

Annual Report | April 30, 2023

Includes:

- UBS Select Prime Institutional Fund
- UBS Select ESG Prime Institutional Fund
- UBS Select Government Institutional Fund
- UBS Select Treasury Institutional Fund
- UBS Prime Reserves Fund
- UBS Tax-Free Reserves Fund

June 10, 2023

Dear Shareholder,

We present you with the annual report for the UBS Institutional/Reserves Series of Funds, namely UBS Select Prime Institutional Fund, UBS Select ESG Prime Institutional Fund, UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund and UBS Tax-Free Reserves Fund (the "Funds") for the 12 months ended April 30, 2023 (the "reporting period").

Performance

The US Federal Reserve (the "Fed") raised the federal funds rate eight times during the reporting period, with the last hike pushing it to a range between 4.75% and 5.00%. The federal funds rate or the "fed funds rate," is the rate US banks charge one another for funds they borrow on an overnight basis. As a result, the yields on short-term investments moved higher—as did the Funds' yields—during the reporting period.

The seven-day current yields for the Funds (after fee waivers/expense reimbursements, if any) were as follows:

- **UBS Select Prime Institutional Fund**: 4.89% on April 30, 2023, versus 0.32% on April 30, 2022.
- **UBS Select ESG Prime Institutional Fund**: 4.90% on April 30, 2023, versus 0.37% on April 30, 2022.
- **UBS Select Government Institutional Fund**: 4.72% on April 30, 2023, versus 0.11% on April 30, 2022.
- **UBS Select Treasury Institutional Fund**: 4.72% on April 30, 2023, versus 0.24% on April 30, 2022.
- UBS Prime Reserves Fund: 4.89% on April 30, 2023, versus 0.32% on April 30, 2022.
- **UBS Tax-Free Reserves Fund**: 3.39% on April 30, 2023, versus 0.25% on April 30, 2022.

For detailed information on the Funds' performance, refer to "Yields and characteristics at a glance" on pages 7–9.

An interview with the Portfolio Managers

Q. How would you describe the economic environment during the reporting period?

A. The US economy faced several headwinds, including aggressive Fed rate hikes, elevated inflation, the impact from COVID and its variants, and the repercussions from the war in Ukraine. Despite these challenges, the

UBS Select Prime Institutional Fund

Commencement:

January 15, 2020

Dividend payments:

Monthly

economy was resilient, especially the labor market. Looking back, second quarter 2022 US annualized gross domestic product ("GDP") was -0.6%. The economy then expanded 3.2% and 2.6% during the third and fourth quarters of 2022. Finally, the Commerce Department's initial estimate showed that first quarter 2023 annualized GDP was a positive 1.1%.

O. How did the Fed react to the economic environment?

A. With US inflation remaining elevated and persist, the Fed continued to aggressively raise interest rates. After its initial rate hike in March 2022—before the reporting period began—the US central bank raised rates at its next eight meetings, moving the fed funds rate to a range between 4.75% and 5.00%. On May 3, 2023—after the reporting period ended—the Fed raised rates another 0.25%, pushing the fed funds rate to a range between 5.00% and 5.25%, its highest level since September 2007.

UBS Tax-Free Reserves Fund

Investment goal:

Maximum current income exempt from federal income tax consistent with liquidity and the preservation of capital

Portfolio Manager:

Lisa M. DiPaolo UBS Asset Management (Americas) Inc.

Commencement:

August 28, 2007

Dividend payments:

Monthly

Q. Given that the Funds are "feeder funds," how were the portfolios in which they invest managed during the reporting period?

- **A.** Each fund is a "feeder fund," investing all of its assets in "Master Funds"—the Prime Master Fund, the ESG Prime Master Fund, the Government Master Fund, the Treasury Master Fund, the Prime CNAV Master Fund, and the Tax-Free Master Fund, respectively. As always, quality and liquidity remained paramount in our management process for the Master Funds.
- For the Prime Master Fund in which **UBS Select Prime Institutional Fund** invests, we tactically adjusted its weighted average maturity (WAM)—which is the weighted average maturity of the securities in the portfolio—throughout the 12-month review period. When the reporting period began, the Prime Master Fund had a WAM of 21 days. By the end of the period on April 30, 2023, the Prime Master Fund's WAM was 12 days.

At the security level, we increased the Prime Master Fund's exposure to repurchase agreements and, to a lesser extent, certificates of deposit. Conversely, we decreased its allocation to commercial paper and, to a lesser extent, time deposits. (Repurchase agreements are transactions that require the seller of a security to buy it back at a predetermined time and price, or upon demand.)

- The WAM for the ESG Prime Master Fund in which **UBS Select ESG Prime Institutional Fund** invests was 17 days when the reporting period began. By the end of the review period on April 30, 2023, the ESG Prime Master Fund had a WAM of 12 days. At the security level, we modestly increased the ESG Prime Master Fund's exposures to commercial paper and certificates of deposit. In contrast, we slightly decreased its exposures to time deposits and repurchase agreements.
- The WAM for the Government Master Fund in which **UBS Select Government Institutional Fund** invests was 22 days when the reporting period began. Over the review period, the WAM was adjusted, and at period-end on April 30, 2023, it was six days. At the security level, we significantly increased the Government Master Fund's exposure to repurchase agreements backed by government securities. Conversely, we reduced its allocations to direct US Treasury obligations and US government agency obligations.
- The WAM for the Treasury Master Fund in which **UBS Select Treasury Institutional Fund** invests was 23 days when the reporting period began. Over the review period, the WAM was adjusted, and at period-end it was three days. At the security level, we significantly increased the Treasury Master Fund's exposure to repurchase agreements backed by US Treasury obligations and meaningfully reduced its exposure to direct US Treasury obligations.

- The WAM for the Prime CNAV Master Fund in which **UBS Prime Reserves Fund** invests was 22 days when the reporting period began. We tactically adjusted its WAM, and at the end of the reporting period the Prime CNAV Master Fund's WAM was 13 days. Over the review period, we increased the Prime CNAV Master Fund's exposures to repurchase agreements and certificates of deposit. Conversely, we decreased its exposures to commercial paper and time deposits.
- The WAM for the Tax-Free Master Fund in which **UBS Tax-Free Reserves Fund** invests was six days when the reporting period began. We tactically adjusted the Tax-Free Master Fund's WAM based on market conditions and seasonality factors within the tax-exempt market. At the end of the reporting period its WAM was seven days. Over the review period, we increased the Tax-Free Master Fund's allocation to municipal bonds and reduced its exposure to tax-exempt commercial paper.

Q. What factors do you believe will affect the Funds over the coming months?

A. We continue to monitor a number of factors, including elevated inflation and the impact of the Fed's rate hikes on the economy. We are also closely reviewing recent developments in the banking industry. Against this backdrop, we expect to continue managing the Funds with a focus on risk and liquidity.

We thank you for your continued support and welcome any comments or questions you may have. For additional information on the UBS family of funds,* please contact your financial advisor, or visit us at www.ubs.com/am-us.

^{*} Mutual funds are sold by prospectus only. You should read it carefully and consider a fund's investment objectives, risks, charges, expenses and other important information contained in the prospectus before investing. Prospectuses for most of our funds can be obtained from your financial advisor, by calling UBS Funds at 800-647 1568 or by visiting our Web site at www.ubs.com/am-us.

Sincerely,

Igor Lasun

This letter is intended to assist shareholders in understanding how the Funds performed during the 12-month period ended April 30, 2023. The views and opinions in the letter were current as of June 10, 2023. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

Understanding your Fund's expenses¹ (unaudited)

As a shareholder of a Fund, you incur ongoing costs, including management fees and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in a Fund and to compare these costs with the ongoing costs of investing in other mutual funds. Since each Fund is a "feeder fund" that invests in a corresponding "master fund," the expense information below reflects the combined effect of the two levels of expenses and not just those imposed directly at the feeder fund level.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2022 to April 30, 2023.

Actual expenses

The first line in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by 1,000 (for example, an 8,600 account value divided by 1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Fund provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

Understanding your Fund's expenses1 (unaudited) (concluded)

	Beginning account value November 1, 2022	Ending account value ² April 30, 2023	Expenses paid during period ³ 11/01/22 to 04/30/23	Expense ratio during the period

¹ The expenses for the Funds reflect the expenses of the corresponding master funds in which they invest in addition to their own direct expenses.

² "Actual—Ending account value" may or may not be reflective of a shareholder's actual investment experience during periods of very low interest rates. While the Fund declares dividends daily and pays them monthly, the amounts are rounded to the nearest \$0.01 on a daily basis with respect to each investor's account. As a result, investors whose Fund account balances earn daily dividends that total less than one half a cent on any given day will not accrue any dividends on that day.

³ Expenses are equal to the Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one–half year period).

Organization and significant accounting policies

UBS Select Prime Institutional Fund ("Prime Institutional Fund"), UBS Select ESG Prime Institutional Fund ("ESG Prime Institutional Fund"), UBS Select Government Institutional Fund ("Government Institutional Fund"), UBS Select Treasury Institutional Fund ("Treasury Institutional Fund"), UBS Prime Reserves Fund ("Prime Reserves Fund), and UBS Tax-Free Reserves Fund ("Tax-Free Reserves Fund") (each a "Fund", collectively, the "Funds") are each registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust"), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with sixteen series. The financial statements for the other series of the Trust are not included herein.

Prime Institutional Fund, ESG Prime Institutional Fund, Government Institutional Fund, Treasury Institutional Fund, Prime Reserves Fund, and Tax-Free Reserves Fund are "feeder funds" that invest all of their investable assets in "master funds"—Prime Master Fund, ESG Prime Master Fund, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund, respectively (each a "Master Fund", collectively, the "Master Funds" and each a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder funds and their respective Master Funds have the same investment objectives.

Prior to August 28, 2007, Prime Institutional Fund and Treasury Institutional Fund invested in securities directly. Effective August 28, 2007, Prime Institutional Fund and Treasury Institutional Fund invest substantially all of their assets in Prime Master Fund and Treasury Master Fund, respectively. ESG Prime Institutional Fund commenced operations on January 15, 2020. Tax-Free Reserves Fund commenced operations on August 28, 2007. Prime Reserves Fund commenced operations on January 19, 2016, and Government Institutional Fund commenced operations on July 26, 2016.

UBS Asset Management (Americas) Inc. ("UBS AM") is the investment advisor and administrator for the Master Funds and the administrator for the feeder funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of each Fund is directly affected by the performance of the corresponding Master Fund. The value of such investment reflects each Fund's proportionate interest in the net assets of its corresponding Master Fund (60.88% for Prime Institutional Fund, 31.31% for ESG Prime Institutional Fund, 30.10% for Government Institutional Fund, 40.64% for Treasury Institutional Fund, 60.55% for Prime Reserves Fund, and 64.22% for Tax-Free Reserves Fund at April 30, 2023.)

All of the net investment income and realized and unrealized gains and losses from investment activities of each Master Fund are allocated pro rata, based on respective ownership interests, among the corresponding Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Funds, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Funds' financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be

applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Funds' financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The following is a summary of significant accounting policies:

Valuation of investments—Each Fund records its investment in its corresponding Master Fund at fair value. Securities held by the Master Funds are valued as indicated in the Master Funds' Notes to financial statements, which are included elsewhere in this report.

Floating net asset value per share funds—Consistent with Rule 2a-7 under the 1940 Act, as amended ("Rule 2a-7"), Prime Institutional Fund and ESG Prime Institutional Fund each calculate its net asset value to four decimals (e.g., \$1.0000) using market-based pricing and expect that its share price will fluctuate.

On occasion, it is possible that the end of day accounting net asset value ("NAV") per share of a floating NAV fund, such as Prime Institutional Fund and ESG Prime Institutional Fund, as reported in a shareholder report, for example, may differ from the transactional NAV per share (used for purposes of processing purchases and redemptions); while this is not expected to occur with great frequency, it may happen should certain factors align on a given business day. The final end-of-day NAV per share for accounting and financial statement reporting purposes is designed to reflect all end-of-day accounting activities, which may include, but are not limited to, income and expense accruals, dividend and distribution reinvestments as well as final share activity; such items are factored into the Fund after the last transactional NAV per share is calculated on a given day (normally, the last transactional NAV per share is calculated as of 3 pm, Eastern time, as explained in the Fund's prospectus).

Constant net asset value per share funds—Government Institutional Fund, Treasury Institutional Fund, Prime Reserves Fund, and Tax-Free Reserves Fund (collectively the "Constant NAV Funds") attempt to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Constant NAV Funds will be able to maintain a stable net asset value of \$1.00 per share. The Constant NAV Funds have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable each to do so. Government Institutional Fund and Treasury Institutional Fund have adopted a policy to operate as "government money market funds". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As "government money market funds", Government Institutional Fund and Treasury Institutional Fund are permitted to seek to maintain a stable price per share. Prime Reserves Fund and Tax-Free Reserves Fund operate as "retail money market funds". Under Rule 2a-7, a "retail money market fund" is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As "retail money market funds", Prime Reserves Fund and Tax-Free Reserves Fund are permitted to seek to maintain a stable price per share.

Liquidity fee and/or redemption gates—Consistent with Rule 2a-7, Prime Institutional Fund, ESG Prime Institutional Fund, Prime Reserves Fund and Tax-Free Reserves Fund may be subject to the possible imposition of a liquidity fee and/or temporary redemption gate. Prime Master Fund, ESG Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund may impose a fee upon the sale of your shares of each related feeder fund or may temporarily suspend your ability to sell shares of each related feeder fund if Prime Master Fund's liquidity, ESG Prime Master Fund's liquidity, Prime CNAV Master Fund's liquidity and/or Tax-Free Master Fund's liquidity, respectively, falls below required minimums because of market conditions or other factors. For the period ended April 30, 2023, Prime Institutional Fund, ESG Prime Institutional Fund, Prime Reserves Fund and Tax-Free Reserves Fund were not subject to any liquidity fees and/or redemption gates.

By operating as "government money market funds", Government Institutional Fund and Treasury Institutional Fund are exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Funds' Board of Trustees (the "Board") may elect to subject Government Institutional Fund and Treasury Institutional Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as administrator to each Fund pursuant to an Administration Agreement approved by the Trust's board. In accordance with the Administration Agreement, each Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of each Fund's average daily net assets:

Fund	Administration fee	
Prime Institutional Fund	0.08%	
ESG Prime Institutional Fund	0.08	
Government Institutional Fund	0.08	
Treasury Institutional Fund	0.08	
Prime Reserves Fund	0.08	
Tax-Free Reserves Fund	0.08	

At April 30, 2023, each Fund owed UBS AM for administrative services as follows:

Fund	Amount owed to UBS AM
Prime Institutional Fund	\$430,888
ESG Prime Institutional Fund	55,977
Government Institutional Fund	272,528
Treasury Institutional Fund	763,315
Prime Reserves Fund	314,394
Tax-Free Reserves Fund	5,011

In exchange for these fees, UBS AM has agreed to bear all of the Master Funds' expenses other than interest, taxes, extraordinary costs and the cost of securities purchased and sold by the Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Funds' independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of each Fund's average daily net assets. At April 30, 2023, UBS AM did not owe the Funds any additional reductions in administration fees for independent trustees' fees and expenses.

In addition, UBS AM may voluntarily undertake to waive fees, including in the event that Funds' yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2023, there were no amounts owed by UBS AM or UBS AM-US for this undertaking.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest for each of the Funds for the periods ended April 30, 2023 and April 30, 2022 were as follows:

Prime Institutional Fund

For the year ended Ap

Federal tax status

Each Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, each Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Funds during the fiscal years ended April 30, 2023 and April 30, 2022 were as follows:

			2023			2022
Fund	Tax-exempt income	Ordinary income	Long- term realized capital gains	Tax-exempt income	Ordinary income	Long- term realized capital gains
Prime Institutional Fund	\$ —	\$184,698,832	\$—	\$ —	\$1,273,843	\$ —
ESG Prime Institutional Fund	_	26,468,580	_	_	106,424	_
Government Institutional Fund	_	122,303,466	_	_	442,196	495
Treasury Institutional Fund	_	293,967,577	_	_	2,546,336	4,266
Prime Reserves Fund	_	127,101,711	_	_	444,674	_
Tax-Free Reserves Fund	10,479,712	22	51	233,771	_	

At April 30, 2023, components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistri tax-ex in		Undistributed ordinary income	Undistribut long-te capital gai	rm	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
Prime Institutional Fund	\$	_	\$29,307,539	\$	_	\$(33,272)	\$(662,511)	\$(29,308,024)	\$(696,268)
ESG Prime Institutional Fund		_	4,327,486		—	(6,236)	(80,287)	(4,327,488)	(86,525)
Government Institutional Fund		_	22,025,779		_	_	_	(22,026,043)	(264)
Treasury Institutional Fund		_	54,114,677	228,8	315	_	_	(54,114,680)	228,812
Prime Reserves Fund		_	21,185,062		_	(24,554)	_	(21,185,030)	(24,522)
Tax-Free Reserves Fund	1,31	8,155	_		_	_	_	(1,317,967)	188

Net capital losses recognized by the Funds may be carried forward indefinitely, and retain their character as short term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed.

At April 30, 2023, the following Funds had net capital losses that will be carried forward indefinitely, as follows:

Fund	Short-term losses	Long-term losses	Net capital losses
Prime Institutional Fund	\$33,272	\$—	\$33,272
ESG Prime Institutional Fund	6,236	_	6,236
Prime Reserves Fund	24,554	_	24,554

During the fiscal year ended April 30, 2023, none of the Funds had capital loss carryforwards utilized.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded as of April 30, 2023, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2023, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2023, and since inception for ESG Prime Institutional Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Reorganization of Funds

Following the close of business on the date listed below, the Target Funds reorganized into existing Destination Funds within the Trust. The reorganizations into existing Destination Funds were as follows:

Target Fund	Destination Fund
UBS Select Prime Investor Fund	UBS Select Prime Institutional Fund
UBS Select ESG Prime Investor Fund	UBS Select ESG Prime Institutional Fund
UBS Select Government Investor Fund	UBS Select Government Institutional Fund
UBS Select Treasury Investor Fund	UBS Select Treasury Institutional Fund
UBS Prime Investor Fund	UBS Prime Reserves Fund
UBS Tax-Free Investor Fund	UBS Tax-Free Reserves Fund

Pursuant to an Agreement and Plan of Reorganization (the "Reorganizations"), each Target Fund transferred all of its assets to the corresponding Destination Fund. In exchange, the applicable Destination Fund assumed all of the

liabilities of the applicable Target Fund. The reorganizations were accomplished by a tax-free exchange of shares of the Target Funds for shares of the Destination Funds outstanding following the close of business on January 20, 2023. The Target Funds' Board determined that the Reorganizations were in the best interests of the shareholders of the Target Funds. The Target Funds and the Destination Funds have the same investment objective, principle investment strategies and principle risks. Additionally, each Target Fund and Destination Fund held proportionate interests in the assets of the applicable series of Master Trust.

Target Fund	Fund Shares	Destination Fund	Destination Fund Shares	Dollar Amount	Exchange Ratio (A)
UBS Select Prime Investor Fund	462,975,626	UBS Select Prime Institutional Fund	463,021,915	\$463,105,141	1.00
UBS Select ESG Prime Investor Fund	3,039,635	UBS Select ESG Prime Institutional Fund	3,036,900	3,038,176	1.00
UBS Select Government Investor Fund	166,327,509	UBS Select Government Institutional Fund	166,327,509	166,317,795	1.00
UBS Select Treasury Investor Fund	332,999,405	UBS Select Treasury Institutional Fund	332,999,405	332,999,088	1.00
UBS Prime Investor Fund	283,120,174	UBS Prime Reserves Fund	283,120,174	283,120,190	1.00
UBS Tax-Free Investor Fund	29,717,207	UBS Tax-Free Reserves Fund	29,717,207	29,717,195	1.00

(A) Calculated by dividing the Destination Fund shares issuable by the Fund shares outstanding on Reorganization Date.

The net assets of the Target Funds, including unrealized appreciation (depreciation), were combined with those of the Destination Funds. These amounts were as follows:

Target Fund Unrealized Appreciation (Depreciation)	Target Fund Net Assets	Destination Fund	Destination Fund Net Assets Prior to Reorganization	Net Assets After Reorganization
\$312,683	\$463,105,141	UBS Select Prime Institutional Fund	\$ 6,615,328,161	\$ 7,078,433,302

UBS Prime Reserves Fund	133,351,637	(24,552)	133,327,085
UBS Tax-Free Reserves Fund	10,802,571	24	10,802,595

UBS Institutional/Reserves Funds Report of independent registered public accounting firm

To the Shareholders of UBS Select Prime Institutional Fund, UBS Select ESG Prime Institutional Fund, UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund and UBS Tax-Free Reserves Fund and the Board of Trustees of UBS Series Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of UBS Select Prime Institutional Fund, UBS Select ESG Prime Institutional Fund, UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund and UBS Tax-Free Reserves Fund (collectively referred to as the "Funds") (six of the funds constituting UBS Series Funds (the "Trust")), as of April 30 2023, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (six of the funds comprising the Trust) at April 30, 2023, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting UBS Series Funds	Statement of operations	Statements of changes in net assets	Financial highlights
UBS Select Prime Institutional Fund UBS Select Treasury Institutional Fund UBS Tax-Free Reserves Fund UBS Prime Reserves Fund UBS Select Government Institutional Fund	For the year ended April 30, 2023	For each of the two years in the period ended April 30, 2023	For each of the five years in the period ended April 30, 2023
UBS Select ESG Prime Institutional Fund	For the year ended April 30, 2023	For each of the two years in the period ended April 30, 2023	For each of the three years in the period ended April 30, 2023 and the period from January 15, 2020 (commencement of operations) through April 30, 2020

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

UBS Institutional/Reserves Funds Report of independent registered public accounting firm

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York June 28, 2023

UBS Institutional/Reserves Funds General information (unaudited)

Monthly portfolio holdings disclosure

The Funds and Master Funds file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. These reports on Form N-MFP are available on the SEC's Web site at http://www.sec.gov. The Funds and Master Funds make portfolio holdings information available to shareholders on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. A more limited portfolio holdings report for each of Master Trust—Prime Master Fund (the master fund in which UBS Select Prime Institutional Fund invests), Master Trust—ESG Prime Master Fund (the master fund in which UBS Select ESG Prime Institutional Fund invests) and Master Trust—Prime CNAV Master Fund (the master fund in which UBS Prime Reserves Fund invests) is available on a weekly basis at the same UBS Web address. Investors also may find additional information about the Funds at the above referenced UBS Web site internet address.

Proxy voting policies, procedures and record

You may obtain a description of each Fund's (and corresponding Master Fund's) (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how a fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting a fund directly at 1-800-647 1568, online on UBS's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Web site (http://www.sec.gov).

Other tax information

Pursuant to Sections 871(k)(1)(C)(i) and 871(k)(2)(C)(i) of the Internal Revenue Code, the Funds designate the following ordinary income distributions paid as qualified interest income and qualified short term capital gains for the fiscal year ended April 30, 2023:

Fund	Qualified interest income	Qualified short term capital gains
Prime Institutional Fund	\$101,504,839	\$—
ESG Prime Institutional Fund	9,012,545	_
Government Institutional Fund	122,303,466	_
Treasury Institutional Fund	276,364,706	_
Prime Reserves Fund	50,767,573	_

Annual Report | April 30, 2023

Includes:

- Prime Master Fund
- ESG Prime Master Fund
- Government Master Fund
- Treasury Master Fund
- Prime CNAV Master Fund
- Tax-Free Master Fund

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Funds. Investors in the related "feeder funds" should instead focus on separate expense examples relevant to the particular feeder funds; the expense examples for the feeder funds will reflect their proportionate share of the corresponding Master Funds' expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. This example is intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2022 to April 30, 2023.

Actual expenses

The first line in the table below for each Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

Understanding a Master Fund's expenses (unaudited) (concluded)

	Beginning account value November 1, 2022	Ending account value April 30, 2023	Expenses paid during period 11/01/22 to 04/30/23	Expense ratio during the period
Prime Master Fund				
Actual	\$1,000.00	\$1,022.70	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
ESG Prime Master Fund				
Actual	\$1,000.00	\$1,022.70	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Government Master Fund				
Actual	\$1,000.00	\$1,022.00	\$0.30	0.06%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.50	0.30	0.06
Treasury Master Fund				
Actual	\$1,000.00	\$1,021.60	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Prime CNAV Master Fund				
Actual	\$1,000.00	\$1,022.60	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Tax-Free Master Fund				
Actual	\$1,000.00	\$1,012.60	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one–half year period).

Portfolio characteristics at a glance—April 30, 2023 (unaudited)

Prime Master Fund

Characteristics

Weighted average maturity ¹	12 days

Other assets in excess of liabilities	0.1
Total	100.0%

You could lose money by investing in a money market fund. Because the price of interests in Prime Master Fund will fluctuate, when you sell your shares of each related feeder fund, your shares of the related feeder fund may be worth more or less than what you originally paid for them. Prime Master Fund may impose a fee upon sale of your shares of each related feeder fund or may temporarily suspend your ability to sell shares of each related feeder fund if Prime Master Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

¹ The Master Fund's portfolio is actively managed and its weighted average maturity will differ over time.

² Weightings represent percentages of the Master Fund's net assets as of the date indicated. The Master Fund's portfolio is actively managed and its composition will vary over time.

An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

¹ The Master Fund's portfolio is actively managed and its weighted average maturity will differ over time.

² Weightings represent percentages of the Master Fund's net assets as of the date indicated. The Master Fund's portfolio is actively managed and its composition will vary over time.

Portfolio characteristics at a glance—April 30, 2023 (unaudited) (continued)

Government Master Fund

U.S. Treasury obligations

Characteristics	
Weighted average maturity ¹	6 days
Portfolio composition ²	
Repurchase agreements	73.5%
U.S. government agency obligations	22.1

Liabilities in excess of other assets (0.5)

Total 100.0%

You could lose money by investing in a money market fund. Although Government Master Fund seeks to preserve the value of your investment so that the shares of each related feeder fund are at \$1.00 per share, Government Master Fund cannot guarantee it will do so. An investment in a money market fund is not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to a money market fund, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time.

Not FDIC insured. May lose value. No bank guarantee.

4.9

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2023 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
Certificates of deposit	\$—	\$ 1,684,126,880	\$—	\$ 1,684,126,880
Commercial paper	_	5,032,012,072	_	5,032,012,072
Time deposits	_	369,000,000	_	369,000,000
Repurchase agreements	_	5,142,000,000	_	5,142,000,000
Total	\$—	\$12,227,138,952	\$—	\$12,227,138,952

At April 30, 2023, there were no transfers in or out of Level 3.

Portfolio footnotes

- ¹ Variable or floating rate security. The rate shown is the effective rate as of period end and adjusts periodically. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and based on current market conditions. The maturity date reflects earlier of reset date or stated maturity date.
- ² Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Securities exempt from registration pursuant to Rule 144A, in the amount of \$2,210,218,869, represented 18.0% of the Master Fund's net assets at period end.
- ³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2023 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2023.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2023 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
Certificates of deposit	\$	\$ 452,052,048	\$—	\$ 452,052,048
Commercial paper	_	1,841,498,947	_	1,841,498,947
Time deposits	_	100,000,000	_	100,000,000
Repurchase agreements		1,014,000,000	_	1,014,000,000
Total	\$—	\$3,407,550,995	\$—	\$3,407,550,995

At April 30, 2023, there were no transfers in or out of Level 3.

Portfolio footnotes

- ¹ Variable or floating rate security. The rate shown is the effective rate as of period end and adjusts periodically. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and based on current market conditions. The maturity date reflects earlier of reset date or stated maturity date.
- ² Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Securities exempt from registration pursuant to Rule 144A, in the amount of \$704,065,240, represented 20.6% of the Master Fund's net assets at period end.
- ³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2023 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2023.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2023 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments.

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 4,251,114,246	\$—	\$ 4,251,114,246
U.S. Treasury obligations	_	946,244,661	_	946,244,661
Repurchase agreements	<u> </u>	14,131,000,000	_	14,131,000,000
Total	\$—	\$19,328,358,907	\$—	\$19,328,358,907

At April 30, 2023, there were no transfers in or out of Level 3.

Portfolio footnotes

- ¹ Variable or floating rate security. The rate shown is the effective rate as of period end and adjusts periodically. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and based on current market conditions. The maturity date reflects earlier of reset date or stated maturity date.
- ² Rate shown is the discount rate at the date of purchase unless otherwise noted.
- ³ Rates shown reflect yield at April 30, 2023.
- ⁴ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2023 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2023.

See accompanying notes to financial statements.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2023 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
Certificates of deposit	\$	\$ 1,369,000,000	\$—	\$ 1,369,000,000
Commercial paper	_	4,842,949,205	_	4,842,949,205
Time deposits	_	536,000,000	_	536,000,000
Repurchase agreements	_	2,205,000,000	_	2,205,000,000
Total	\$ 	\$8,952,949,205	\$—	\$8,952,949,205

At April 30, 2023, there were no transfers in or out of Level 3.

Portfolio footnotes

- ¹ Variable or floating rate security. The rate shown is the effective rate as of period end and adjusts periodically. Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and based on current market conditions. The maturity date reflects earlier of reset date or stated maturity date.
- ² Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Securities exempt from registration pursuant to Rule 144A, in the amount of \$1,774,999,785, represented 19.8% of the Master Fund's net assets at period end.
- ³ Investment has a put feature, which allows the Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2023 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Fund if the put feature was exercised as of April 30, 2023.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2023 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Municipal bonds	\$	\$ 872,885,000	\$—	\$ 872,885,000
Tax-exempt commercial paper	_	45,785,000	_	45,785,000
Total	\$—	\$918,670,000	\$—	\$918,670,000

At April 30, 2023, there were no transfers in or out of Level 3.

Glossary of terms used in the Portfolio of investments

Portfolio acronyms:

AGM Assured Guaranty Municipal Corporation

COP Certificate of Participation GO General Obligation

VRD Variable rate demand notes are payable on demand. The interest rates shown are the current rates as of April 30, 2023 and reset periodically.

Organization and significant accounting policies

Prime Master Fund, ESG Prime Master Fund, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund (each a "Master Fund", collectively, the "Master Funds") are each registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. The Trust is a series mutual fund with six series.

Prime Master Fund, Treasury Master Fund, and Tax-Free Master Fund commenced operations on August 28, 2007. Prime CNAV Master Fund commenced operations on January 19, 2016, Government Master Fund commenced operations on June 24, 2016 and ESG Prime Master Fund commenced operations on January 15, 2020.

UBS Asset Management (Americas) Inc. ("UBS AM") is the investment advisor and administrator for the Master Funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

Each Master Fund may issue any number of interests and each interest shall have a par value of \$0.001 per interest. The interests of a Master Fund shall represent a proportional beneficial interest in the net assets belonging to that series. Each holder of interests of a Master Fund shall be entitled to receive his or her pro rata share of all distributions made with respect to such Master Fund according to the investor's ownership percentage of such Master Fund on the record date established for payment. Upon redemption of interests, an investor shall be paid solely out of the assets and property of such Master Fund. Beneficial interests in the Trust are not registered under the Securities Act of 1933, as amended, since such interests are issued in private placement transactions.

In the normal course of business, the Master Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Funds that have not yet occurred. However, the Master Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Funds' financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The following is a summary of significant accounting policies:

Valuation of investments

Consistent with Rule 2a-7 under the 1940 Act, as amended ("Rule 2a-7"), the net asset values of each of Prime Master Fund and ESG Prime Master Fund are calculated using market-based values, and the price of its beneficial interests fluctuate.

Under Rule 2a-7, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund have adopted certain policies that enable them to use the amortized cost method of valuation. Government

Master Fund and Treasury Master Fund have adopted a policy to operate as "government money market funds". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (*i.e.*, collateralized by cash and/or government securities). Prime CNAV Master Fund and Tax-Free Master Fund operate as "retail money market funds". Under Rule 2a-7, a "retail money market fund" is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As "government money market funds" and as "retail money market funds", Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund value their investments at amortized cost unless UBS AM, as the valuation designee appointed by Master Trust's Board of Trustees (the "Board") pursuant to Rule 2a-5 under the 1940 Act, determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and Tax-Free Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the "VC") to assist with its designated responsibilities as valuation designee with respect to the Master Funds' portfolio of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Master Fund's portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

Each Master Fund's portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund's beneficial interests are priced. Pursuant to each Master Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company's prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of each Master Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of each Master Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of each Master Fund's Portfolio of investments.

Liquidity fee and/or redemption gates—Consistent with Rule 2a-7, the Board is permitted to impose a liquidity fee on redemptions from each of Prime Master Fund, ESG Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund or a redemption gate to temporarily restrict redemptions from those Master Funds in the event that any of Prime Master Fund's liquidity, ESG Prime Master Fund's liquidity, Prime CNAV Master Fund's liquidity and/or Tax-Free Master Fund's liquidity, respectively, falls below required minimums because of market conditions or other factors. If Prime Master Fund's, ESG Prime Master Fund's, Prime CNAV Master Fund's or Tax-Free Master Fund's weekly liquid assets fall below 30% of the Fund's total assets, the board is permitted, but not required, to: (i) impose a liquidity fee of no more than 2% of the amount redeemed; and/or (ii) impose a redemption gate to temporarily suspend the right of redemption. If any of Prime Master Fund's, ESG Prime Master Fund's, Prime CNAV Master Fund's or Tax-Free Master Fund's weekly liquid assets falls below 10% of the Fund's total assets, the relevant Fund must impose, generally as of the beginning of the next business day, a liquidity fee of 1% of the amount redeemed unless the Board determines that such a fee would not be in the best interest of the Fund or determines that a lower or higher fee (subject to the 2% limit) would be in the best interest of the Fund. Liquidity fees would reduce the amount an interest holder receives upon redemption of its beneficial interests. Prime Master Fund, ESG Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund retains the liquidity fees for the benefit of its remaining interest holders. For the period ended April 30, 2023, the Board of Prime Master Fund, ESG Prime Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund did not impose any liquidity fees and/or redemption gates.

By operating as "government money market funds", Government Master Fund and Treasury Master Fund are exempt from requirements that permit the imposition of a liquidity fee and/or temporary redemption gates. While the Board may elect to subject Government Master Fund and Treasury Master Fund to liquidity fee and gate requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Master Funds may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. The Master Funds maintain custody of the underlying obligations prior to their repurchase, either through their regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Master Funds and their counterparty. The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Funds generally have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's quarantor, if any) becomes insolvent, the Master Funds may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings. Each Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Master Funds may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Prime Master Fund, ESG Prime Master Fund, Government Master Fund, Treasury Master Fund, and

Prime CNAV Master Fund may engage in repurchase agreements as part of normal investing strategies; Tax-Free Master Fund generally would only engage in repurchase agreement transactions as temporary or defensive investments.

Under certain circumstances, a Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to each Master Fund pursuant to an investment advisory and administration contract ("Management Contract") approved by the Board. In accordance with the Management Contract, each Master Fund pays UBS AM an investment advisory and administration fee ("management fee"), which is accrued daily and paid monthly, at the below annual rates, as a percentage of each Master Fund's average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

At April 30, 2023, each Master Fund owed UBS AM for investment advisory and administration services, net of waivers (if any), as follows:

Fund	Net amount owed to UBS AM	
Prime Master Fund	\$ 892,970	
ESG Prime Master Fund	222,231	
Government Master Fund	1,494,611	
Treasury Master Fund	2,583,445	
Prime CNAV Master Fund	667,618	
Tax-Free Master Fund	59,581	

In exchange for these fees, UBS AM has agreed to bear all of the Master Funds' expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Funds' independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of each Master Fund's average daily net assets.

In addition, UBS AM may voluntarily undertake to waive fees. This additional undertaking is voluntary and not contractual and may be terminated at any time. During the period ended April 30, 2023, UBS AM voluntarily waived the below amounts, which are not subject to future recoupment:

Fund	Amounts waived by UBS AM
ESG Prime Master Fund	\$ 438,083
Government Master Fund	6,178,544

Net increase (decrease) in beneficial interest	\$ 20,558,999 \$ 69,072,966

Federal tax status

Each Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in a Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that each Master Fund's assets, income and distributions will be managed in such a way that an investor in a Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

Aggregate cost for federal income tax purposes was substantially the same for book purposes; and net unrealized appreciation/(depreciation) consisted of:

Prime Master Fund

Gross unrealized appreciation	\$ 693,746
Gross unrealized depreciation	(1,586,646)
Net unrealized appreciation (depreciation)	\$ (892,900)

ESG Prime Master Fund

Gross unrealized appreciation	\$ 200,783
Gross unrealized depreciation	(548,728)
Net unrealized appreciation (depreciation)	\$ (347,945)

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Funds have conducted an analysis and concluded, as of April 30, 2023, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2023, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2023, and since inception for ESG Prime Master Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Master Trust Report of independent registered public accounting firm

To the Shareholders and the Board of Trustees of Master Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Master Trust (the "Trust"), (comprising Prime Master Fund, ESG Prime Master Fund, Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund and Tax-Free Master Fund (collectively referred to as the "Funds")), including the portfolios of investments, as of April 30, 2023, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Master Trust at April 30, 2023, the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Funds comprising the Master Trust	Statement of operations	Statement of changes in net assets	Financial highlights
Prime Master Fund Treasury Master Fund Tax-Free Master Fund Prime CNAV Master Fund Government Master Fund	For the year ended April 30, 2023	For each of the two years in the period ended April 30, 2023	For each of the five years in the period ended April 30, 2023
ESG Prime Master Fund	For the year ended April 30, 2023	For each of the two years in the period ended April 30, 2023	For each of the three years in the period ended April 30, 2023, and the period from January 15, 2020 (commencement of operations) through April 30, 2020

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Master Trust Report of independent registered public accounting firm

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2023, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York June 28, 2023

Master Trust General information (unaudited)

Monthly portfolio holdings disclosure

The Master Funds file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. The Master Funds' reports on Form N-MFP are available on the SEC's Web site at http://www.sec.gov. The Master Funds make portfolio holdings information available to interest holders (and investors in the related feeder funds) on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. A more limited portfolio holdings report for Prime Master Fund, ESG Prime Master Fund and Prime CNAV Master Fund is available on a weekly basis at the same Web address. Investors also may find additional information about the Master Funds at the above referenced UBS Website internet address.

Proxy voting policies, procedures and record

You may obtain a description of the Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Web site: www.ubs.com/ubsam-proxy, or on the EDGAR Database on the SEC's Web site (http://www.sec.gov).

UBS Institutional/Reserves Funds Supplemental information (unaudited)

Board of Trustees & Officers

The Funds are governed by a Board of Trustees which oversees the Funds' operations. Each trustee serves an indefinite term of office. Officers are appointed by the trustees and serve at the pleasure of the Board. The table below shows, for each trustee and officer, his or her name, address and age, the position held with the Trust, the length of time served as a trustee or officer of the Trust, the trustee's or officer's principal occupations during the last five years, the number of funds in the UBS fund complex overseen by the trustee or for which a person served as an officer, and other directorships held by the trustee.

The Funds' Statement of Additional Information contains additional information about the trustees and is available, without charge, upon request by calling 1-800-647 1568.

Name, address, and age	Position(s) held with Trust	Term of office ¹ and length of time served	Principal occupation(s) during past 5 years	Number of portfolios in fund complex overseen by trustee	Other directorships held by trustee
Alan S. Bernikow; 82 K2 Integrity 845 Third Avenue New York, NY 10022	Trustee and Chairman of the Board of Trustees	Since 2005 (Trustee); Since 2022 (Chairman of the Board of Trustees)	Mr. Bernikow is retired. Until 2023, he was a director of Revlon, Inc. (cosmetics) (and served as the chair of its audit committee and as the chair of its compensation committee). From 2003 to 2017, Mr. Bernikow was also a director of Destination XL Group, Inc. (menswear) (and served as a member of its nominating and corporate governance committee). Prior to June 2003, Mr. Bernikow also had served as the deputy chief executive officer at Deloitte & Touche (international accounting and consulting firm).	Mr. Bernikow is a director or trustee of 4 investment companies (consisting of 38 portfolios) for which UBS AM serves as investment advisor or manager.	Mr. Bernikow is also the leac director of Mack-Cali Realty Corporation (real estate investment trust) (and serves as the chair of its audit committee).
Richard R. Burt; 76 McLarty Associates 900 17th Street 8 th Floor Washington, D.C. 20006	Trustee	Since 1998	Mr. Burt is a managing partner of McLarty Associates (a consulting firm) (since 2007). He was chairman of IEP Advisors (international investments and consulting firm) until 2009.	Mr. Burt is a director or trustee of 4 investment companies (consisting of 38 portfolios) for which UBS AM serves as investment advisor or manager.	None
Bernard H. Garil; 83 6754 Casa Grande Way Delray Beach, FL 33446	Trustee	Since 2005	Mr. Garil is retired (since 2001). He was a managing director at PIMCO Advisory Services (from 1999 to 2001) where he served as president of closed-end funds and vice-president of the variable insurance product funds advised by OpCap Advisors (until 2001).	Mr. Garil is a director or trustee of 4 investment companies (consisting of 38 portfolios) for which UBS AM serves as investment advisor or manager.	Mr. Garil is also a trustee for the Brooklyn College Foundation, Inc. (charitable foundation).
