

UBS Select Prime Series II Institutional Fund

UBS Money Market Fund | December 31, 2023

UBS Select Prime Series II Institutional Fund (the "Fund")

Professionally-managed institutional money market fund seeking to provide maximum current income, liquidity, preservation of capital and sustainable investments for institutional investors and high-net worth individuals.

Sustainability focus

The Fund is classified by UBS-AM as an "ESG-integrated" fund. The Fund's investment process integrates material sustainability and/or environmental, social and governance ("ESG") considerations into the research process for all portfolio investments and portfolio holdings, except repurchase agreements with certain counter parties. ESG integration is driven by taking into account material sustainability and/or ESG risks which could impact investment returns, rather than being driven by specific ethical principles or norms. The analysis of material sustainability and/or ESG considerations can include many different aspects, including, for example, the carbon footprint, employee health and well-being, supply chain management, fair customer treatment and governance processes of a company. The Fund's portfolio managers may still invest in securities without respect to sustainability and/or ESG considerations or in securities which present sustainability and/or ESG risks, including where the portfolio managers believe the potential compensation outweighs the risks identified.

Experienced management team

A team of money market specialists under the direction of Robert Sabatino, Managing Director, is responsible for the day-to-day investment management. UBS Asset Management's experienced and knowledgeable portfolio managers select and evaluate investments to develop a diversified portfolio that seeks to achieve the Fund's objective.

Investment approach

While seeking to maximize current income, our investment management team emphasizes credit quality, liquidity and appropriate diversification. Embedded in our credit research process is the integration of issuer-level sustainable investing analysis as guided by UBS-AM's approach to environmental, social and governance (ESG) research and evaluation methodology. The Fund is a "feeder fund" that invests in securities through an underlying "master fund." The master fund invests in a diversified portfolio of high-quality, short-term, US dollar-denominated money market instruments of governmental and private issuers while incorporating fundamental sustainability factors, such as ESG integration of each issuer. Our credit and portfolio management teams continually monitor individual issuers in an attempt to assure maintenance of credit quality, and partner closely with the global Sustainable and Impact Investing Research team to maintain ESG integration in the research process.

You could lose money by investing in the Fund. Because the share price of the Fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. Also, the Fund may impose a fee upon the sale of your shares under certain circumstances or, until October 2, 2023, may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not a bank account and not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor is not required to reimburse the Fund for losses, and you should not expect that the sponsor will provide financial support to the fund at any time, including during periods of market stress.

Prior to October 2, 2023, the Fund may be subject to the possible imposition of a liquidity fee and/or temporary redemption gate should certain triggering events occur. Effective October 2, 2023, the Fund may no longer impose a redemption gate (except under extraordinary circumstances as part of a liquidation), and the Fund may be subject to a liquidity fee if the Fund's board believes such fee is in the best interests of the Fund.

¹ The Fund is rated Aaa-mf by Moody's, indicating its belief that the Fund has a very strong ability to meet the dual goals of providing liquidity and preserving capital. Further information regarding Moody's rating methodology may be found on its website at www.moody's.com.

² The Fund is rated AAAMmf by Fitch Ratings, which reflects Fitch's view of (1) the Fund's overall credit quality and diversification; (2) low exposure to interest rate and spread risk; (3) holdings consistent with shareholder profiles and concentrations; and (4) maturity profiles consistent with rating criteria. Further information regarding Fitch's rating methodology may be found on its website.

³ The Fund and UBS-AM have entered into a written agreement pursuant to which the total ordinary operating expenses of the Fund through August 31, 2024, do not exceed 0.18%. The fee waiver agreement may be terminated by the fund's board at any time and also will terminate automatically upon the expiration or termination of the fund's contract with UBS-AM.

⁴ The minimum investment level for initial purchases generally is \$1,000,000. Initial purchases made through UBS Financial Services Inc. brokerage accounts, subsequent purchases, and purchases through exchanges are not subject to a minimum investment level. UBS Financial Services Inc. fee-based advisory programs are not eligible to make investments in the fund (with an exception for the normal month-end automatic reinvestment of dividends by existing shareholders).

⁵ The master fund is actively managed and its composition will differ over time. Portfolio composition may exceed 100% due to rounding.
