021 the central bank signaled a policy shift. With inflation remaining elevated and no longer viewed as being “transitory,” in November 2021 the Fed announced that it would start tapering its monthly purchase of Treasury and agency mortgage-backed securities. At its meeting in December, the central bank further reduced its bond purchases and announced the program would end in March 2022. In March 2022, the Fed raised interest rates to a range between 0.25% and 0.50%, its first rate hike since 2018. Finally, at its meeting in early May, after the reporting period ended, the Fed raised rates 0.50% to a range between 0.75% and 1.00%. The central bank was also to begin reducing its holdings of Treasury securities and agency debt and agency mortgage-backed securities on June 1, 2022 (quantitative tightening).

### Q. How did you position the Fund over the reporting period?

A. The Fund is a “feeder fund,” investing all of its assets in a “master fund,” namely Government Master Fund. We tactically adjusted Government Master Fund’s weighted average maturity (WAM)—which is the weighted average maturity of the securities in its portfolio—throughout the reporting period. The Fund’s WAM was 34 days when the reporting period began. At period end on April 30, 2022, it was 22 days.

# UBS RMA Government Money Market Fund

**Q. What level of portfolio diversification did you maintain during the reporting period?**

**A.** At the issuer level, we continued to invest in US government securities, investing in numerous smaller positions with the goal of reducing risk and keeping the Fund highly liquid.

**Q. What types of securities did the Government Master Fund emphasize?**

**A.** Over the review period, we increased the Master Fund's exposure to repurchase agreements backed by government obligations. Conversely, we reduced its allocation to direct US Treasury obligations. (Repurchase agreements are transactions in which the seller of a security agrees to buy it back at a predetermined time and price or upon demand.)

**Q. What factors do you believe will affect the Fund over the coming months?**

**A.** With inflation remaining elevated and given the improvements in the labor market, we expect the Fed to continue tightening monetary policy. It is unclear if the central bank can orchestrate a "soft landing" for the US economy. In this environment, we anticipate continuing to manage the Fund focusing on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the UBS family of funds,\* please contact your financial advisor, or visit us at [www.ubs.com/am-us](http://www.ubs.com/am-us).

# UBS RMA Government Money Market Fund

## Understanding your Fund's expenses<sup>1</sup> (unaudited)

As a shareholder of the Fund, you incur ongoing costs, including management fees, service fees (non-12-b-1 fees) and other Fund expenses. These examples are intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Since the Fund is a "feeder fund" that invests in a corresponding "master fund," the expense information below reflects the combined effect of the two levels of expenses and not just those imposed directly at the feeder fund level.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2021 to April 30, 2022.

### Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

### Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

The examples do not reflect Resource Management Account® (RMA®) Program, Business Services Account BSA® Program or other program fees as these are external to the Fund and relate to those programs.

|   | Beginning<br>account value<br>November 1, 2021 | Ending<br>account value<br>April 30, 2022 <sup>2</sup> | Expenses paid<br>during period<br>11/01/21 to 04/30/22 <sup>3</sup> | Expense<br>ratio during<br>the period |
|---|--|--|---|---------------------------------------|
| Actual  | \$1,000.00                                     | \$1,000.00   | \$0.85  | 0.17%                                 |
| Hypothetical (5% annual return before expenses) | 1,000.00                                       | 1,024.15   | 0.86  | 0.17                                  |

<sup>1</sup> The expenses for the Fund reflect the expenses of the corresponding master fund in which it invests in addition to its own direct expenses.

<sup>2</sup> "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

<sup>3</sup> Expenses are equal to the Fund's annualized net expense ratios, multiplied by the average account value over the period, multiplied by 182 divided by 364 (to reflect the one-half year period).

| Expenses before fee waivers and/or expense reimbursements <sup>3</sup> | 0.58%                 | 0.59%                | 0.51%                | 0.49%              | 0.49%                |
| Expenses after fee waivers and/or expense reimbursements <sup>3</sup>  | 0.08%                 | 0.16%                | 0.50%                | 0.49%              | 0.49%                |
| Net investment income (loss) <sup>3</sup>                              | 0.01%                 | 0.01%                | 1.65%                | 1.68%              | 0.67%                |
| <b>Supplemental data:</b>  |                       |                      |                      |                    |                      |
| Net assets, end of year (000's)  | \$1,043,591           | \$1,281,776          | \$694,940            | \$4,909,374        | \$5,762,262          |

<sup>1</sup> Amount represents less than \$0.0005 or \$(0.0005) per share.

<sup>2</sup> Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

<sup>3</sup> Ratios include the Fund's share of income, expenses and expense waivers allocated from the Master Fund.

See accompanying notes to financial statements and attached financial statements for Government Master Fund.

# UBS RMA Government Money Market Fund

## Notes to financial statements

### Organization and significant accounting policies

UBS RMA Government Money Market Fund ("RMA Government Fund" or the "Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust"), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with twenty-two series. The financial statements for the other series of the Trust are not included herein.

RMA Government Fund is a "feeder fund" that invests substantially all of its assets in a "master fund"—Government Master Fund (the "Master Fund", a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder fund and its respective Master Fund have the same investment objectives. RMA Government Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) Inc. ("UBS AM") is the investment advisor and administrator for the Master Fund and the administrator for the Fund. UBS Asset Management (US) Inc. ("UBS AM—US") serves as principal underwriter for the Fund. UBS AM and UBS AM—US are indirect wholly owned subsidiaries of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of the Fund is directly affected by the performance of the Master Fund. The value of such investment reflects the Fund's proportionate interest in the net assets of the Master Fund (24.29% at April 30, 2022).

All of the net investment income and realized and unrealized gains and losses from investment activities of the Master Fund are allocated pro rata, based on respective ownership interests, among the Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Fund, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Fund's financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The following is a summary of significant accounting policies:

**Valuation of investments**—The Fund records its investment in the Master Fund at fair value. Securities held by the Master Fund are valued as indicated in the Master Fund's Notes to financial statements, which are included elsewhere in this report.

**Constant net asset value per share**—RMA Government Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund and the Master Fund have adopted certain investment, portfolio valuation and dividend/

# UBS RMA Government Money Market Fund

## Notes to financial statements

distribution policies in an attempt to enable the Fund to do so. RMA Government Fund and the Master Fund have each adopted a policy to operate as a “government money market fund”. Under Rule 2a-7 of the 1940 Act, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities) (either directly or through a related master portfolio). As a “government money market fund”, RMA Government Fund is permitted to seek to maintain a stable price per share.

**Liquidity fee and/or redemption gates**—By operating as a “government money market fund”, RMA Government Fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Fund’s Board of Trustees (the “Board”) may elect to subject RMA Government Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

**Dividends and distributions**—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions is determined in accordance with federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

**Concentration of risk**—The ability of the issuers of the debt securities held by the Master Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Certain impacts to public health conditions particular to the coronavirus “COVID-19” outbreak that occurred may have a significant negative impact on the operations and profitability of the Fund’s investments. The extent of the impact to the financial performance of the Fund will depend on future developments, including (i) the duration and spread of the outbreak, (ii) the restrictions and advisories, (iii) the effects on the financial markets, and (iv) the effects on the economy overall, all of which are highly uncertain and cannot be predicted.

### Administrator

UBS AM serves as administrator to the Fund pursuant to an Administration Agreement approved by the Trust’s Board. In accordance with the Administration Agreement, the Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of the Fund’s average daily net assets:

| Fund                | Administration fee |
|---------------------|--------------------|
| RMA Government Fund | 0.10%              |

At April 30, 2022, the Fund owed UBS AM for administrative services as follows:

| Fund                | Amount owed to UBS AM |
|---------------------|-----------------------|
| RMA Government Fund | \$86,959              |

### Shareholder services plan

UBS AM—US is the principal underwriter and distributor of the Fund’s shares. Under the shareholder services plans, UBS AM—US is entitled to a monthly shareholder servicing fee, payable by the Fund, at the below annual rate, as a percentage of the Fund’s average daily net assets:

| Fund                | Shareholder servicing fee |
|---------------------|---------------------------|
| RMA Government Fund | 0.25%                     |

# UBS RMA Government Money Market Fund

## Notes to financial statements

At April 30, 2022, the Fund owed UBS AM—US for shareholder servicing fees as follows:

| Fund                | Amount owed to UBS AM—US |
|---------------------|--------------------------|
| RMA Government Fund | \$219,028                |

In addition, UBS AM and UBS AM—US may voluntarily undertake to waive fees in the event that Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2022, UBS AM and UBS AM—US owed the Fund \$306,263 and for the period ended April 30, 2022, UBS AM and UBS AM—US voluntarily waived fees and/or reimbursed expenses of \$4,906,838 which is not subject to future recoupment.

### Transfer agency and related services fees

UBS Financial Services Inc. provides certain services pursuant to a delegation of authority from BNY Mellon Investment Servicing (US) Inc. ("BNY Mellon"), the Fund's transfer agent, and was compensated for these services by BNY Mellon, not the Fund. For the year ended April 30, 2022, UBS Financial Services Inc. received from BNY Mellon, not the Fund, total delegated services fees as follows:

|                     |           |
|---------------------|-----------|
| RMA Government Fund | \$540,629 |
|---------------------|-----------|

### Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

### RMA Government Money Market Fund

|   | For the years ended April 30, |                  |
|---|-------------------------------|------------------|
|   | 2022                          | 2021             |
| Shares sold                                   | 23,313,017,705                | 22,002,365,227   |
| Shares repurchased                            | (23,551,309,942)              | (21,415,619,452) |
| Dividends reinvested                          | 115,140                       | 125,086          |
| Net increase (decrease) in shares outstanding | (238,177,097)                 | 586,870,861      |

### Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal years ended April 30, 2022 and April 30, 2021 were as follows:

| Fund                             | 2022                                    |   |                          |
|----------------------------------|---|---|--------------------------|
|                                  | Distributions paid from ordinary income | Distributions paid from net long-term capital gains | Total distributions paid |
| RMA Government Money Market Fund | \$115,396                               | \$197   | \$115,593                |

# UBS RMA Government Money Market Fund

## Notes to financial statements

|                                  |   |   | 2021                     |
|----------------------------------|---|---|--------------------------|
| Fund                             | Distributions paid from ordinary income | Distributions paid from net long-term capital gains | Total distributions paid |
| RMA Government Money Market Fund | \$155,297                               | \$—   | \$155,297                |

At April 30, 2022, the components of accumulated earnings (deficit) on a tax basis were as follows:

|  | Undistributed ordinary income | Undistributed long-term capital gains | Accumulated capital and other losses | Unrealized appreciation (depreciation) | Other temporary differences | Total      |
|--|-------------------------------|---------------------------------------|--------------------------------------|--|-----------------------------|------------|
|  | \$7,339                       | \$1                                   | \$—                                  | \$—                                    | \$(44,091)                  | \$(36,751) |

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2022, the Fund had no net capital loss carry-forward.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2022, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2022, the Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2022, remains subject to examination by the Internal Revenue Service and state taxing authorities.

### Subsequent event

Effective beginning May 9, 2022, UBS AM voluntarily started waiving its 0.10% master fund level fee in order to voluntarily reduce UBS RMA Government Money Market Fund's expenses by 0.10% until July 31, 2022.

## Report of independent registered public accounting firm

To the Shareholders and the Board of Trustees of UBS RMA Government Money Market Fund

### Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of UBS RMA Government Money Market Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2022, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2022, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more UBS investment companies since 1978.

## General information (unaudited)

### Monthly portfolio holdings disclosure

The Fund and Master Fund file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. These reports on Form N-MFP are available on the SEC's Website at <http://www.sec.gov>. The Fund and Master Fund make portfolio holdings information available to shareholders on UBS's Website at the following internet address: [www.ubs.com/usmoneymarketfunds](http://www.ubs.com/usmoneymarketfunds). Investors also may find additional information about the Fund at the above referenced UBS Website internet address.

### Proxy voting policies, procedures and record

You may obtain a description of the Fund's (and corresponding Master Fund's) (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Website: [www.ubs.com/ubsam-proxy](http://www.ubs.com/ubsam-proxy), or on the EDGAR Database on the SEC's Website (<http://www.sec.gov>).

### Other tax information

Pursuant to Sections 871(k)(1)(C)(i) and 871(k)(2)(C)(i) of the Internal Revenue Code, the Fund designates \$106,152 of ordinary income distributions paid as qualified interest income and \$9,244 as qualified short term capital gains for the fiscal year ended April 30, 2022.

# Government Master Fund

## Understanding Master Fund's expenses (unaudited)

*(Note: The expense information provided in this section is relevant for direct investors in the Master Fund. Investors in the related "feeder fund" should instead focus on separate expense examples relevant to the feeder fund; the expense examples for the feeder fund will reflect its proportionate share of the corresponding Master Fund's expenses.)*

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. These examples are intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2021 to April 30, 2022.

### Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

### Hypothetical example for comparison purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

|   | Beginning<br>account value<br>November 1, 2021 | Ending<br>account value<br>April 30, 2022 | Expenses paid<br>during period<br>11/01/21 to 04/30/22 <sup>1</sup> | Expense<br>ratio during<br>the period |
|---|--|---|---|---------------------------------------|
| Actual  | \$1,000.00                                     | \$1,000.20                                | \$0.35  | 0.07%                                 |
| Hypothetical (5% annual return before expenses) | 1,000.00                                       | 1,024.65                                  | 0.35  | 0.07                                  |

<sup>1</sup> Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 182 divided by 364 (to reflect the one-half year period).

# Government Master Fund

## Portfolio characteristics at a glance—April 30, 2022 (unaudited)

### Government Master Fund

#### Characteristics

|  |         |
|--|---------|
| Weighted average maturity <sup>1</sup> | 22 days |
|--|---------|

#### Portfolio composition<sup>2</sup>

|                                       |               |

## Portfolio of investments—April 30, 2022

### Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2022 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

| Description                        | Unadjusted<br>quoted prices in<br>active markets for<br>identical investments<br>(Level 1) | Other significant<br>observable inputs<br>(Level 2) | Unobservable inputs<br>(Level 3) | Total                  |

| <b>Supplemental data:</b>            |                       |             |              |              |              |
| Total investment return <sup>1</sup> | 0.03%                 | 0.08%       | 1.74%        | 2.10%        | 1.08%        |
| Net assets, end of year (000's)      | \$4,297,678           | \$8,822,693 | \$17,762,675 | \$14,278,487 | \$15,676,931 |

<sup>1</sup> The total investment return for the Master Funds is calculated using geometric average return. The Master Funds issue ownership interests, rather than shares, to the feeder funds. Individual investors invest only into the feeder funds. Feeder fund total investment return is calculated as described within the feeder fund financial highlights and may differ from geometric average return of the Master Fund.

See accompanying notes to financial statements.

# Government Master Fund

## Notes to financial statements

### Organization and significant accounting policies

Government Master Fund (the “Master Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. Government Master Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) Inc. (“UBS AM”) is the investment advisor and administrator for the Master Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

The Master Fund may issue any number of interests and each interest shall have a par value of \$0.001 per interest. The interests of the Master Fund shall represent a proportional beneficial interest in the net assets belonging to that series. Each holder of interests of the Master Fund shall be entitled to receive his or her pro rata share of all distributions made with respect to the Master Fund according to the investor’s ownership percentage of the Master Fund on the record date established for payment. Upon redemption of interests, an investor shall be paid solely out of the assets and property of the Master Fund. Beneficial interests in the Trust are not registered under the Securities Act of 1933, as amended, since such interests are issued in private placement transactions.

In the normal course of business, the Master Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Fund that have not yet occurred. However, the Master Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The following is a summary of significant accounting policies:

**Valuation of investments**—Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), Government Master Fund has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market fund”, Government Master Fund values its investments at amortized cost unless the Master Trust’s Board of Trustees (the “Board”) determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has delegated to the Equities, Fixed Income, and Multi-Asset Valuation Committee (“VC”) the responsibility for making fair value determinations with respect to the Master Fund’s portfolio investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to

# Government Master Fund

## Notes to financial statements

transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value the Master Fund's portfolio investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

The Master Fund's portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time the Master Fund's beneficial interests are priced. Pursuant to the Master Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company's prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Master Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Master Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Master Fund's Portfolio of investments.

**Liquidity fee and/or redemption gates**—By operating as a "government money market fund", Government Master Fund is exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject Government Master Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

**Repurchase agreements**—The Master Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Master Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Master Fund and its counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 of the 1940 Act or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Master Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party

# Government Master Fund

## Notes to financial statements

to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. The Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Master Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. The Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, the Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

**Investment transactions and investment income**—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

**Concentration of risk**—The ability of the issuers of the debt securities held by the Master Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Certain impacts to public health conditions particular to the coronavirus “COVID-19” outbreak that occurred may have a significant negative impact on the operations and profitability of the Fund’s investments. The extent of the impact to the financial performance of the Fund will depend on future developments, including (i) the duration and spread of the outbreak, (ii) the restrictions and advisories, (iii) the effects on the financial markets, and (iv) the effects on the economy overall, all of which are highly uncertain and cannot be predicted.

### **Investment advisor and administrator**

UBS AM serves as the investment advisor and administrator to the Master Fund pursuant to an investment advisory and administration contract (“Management Contract”) approved by the Board. In accordance with the Management Contract, the Master Fund pays UBS AM an investment advisory and administration fee (“management fee”), which

# Government Master Fund

## Notes to financial statements

is accrued daily and paid monthly, at the below annual rates, as a percentage of the Master Fund's average daily net assets:

| Average daily net assets                     | Annual rate |
|--|-------------|
| Up to \$30 billion                           | 0.1000%     |
| In excess of \$30 billion up to \$40 billion | 0.0975      |
| In excess of \$40 billion up to \$50 billion | 0.0950      |
| In excess of \$50 billion up to \$60 billion | 0.0925      |
| Over \$60 billion                            | 0.0900      |

At April 30, 2022, the Master Fund owed UBS AM for investment advisory and administration services as follows:

| Fund                   | Amount owed to UBS AM |
|------------------------|-----------------------|
| Government Master Fund | \$363,539             |

In exchange for these fees, UBS AM has agreed to bear all of the Master Fund's expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Fund, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Fund's independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of the Master Fund's average daily net assets. At April 30, 2022, UBS AM did not owe the Master Fund any additional reductions in management fees for independent trustees' fees and expenses.

In addition, UBS AM may voluntarily undertake to waive fees in the event that Master Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. During the period ended April 30, 2022, UBS AM voluntarily waived \$2,648,633, which is not subject to future recoupment.

### Additional information regarding compensation to affiliate of a former board member

During his term of service on the Board through his retirement from the Board effective December 31, 2021, Professor Meyer Feldberg had also served as a senior advisor to Morgan Stanley, a financial services firm with which the Master Fund may conduct transactions, resulting in him being an interested trustee of the Trust. The Master Fund has been informed that Professor Feldberg's role at Morgan Stanley did not involve matters directly affecting any UBS funds. Portfolio transactions are executed through Morgan Stanley based on that firm's ability to provide best execution of the transactions.

During the period ended April 30, 2022, the Master Fund did not purchase or sell securities (e.g., fixed income securities) in principal trades with Morgan Stanley.

Morgan Stanley would have received compensation in connection with any such trades, which may have been in the form of a "mark-up" or "mark-down" of the price of the securities or some other form of compensation. Although the precise amount of this compensation is not generally known by the Master Fund's investment manager, it is believed that under normal circumstances it represents a small portion of the total value of the transactions.

### Federal tax status

Government Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in the Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that the Master Fund's assets, income and distributions will be managed in such a way that an investor in the Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Fund has conducted an analysis and concluded, as of April 30, 2022, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2022, the Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2022, remains subject to examination by the Internal Revenue Service and state taxing authorities.

### Subsequent event

Effective beginning May 9, 2022, UBS AM voluntarily began waiving Government Master Fund's management fee of 0.10% until July 31, 2022.

# Government Master Fund

## Report of independent registered public accounting firm

To the Shareholders and the Board of Trustees of Government Master Fund

### **Opinion on the Financial Statements**

We have audited the accompanying statement of assets and liabilities of Government Master Fund (the "Fund") (one of the funds constituting Master Trust (the "Trust"), including the portfolio of investments, as of April 30, 2022, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting Master Trust) at April 30, 2022, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### **Basis for Opinion**

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2022, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York

## General information (unaudited)

### **Monthly portfolio holdings disclosure**

The Master Fund files its complete schedule of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. The Master Fund's reports on Form N-MFP are available on the SEC's Web site at <http://www.sec.gov>. The Master Fund makes portfolio holdings information available to interestholders (and investors in the related feeder fund) on UBS's Web site at the following internet address: [www.ubs.com/usmoneymarketfunds](http://www.ubs.com/usmoneymarketfunds). Investors also may find additional information about the Master Fund at the above referenced UBS Web site internet address.

### **Proxy voting policies, procedures and record**

You may obtain a description of the Master Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Master Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Master Fund directly at 1-800-647 1568, online on the Fund's Web site: [www.ubs.com/ubsam-proxy](http://www.ubs.com/ubsam-proxy), or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

### Board of Trustees & Officers

The Fund is governed by a Board of Trustees which oversees the Fund's operations. Each trustee serves an indefinite term of office. Officers are appointed by the trustees and serve at the pleasure of the Board. The table below shows, for each trustee and officer, his or her name, address and age, the position held with the Trust, the length of time served as a trustee or officer of the Trust, the trustee's or officer's principal occupations during the last five years, the number of funds in the UBS fund complex overseen by the trustee or for which a person served as an officer, and other directorships held by the trustee.

The Fund's Statement of Additional Information contains additional information about the trustees and is available, without charge, upon request by calling 1-800-647 1568.

### Independent Trustees

| Name, address, and age  | Position(s) held with Trust                   | Term of office <sup>1</sup> and length of time served                           | Principal occupation(s) during past 5 years   | Number of portfolios in fund complex overseen by trustee  | Other directorships held by trustee   |
