Sources of Ordinary Income Dividends from U.S. Government and Agency Obligations for Calendar Year 2022

The tax laws of each state differ with respect to the taxation of the dividends paid by mutual funds that were derived in whole or in part from interest earned on U.S. government and agency obligations. Some states require that a minimum percentage, usually 50% of the fund's assets, consist of direct U.S. government securities at the end of each fiscal quarter to be exempt from state taxes. None of the funds below met this requirement during the 2022 calendar year for California and New York. The following table indicates certain sources of the ordinary income dividends paid by the funds during calendar year 2022.
